The Teachings of Jesus

Become an Apostle of Truth

Truth only comes from God and before the world can come to an end, as we know it, the truth must be revealed. How will this be done? The Lord will accomplish this by using his prophets; the same way He used the prophets in the Old Testament which also contains the Book of the Prophets.

This work presents the teachings that were given, by the Lord, to the prophets of our time that are located throughout the world. When these teachings are brought together, they present a clear picture of the events that will lead us to the return of Jesus in Glory and the end of a period of salvation.

Jesus is speaking: "All the strands of this Mission are being drawn together to form a pattern. Then, when the various parts are linked and fitted together, like the pieces of a jigsaw, when all the pieces begin to merge, the final picture will become clear."

Ref: MDM message Jan 24, 2014

The 'final picture' has been assembled and presented in the twelve volumes of the Alpha and Omega of Creation Series

Become an Apostle of truth by passing on the Lord's teachings to family and friends. The Lord has revealed the past, the present and the future. You can't even begin to comprehend His love for you unless you understand the very beginning, only then will you understand who you really are and how great is His love for you.

In Honor of the Holy Spirit

May the Holy Spirit descend upon you and fill you with love and wisdom, as you journey through space and time, to discover the wonders of creation as the Father reveals His Divine Plan for mankind. May the Magnificat of the Blessed Mother's "yes" be your "yes" as you open your heart and mind to receive knowledge, truth, and understanding that only the Holy Spirit can give.

"When the Paraclete comes, the Spirit of truth who comes from the Father – and whom I Myself will send from the Father – He will bear witness on My behalf. He will guide you to all truth."

(John 15, 26-27; 16:13)

The Spirit of Truth Prayer

Holy Spirit baptize me with the fire of your love. I have surrendered to you the best of my ability, and now I want to activate Your Spirit of Love within me. I need Your power in my life. Please fill me now. I believe that as I yield and ask, You will release Your strength, wisdom, healing, and love to meet the needs of the hour. Work in me in a powerful way. I want every purpose God has for my life to be fulfilled, and I need you, mighty Spirit of God, to bring that purpose to fulfillment. Release Your Spirit within me, Amen.

They shall all be taught by God

The Universe – Alien Civilizations - Central Suns

Ref: Revelation by Jakob Lorber the Prophet.

God the Father is speaking: "Who of us, looking at the starry night sky, did not ask whether we are alone or whether there are intelligent beings on one or the other heavenly objects out there. And could we perhaps get into contact with them? (NASA did, as you know.) Did the material universe really come into existence through the Big Bang? Is there really Dark Matter or is our sun really a gigantic nuclear reactor etc.

Huge funds were spent, and scientists have collected mountains of data to find answers to these unending questions. Their universe is, however, looking chaotic and is rife with accidents, catastrophes, instability and is highly speculative. Every new discovery creates hosts of new questions or may contradict established theories. The main problem of science lies in the fact that it has created a paradigm which has no space for God and a universe which was created by Him and is organized and controlled by Him.

It is the New Revelation which tells us that all established objects of a certain size in space are inhabited by people (and not exotic aliens) and that everywhere the human shape is the highest form of beings, because it is the image of God. We learn that matter, even the entire material universe, came into being only after a part of the primary spiritual beings cut their links to God or rebelled against Him and how from the invisible spiritual visible matter emerged. We discover how specific space objects like suns (stars) and planets formed and how beings there evolved for whom the grace of God prepared the path back to a spiritual existence.

We also read that there is a hierarchical structure of the universe and that there are immensely big 'central suns'. That the suns are not big gas balls and nuclear reactors at all but solid objects in 'shell' or 'hull' form, how light originates and propagates. In fact, light does not originate by nuclear fusion (conversion of hydrogen into helium) but is created on the surface of the two types of biggest central suns (the primary central sun and the space central suns). On these an extremely energy rich super gas is burning creating the light in our local universe. The energy potential of this gas is many orders of magnitude higher than any gas on our planet.

As the suns and central suns are not gas balls but solid bodies, objects of giant size are possible. The mass of these central suns is thousands to millions of times bigger than all matter (galaxies, suns, planets) in their orbit."

The Creation of the Material and Spiritual World - Cosmic Man

Ref: "Secrets of Creation" by Jakob Lorber Ch 13 – January 15, 1871

Jesus is speaking: "My dear Son, you want to have an explanation from Me of My creation; you want to see, as the smallest point in space, the immensity of My kingdom and grasp its greatness, its expansiveness!

I could show it to you with My spiritual vision so it would be possible that you could attain a distant idea of its greatness; but so, as a finite creature, how shall I make you understand infinity? How shall I show you understandably that if you can think of the whole material creation in all its dimensions (where the last star or the last sun of a system is shimmering, another one has its beginning again from a new distance) that - where all matter has its end, only the eternal spirit kingdom begins?

How can you grasp all this? Consider your question to me well! I know you are basing yourselves on it by confronting Me saying: "Yes, I may be a tiny worm, but My spirit, My soul, they are not, they carry a spark from you, and by means of this spark I dare to ask the question as a child of an infinite father, and say: Father! To fully understand you, please show Me your power, show Me your house where I am to live and enjoy the bliss that you have given to the children who love you and follow your teachings!

I will also answer this question and say to you: look, My dear Son, you have attacked the matter on the right point. As a man you are too insignificant, but as a spirit you are big enough to penetrate with Me into the deepest areas of creation, to see miracles there and, by your spirit descending from me, are able to comprehend the why. And so, I will take you into My spiritual arms and fly with you through the immeasurable spaces where no human eye has yet sent its rays and where millions of wonders of creation and countless creatures sing an everlasting praise and song of thanksgiving to Me, the Lord and Creator, as the great spirit.

I will lead you into those spaces where only a spiritual eye can measure the distances, because your way of counting has long since ceased.

I will lead you to the fountain of life, from where all life flows out for the material world, and from there I will again lead you with light and speed of thought to the outside of the Great Creator, where the visible ends and only the spiritual, still by far greater cosmic man begins!

You shall enjoy with Me the idea of My greatness, and you shall sink astonishingly into the dust before My other main characteristic, humility!

So come then, rise up with me! Leave the earthly transmission of transient desires and sorrows and follow Me in the never withering flower garden of your heavenly Father, who wants you to experience the pleasures there of which no mortal man has ever known. (See in "The Twelve Hours" the 11th and 12th hour).

Here you can see the great material **cosmic man** in front of you, surrounded by dense ethereal skin, as a finite in the infinite. You can see how he continues his flight with the speed of thought in the immense space around a center unknown to him; you see how he absorbs all that is viable through his skin pores with all his

organs from the eternal primeval ether and also returns the consumed to the ether; you see his form or shape, which is like yours.

Now you ask, why does he have this form?

Well, here we want to discuss not only the explanation of what exists but also the why, and so follow Me in the flight of thought, as well as in space, and see that consequence (perseverance) or implementation of a basic principle is the first foundation of My divinity and should also be the first support of man as a spiritual being.

Look now, My Son, the human form, or My own, I have established as the first basic type in all creation and accordingly created all beings, from the smallest infusoria to man gradually developing this form.

Whatever animals and living beings there are in the whole material universe, all of them carry, at least in one or the other part, resemblances of the basic forms of a human body as a basic idea in themselves, which, according to their peculiarity and the way of life intended for them, are then further refined, better perfected, and advanced to a higher level until, after a long struggle, the culmination point, the human form is attained.

Apart from this struggle of all created things according to this form there is another main factor in all creation, which I have established as such and without which nothing could exist; it is the principle of self-preservation. For only once did I create and think of the material world in its entire range and scope, and there also its farther independence was determined by self-preservation, until, as in the small so in the great, the bodies and worlds and all created beings are developed so far that they then would be suitable for a higher level where the first given body has fulfilled its mission and, having reached the end of its existence with its dissolution, makes the first step to a better being.

In order to establish this self-preservation, I had to give him, in addition to the outside of every being, an inner organization which fulfils all the conditions so that the consumed is excreted and new things are ingested for it; through which exchange life is conditioned and further self-preservation is accomplished.

Well, here you see why everything that lives have inner organs and parts that have all been created for this process.

What we see in the smallest detail, you also see again in the greatest, where the cosmic man circles, My or also your form, but only in dimensions which can be grasped by a high spirit.

Analogous to the order of preservation of a smallest being, it also has its inner arrangement, which, like humans, is also designed and built to replace consumption with something new.

In him, too, a heart beats and pulsates that preserves everything and drives its life forces out into the last solar systems of the outer skin; he has his lungs to transform the essential substances, like the human air, into his own useful elements; He also has all the organs like you, and in these organs there are also beings living, as in those of your body, which for your eyes is also an entire world of invisible animals; similar to your body, all these organs also constitute a whole in the great cosmic man; everywhere the same order prevails as in the human organism.

Beings that live in the organ of the corresponding liver or lung of the cosmic man cannot be formed into heart or kidney people. They are happy in their existence

and await their transformation there, like all created beings after discarding their bodies, in order to be transferred into similar organs of the great spiritual man, or to come closer to their destiny in the more noble organs of the great cosmic man.

Now I see in you the question arises: What is the difference between our bodily functions and the task of these solar complexes, which present here the heart, there the lungs and there the head?

Then I say to you: the same task as in the human body. Here the heart drives the blood impregnated with new life forces through the arteries and veins, there the great solar system, which is equal to the heart, is equipped with just the means to communicate the new life principle absorbed from the ether by means of its organs to the other parts of the great cosmic man and thus to sustain him. The lungs, other suns and planetary systems of various natures, receive the cosmic man's blood impregnated with the consumed, and through the influence of the immeasurable ether and its inhalation, they also turn the consumed into living again and expel the useless through exhalation, namely into the great ether space through mouth and nose like you.

The large and small channels, as arteries, veins and capillaries that traverse the human body, are represented there by subordinate systems and comets; especially the latter are the Light and Life Carriers, who, while busy with their own formation, carry out the material of life to the outer skin of the great cosmic man through their elongated paths and either digest it again themselves or return it to the corresponding organ or Sun.

That is why they are free from the force of attraction, not like the planets, which forces them to orbit around their suns in short orbits without being able to escape from them. The comet floats freely, as a future world is forming, through all world systems, receiving from them what is appropriate to itself. Nothing stops it, it carries out his purpose until it too has become heavier and denser, shortens its course, and joins a solar system as an orbiting planet or independent sun, where it also goes through its period of development, until, after its inner activity has expired, the dissolution also assigns it higher tasks.

Thus, you see all organs fulfilling their functions, the brain grasps the spiritual, passes it on to the beings living in its organs, and these spread it through the nerves or spiritual conductors into the other solar systems and universes.

The eye looks out into the expanse of infinity, sees the goal from afar and recognizes its destiny as the eye of the world and communicates it to the brain; it is the mediator of the inside with the outside; the brain receives the impressions from the outside through the eye and communicates them to the beings living in the whole organism.

The ear hears the great world harmonies, delights the spiritual inhabitants of its organ through them. What is affected in the eye by light replaces sound in this solar complex; and just as in the human body one organ is always in connection with the other, so it is also in the great cosmic man, where a spiritual pleasure in one organ is communicated to and felt by the other.

In the eye, the seven colors break in its light and visual process; there, in those constellations, these colors are distributed into entire world systems, one representing the blue color, the other the red color, and so on. There in the great cosmic man there are suns of different colors, like the colors of the rainbow.

The people themselves are there in color, though to a lesser degree in their eyes, formed accordingly. There are wonders of size and intensity you little creatures have no idea about. So, in the organ of the ear, where the harmonies and the law of it are so widespread and perfected that your way of making music cannot bear any comparison with it. These beings therefore enjoy blisses of which you have no knowledge.

In the brain complex with its large central suns all is light, all wisdom, there man understands and sees the whole cosmic man, knows his mission, also knows Me as the greatest spirit. Like phosphorus in the human brain, in this system everything is light, everything is clear, so that shadows are completely unknown.

In the heart, the seat of life, everything is in motion and drives the great machine; the most beautiful, sublime feelings of bliss are permanent. Everything knows My love and My grace and knows why they are there and what their tasks are, and especially the small stimulating nerve of the cosmic heart is also the place where nearby your solar system is situated.

All organs, including elimination and procreation, have the same purpose as the corresponding ones in the human body; they belong to the excretion of the consumed and must be present just as well as those for ingesting, if a self-preservation of the great man of the world is to exist. The analogies of the inhabitants of these immense worlds are also as diverse as their own organs. It would be futile to try and explain them to you.

Just look at the earth, where is the beginning, where is the end of its creations, and so it is everywhere. An infinite God can only create what is infinite, so do not demand a description of world suns, their sizes, their suns and planets circling around them, of which there are an immense number, their sister suns with different colors, their inhabitants and creatures, where no writing material would suffice to describe only the smallest world, let alone those worlds where your light, known as the fastest movement, would be but only a slow and short movement.

These details can only be grasped with spiritual eyes and thought with spiritual thoughts. As long as you live in this earthly body, understanding these things is impossible for you. There in the hereafter, provided with increased spiritual insight, you will understand more easily what I am not able to explain here. It is sufficient for you to know that everywhere your eye or thought could reach, the human form has been established as the only dominant form; but it goes without saying that regarding size and color this must of course be different according to the corresponding worlds. But everywhere My love and My grace has been active to prepare the creatures whom I called into being for the greatest possible happiness, of which they are capable of on their points of view and which happiness is then increased from step to step until the last one to become My child crowns all troubles and struggles with My presence.

According to all this you may comprehend what I have chosen you for and what a great mission and ability I have provided for you.

Millions of beings lack this grace, that you fully enjoy, and while this great number of created beings knows Me only through My works or through teachers, which I send into their realms to guide and lead them, I descend here on your little earth to give you with My own mouth, through My scribe, bread from the heavens.

Just think what that means! Think of the greatness of My creation, of My own power and promise, and compare your insignificance, and you must sink down into nothingness before the grace I am giving you where you should really proclaim: "Father and Lord! What am I, that you remember me!" and once you first consider the sacrifices, I made for you to make you what you are to be in relation to the nerve structure of the cosmic heart itself; that is: the moving universal driving force of all My material creation!

Since in the human body even the smallest cell tissue or capillary vessel does not exist in vain, since everything only has to contribute to the preservation of the whole in its own way, not even the smallest fiber of the human body is forgotten in the great cosmic man, and everything can be found there reproduced accordingly; Only you do not have to think of the functions of the great cosmic man in the same way as those of your body, but in analogous correspondences, where whole solar systems express and perform exactly what one or the other organ in the human body also has to do in relation to the whole in terms of their position, nature and number. - For example, the spleen is the electric furnace, where the blood is revived after its short circulation. Also, in the great cosmic man the corresponding solar universe with its thousands of suns and planets is nothing else but the great distributor of life to many other worlds dependent on it, which these again, gifted with more power and light than it is possible to consume, distributes it again, through vast light-spaces, to other suns and worlds. These then, according to their position to the whole, process what is suitable for them and also give the impulse to thousands of different processes through their magnetic electrical emanation and so on, until everything goes through its cycle and what has been used up is returned to the ether by means of the elimination organs.

This is the process for preservation of the great cosmic man, who through his rapid movement in infinite space awakens the life elements lying within the ether by means of friction caused by his own movement, and then transfers them through his countless absorption organs, like the pores in the human skin, to the inner organs for further use and to his own future existence.

Look now, My dear son, so awakening and giving life, our cosmic man floats for eons and eons of time periods in infinite space with no boundaries, until he too has worn himself out internally and externally and is approaching his decay. And what happens to the human body after its death also happens there. Also, he (the great cosmic man) will be dissolved into other elements; other products will be formed from his remains, which again, as is the case with the decaying human bodies, will lead to new creations.

The matter from which he was created will have to undergo a process of separation. The spiritual will enter into spiritual associations and the material into material, where each one carrying the structure for future self-preservation in itself, will then start anew a great course of evolution and will organize itself again into the shape of the human body, only with the difference that as in the human body the earthly organs relate to their future spiritual ones, so also in the great cosmic man these are represented in spiritual correspondences.

And so, out of the demise of the present cosmic man another emerges who, composed of finer spiritual elements, will again be a new cosmic man; but

everything in it, its inhabitants and otherwise living beings, will be of a higher spiritual nature.

That which in the body of man was the imprisoned soul and the spirit as a guide that will be the impulse in the cosmic man which drives all material creation towards its redemption and everything spiritual towards its spiritualization.

Look at the great cosmic man, all the suns form his inner being all light flows as a living fluid through its vast spaces. Like the blood in the human body, it carries it wherever it is needed; develops heat, the heat dissolves, retains the beneficial and expels the unnecessary. The latter, driven by the power of repulsion, flies through space, unites with other kindred, is again penetrated by the illuminating light and creates something new for other solar worlds; and thus, the uselessness of one transforms into a blessing for another.

Thus, it continues through infinite spaces of time, where millions of years are a negligible period; always renewing, always forming, always destroying; and out of all this activity, forming and destroying, the spiritual bound in matter develops to higher levels. Always higher and higher it refines itself from potency to potency, becomes purer, more spiritual, more divine, until it passes as divine spiritual into the infinitely greater spirit cosmic man and can find its use there for the time being on the lowest level, from which then an even higher stage begins, which rises up and up - to me, to My kingdom, to My heavens of the highest spiritual rest and the highest eternal bliss.

That this striving for spiritual power bound in matter continues until everything is released, and just as in man the bones change over time from flexible, elastic cartilage to rigid limestone, similarly in the great cosmic man, until the world systems corresponding to the human organs have been exhausted, everything living, active, receptive to light and heat have escaped and only what has become, as it were, a hard stone has remained.

When, after infinite periods of time, this case will have occurred, then the organism has ceased to be; the reproductive power of the lungs, the caustic excretions of the liver, the excretions exhausted, the procreation of new worlds, everything has been accomplished, the pores of the dense etheric skin of the great cosmic man are open, the ether penetrates and leaves again on the opposite side without having achieved anything, no organ absorbs its elements, no light greedily consumes its life-giving substances, it bounces off the calcified walls of the suns and worlds, life has escaped and found refuge in higher spiritual spaces, where death has never reigned and only eternal light, eternal love and eternal life has established itself.

When this state has occurred, then the great cosmic man will be dissolved by My mighty will; he approaches his transformation like the human body, and from the rigid, calcified, lifeless rock, like the phoenix according to an old worldly legend, a new, more beautiful, more spiritual world emerges again, which contains everything that the former cosmic man possessed, all his organs, all its functions, but finer, more spiritual. A new gradual creation begins, life and warmth flows again into the newly conscious cosmic man; the suns shine, the earths again happily circle around them in their productive spiral dance, and new beings, new creatures with likewise more spiritual bodies, begin their new course of life, where then death and destruction no longer has to serve as a necessary basic principle as a basis for a new

creation, where then only a gentle transition from one stage to the other marks the progress, where the material ends and the spiritual world begins.

There life begins in the great spirit man, there the former, now spiritualized cosmic man moves around My central sun shining in the deepest background, or the heart of the whole spiritual world; now absorbs not the ethereal but the spiritual through his new skin, thus spiritualizing his inner being, which then again gradually dissolves in its individual corresponding organs of the spiritual large cosmic man.

Just as the cosmic man flies through his path in the ether, struggling for spiritualization, so there are the etheric, in spiritual correspondence, millions and millions, which have all undergone similar processes in higher stages and still continuously undergo and spiritualize again forming individual organs of the great spirit-man, who also moves on in the vast infinite spaces, absorbs his own life principles for self-preservation from the surrounding finer, more spiritual ether and thus founds and maintains an eternal progression, an eternal transformation, new creation, and new bliss of the spirits living on such worlds.

In the spirit man the purpose of life of all created spirits is to guide the inferior, to lead them, to perfect their places of residence and thus to bring their worlds and their souls ever closer to Me. And as in the spiritual cosmic man the creation and education never come to an end, so there is no goal set for the activity of all spirits there either; they can and must always work, partly on their own, partly with other beings, and so help to fulfil My plans.

And behold, when I created this great spirit world with its immense expansion, when I gave these great powers to the spirits in that time, I placed the greatest spirit, born of me, like wisdom out of love, like self to charity, out of Me into the vast creation; gave him all spirit worlds, enabled him to work and create, gave him the name "light bearer or Satana" in the heavenly language of the spheres. And he, conscious of his tremendous power, took over, his self-love blinded him, and he enticed millions of spirits to fall away and thus became My worst opponent with them. His gentle light of love reddened to a fire of wrath and so he together with his spirits who fell away with him is the one who strives for My power, wants to turn My love, grace, and mercy against everything created into anger and hatred of Me and then trample down every dissolving breath of My love with mockery and scorn.

So, he was banished from the great kingdom of the spirit-man, from My kingdom of heaven, or in other words, he banished himself from it because he did not like the prevailing air of peace and love there; he fled far out into eternal infinity. And so also, he, although in opposition of me, only has to fulfill My purpose, so I created a material world from his and his spirits substances, clothed him and his ones there in matter, then dissolved into small particles, in order to, even if not completely, be able to return to me.

This is the law of the dissolution of matter, which must give up little by little, which voluntarily did not want to submit to My will. And so, Satan himself is banished with what remains of him after his materialization, on and in the earth, as the place of residence, where I had already determined eons and eons of years ago to accomplish the great work of humiliation and redemption for all men and spirits. And exactly there, where I want to give the most blessings and the greatest graces to most of them and spread them out from there, also he is to have the greatest power to seduce My children to become like him, as much as it is possible for him,

so that just out of this struggle against and with him, the most glorious flowers and spirits for My Kingdom will emerge and so, instead of working against me, he will have to help My children to the greatest victory, to the greatest happiness.

Thus Satan, free as I created him, only has to work for Me and not for his plans and help to promote the great process of spiritualization of all material things. In the spiritual great man of creation, the great organizing and creation always lives and weaves on, there, as in the cosmic man, the spirits also live according to the organs of the human body in the heavens corresponding to the organs; everything there is different from that of a man of the world. What is expressed in him in the form of matter lives and exists there in the spiritual; there the coarsest matter is light and the finest spirit.

Just as the eye of the cosmic man, a great sun and complex of worlds radiating far out into the ether sends its rays to absorb from there the material for life for the cephalic nerves or the spiritual worlds of wisdom, so the spiritual eye of the great spirit-man is the luminous one of love, which receives the most delicate elements from the Infinite Light of Grace in itself in order to transmit them to his great brain nervous system or wisdom heaven, where creation, its origin, its purpose and My Will is well understood by all spirits and angels of wisdom. Likewise, every other organ of the spiritual man carries out its assigned destiny, and the spirits living there accordingly have their purpose and their happiness in him.

In My Spirit-Creation man love and wisdom are the main substance, just as in man blood and air and in the cosmic man light and warmth.

Love is the first factor of movement in spiritual life, accompanying it - wisdom. Love stimulates, wisdom illuminates - in the cosmic man light, and warmth expands. Or in the human body - the heart blood revives, and in the short blood circulation of the liver it excretes bile, which then as an exciting principle again causes the separation process in the digestion, as in the cosmic man the decomposing warmth and in the spirit man the explanatory wisdom.

He who then pays homage to one or the other alone, misses his mission. Love alone is devastating and so is the wisdom that will reach to My limits; light (intense) is dazzling and warmth igniting. Blood circulation without replacement of the rejected elements with new ones has no purpose, as does bile without the digestive process.

My basic attributes are thus represented everywhere, and even on My descent to your earth, where I did the greatest work for matter and the spirit world, for a few moments My love separated from wisdom; The latter descended to you and taught you the former and sealed their teaching and its correctness that love without wisdom and wisdom without love cannot exist, with the greatest act of humiliation that a God could carry out.

Through this great act of humiliation on My part, the whole spirit world was made aware of the right standard of its sacrifices and denials, the way to Me was opened to all spirits; and since that time they have all been enlivened by a different spirit than before, namely not the fear of My power, but the love for Myself; before they saw the Lord in Me and now only the father!

Since this act My whole creation shines in a more beautiful light than before. Adoring, worshipping spirits once fell down before My Throne out of awe and silently worshipped My greatness; now everything crowds joyfully to Me, the Father,

who now also feels the whole bliss of His creation twice - He feels it as powerful Creator and Lord and feels it by seeing His own feeling gratefully reflected in the heart of His children.

Thus (and through this) the whole creation of worlds and spirits has become a true triumphal song for My heart. I also did not come now in vain; I too have created organs for Myself for My love in which My striving and working receive back again the reverberation of My joy in the eternal thanksgiving song of My children.

Thus, this creation has its infinite eternal purpose; eternally renewing itself, it prepares for Me and for the ones who are mine eternal happiness and a lasting bliss.

Eternal happiness for My children; for they find material for activity, material for admiration and material for worship; and I Myself find material for never-ending fatherly love, material for new satisfaction to see My plans and purposes fulfilled, and material for the further creation and eternal happiness of My children.

Love as light, like the blood in the human body, runs through the veins of the spiritual and material world man, like the human body, spreading salvation, blessing and life everywhere; Wisdom enlightens My wonders to the inquiring spirit; warmth excites the resting matter, stimulating it to transformation, the bile ignites in the stomach pulp and separates good from bad. So everywhere is the same change, the same activity, and the same striving.

What My highest angels and spirits clearly see before them spiritualized in the great cosmic man, the suns and world dwellers of the material world man suspect and seek in the research of matter.

Up there, where death has its landmark in the eternal light, love and spirit realm, there is bliss, is eternal exchange of all that has been created and perceived; there only love reigns combined with wisdom; there My children live only the joyful life, which is promised and prepared for all who live according to My teachings and examples.

In the cosmic man there are countless men and spirits waiting for redemption; they all go towards the process of transformation to the spirit kingdom, but only slowly. No being on any world or sun can boast of having this advantage like you, you tiny inhabitants of this earth, this little grain of sand in the universe.

On none of these great bodies have I personally been as I have just been on your earth, everywhere I have only sometimes shown Myself as Lord and Creator, guiding My creatures or teaching them through My spirits. Only here on this vein lump of solid, evil matter, the banishment place of My greatest adversary, did I perform the act of My greatest humiliation - and your greatest exaltation.

O consider this step! Compare yourselves with all other beings living in the wide space of creation, compare yourselves with those living in the spirit-man; what privilege is given to you by this step from Me; and now by the grace of direct communication where I reveal everything to you, making My creation clear to you and letting you look into the secrets of My Power and My Love that have never been revealed by anyone, not even the highest angels.

And how do you behave against it! How cold, how heartless, driven in part just out of curiosity, you are impatient for new messages and forgetting that every word from My Mouth is a stream of spiritual light that is far beyond all conceivable

distances from the center of My heaven, from the center of My Heart and My Fatherly Love to enlighten you, warm you, and draw you closer to Me.

Understand for once how it benefits My father's heart when I see that My words are understood as I give them to you, when I see how My great spiritual heaven is reflected in your hearts, when I see that all My words, all My material and spiritual creations are understood or at least suspected by you.

For whom then did I create these countless wonders, these countless light and heat carriers, the great worlds, and suns; for whom did I create My spirit heavens with all their never-ending pleasures, where one minute of eons abolishes ages of enjoyment on other suns and worlds. For whom I created all this, all that again in figurative form expresses Myself, so that you are also to see and recognize figuratively Him who wants to press all of you to the Father's Heart; for whom then did I create all this, direct and guide it, put into everything the instinct of self-preservation, so that nothing passes which could once bring joy to My children or would have squeezed out a joy or a tear of thanksgiving at the sight of them! For whom else did I create it but for you whom I redeemed and raised through My greatest humiliation.

O consider all this! Consider when you fly through the immeasurable creations and the infinite space in your thoughts; Consider, He who created all this, It is He Who wants nothing in return, but only the love of His child for Him, the Father!

Where is there on your earth a father capable of such sacrifice as I have proved to you?-and what do I ask?

In two laws I have written it with great flames on the tablets of creation of My spiritual and material kingdom: "Love God above all! and your neighbor as yourselves".

You have a brief but great sense of the many words. Execute these two Love Commandments of your Father in heaven, and He will prepare for you blessings no human eye has ever seen and no human breast has ever felt.

Here you have a brief interpretation of this long word. The creation of the great cosmic man, the creation of the Great Spirit man, all this collapsed into chaos, would be without purpose or reason, would lack love.

Love, light and life, three living words of My creation; take them to heart! Without love- no light, and without light no warmth!

Where in your life of deeds these three words are not established, is hatred, darkness, and death!

Love Me! Enlighten your heart! and warm your neighbors! and all creation rejoices for you; for with these you have conquered the Father's Heart, you have lifted yourselves up to be His children and have taken hold of heaven!

Consider this and fully recognize the importance of My communications!"
Amen.

The Hierarchical Structure of our Universe (Shell Globe)

In the light of the New Word of our Lord Jesus Jehovah (Yahweh), the notion of 'Universe' must be newly defined. What we usually understand under this name is the entirety of matter which we think is around us and which we can see with the latest and strongest telescopes. Jesus tells us however, that this is only our "local" universe. It is a giant sphere of about 10,114 light years in diameter which He calls the '**Shell Globe**'. See level 6 in the table above.

The real Universe consists of about 1,030 shell globes, (Multiverses) each firmly positioned at a distance of thousands of diameters of each shell globe. Together they form a human figure representing the fallen Lucifer. (See picture assembly lower right.)

Now we step back a little and again look at the entire figure. See: it is like a complete human-shape; and now that you have sufficiently looked at this figure, I am saying to you: This figure represents or describes out of and according to My eternal order— *the universe*; and therefore, it is, in reality, not visible in its form by anyone except Myself. In addition, a created spirit has never before seen this picture, as you have now observed it.

***The universe, seen from 'outside', is 'a perfect and complete human form' and 'can be seen in its kind by none accept Me in this reality.'* (Hi I p. 312)**

Note: There is more to this image than you think! If you are looking at this image from your computer or iPad, expand the image and you will see thousands of 'Shell Globes' and the cosmic web that holds everything together.

Our local universe has the form of a globe and is wrapped in an impenetrable hull or shell (similar to an eggshell). Therefore, the Lord calls it in His New Word "Shell-Globe".

All suns and smaller central suns are like the silvery decoration of a Christmas tree because of their reflective air surface. This way and through the mirror-like inner surface of the outer shell all light in our universe is evenly dispersed.

Finally, we are shown the real extent of our universe, the significance of our Earth in it, and much, much more. Facts humanity had no idea about until now. More descriptions about celestial objects are conveyed in the works 'Earth and Moon', 'The Natural Sun' and 'Saturn'. **Note:** *Light is the fastest-moving stuff in our universe. It travels at 186,000 miles per second (300,000 km/sec). So, a light-year is 5.88 trillion miles (9.46 trillion km).*

The Great Central Sun: is a source and a center of the All-Pervading Presence of the Great "I Am". It is a point of integration of the Spirit/Matter Cosmos, and a central concentration of God Consciousness and the release of Light, Love, and Life to all creation. It is a Nucleus, Heart Center, or White Fire Core of the Cosmos. (The God Star Sirius is a Focus of the Great Central Sun in our sector of the Galaxy)

The Physical Primordial Central Sun – Shell-globe

Ref: "The Universe" by Jakob Lorber Excerpt from the Great Gospel of John 04:105.

God the Father is speaking: "Consider how people are now becoming so engulfed by materialism through self-love, arrogance and the resultant desire for domination, that for many thousand times a thousand years they will not be able to be completely free of it. There were also spirits created in primordial times who became too self-obsessed, acquisitive, arrogant and finally domineering because of the stimulation they received. The result for them was materiality in a completely pure form.

They have isolated themselves in large communities and have established themselves in for you unimaginably distant places. Each community no longer wished to hear, see or know anything about any other community in its desire to immerse itself in self-love in a world-wide sense. This continuous increasing obsession with self-love and lust for domination, together with the increasingly prevalent arrogance which it caused as well as the compelling tyranny, finally made a countless number of life forms to shrivel into an exceedingly large cluster under the pull of the laws of gravity, a cluster which had itself developed from that same self-love and selfishness. This completed the physical primordial central sun in one shell-globe. *

(*Footnote by Jakob Lorber: A '*Shell-globe*' is a conglomeration of an immense number of galaxy clusters, which orbit the primordial central sun at immeasurably great distances, in the same way that individual planets have orbits round their own sun. J.L)

Likewise, an immense number of these systems or shell-globes are now present in infinite space, in each of which a primordial central sun serves countless universes as a common central point, and those primordial central suns are the same shrunken primordial spirit clusters, the origin of all other solar universes [galaxy clusters], solar dominions [galaxies], secondary central suns [star cluster central suns], planetary suns, planets, moons and comets with the passage of time.

[Editor's comment: The Lord tells us in New Revelation that the primordial central Sun/Star of our Shell Globe is called 'Urka', known to us as the star Regulus. Various indications in New Revelation led to the result that the diameter of this Sun/Star is 2x1,036 light years (in stark contrast to the classification of our scientists), and the diameter of our local universe of approximately 10,114 light years, which are surely dimensions beyond all imagination.]

[Science: Regulus is the brightest object in the constellation Leo and one of the brightest stars in the night sky. The system lies approximately 79 light years from the Sun, 3.4 times the diameter of the sun which is 864,000 miles or 3,715,200 miles! Ref: Wikipedia]

But how did this come about? Inside the *primordial central sun*, the pressure became too intense for many of the large spirits! In a towering rage they fired themselves up and freed themselves from the primordial pressure. They literally flew unimaginable distances away from the early clusters uniting them. For some time, they travelled in swarms quite freely, harmlessly and completely independently in endless space and were full of the good intention, to return by themselves to their purely spiritual state. However, as they could not rid themselves of the element of self-love, they ultimately began to shrink again into a solid cluster, forming central suns of the second order inside one or other of all the other innumerable shell-globes.

In those central suns of the second order the main spirits were in time enraged by the increasing pressure, fired themselves up and freed themselves in untold numbers from their communal clusters of the second order. They again had the best of intentions to achieve pure spiritual transformation but as in time they again derived great pleasure from themselves and could not bring themselves to renounce self-love completely, they again increased their material weight and shrank again into large clusters, thus creating central suns of the third order.

Soon, however, the same conditions developed there as came about with the earlier central suns. The higher spirits, fewer in number, were in time placed under excessive pressure by the lower spirit orders, became very angry again and many thousands of them wrenched themselves away from the communal clusters with great force with the firm intention now finally to return to pure spirituality. For unimaginable periods of time, they floated in the endless voids of creation like clouds of ethereal vapor at great distances from each other.

Remembering the intense pressures they had had to endure; they enjoyed this freedom. However, in this inactive state, their appetites developed as time passed and they started to search for nourishment in space - in other words, some external source of satisfaction. This they found as it was inevitable, they would find as their desire resembles those magnetic Nordic Rocks which attract all grades of iron as well as all ferrous minerals with irresistible force.

What was the inevitable result? Their beings gradually started to become denser as time passed, soon revitalizing their self-love and its consequences. Inevitably they shrank again into agglomerated clusters, a process which of course took an enormous number of earth years.

What is a period of time, however long, to the eternal God?! A wise man from prehistory once said: 'A thousand years are like one day to God!' [Psalms 90 04; 2 Peter 03, 08] I say to you: A thousand times a thousand years are hardly the blink of an eye before God in all seriousness! To a good-for-nothing, hours become days and days turn to years out of boredom. For the diligent and highly active man, however, hours become moments and weeks, days. Since time began, God has been endowed with an infinitely positive attitude to work and is continuously active. The most blessed consequence is, that, for Him, periods of time which are to you

unthinkably long, must seem to pass in a moment - and the complete formation of a new sun only takes a very short time in His eyes.

The consolidation sequences described above gave rise to and have continued to create the planetary suns, including the one which gives light to this earth. This type of sun is in its character much more gentle and softer than the central suns, but each one still has an immense quantity of solid matter as a result of the self-love of their spirits, their lives measured in eons, whose self-love combined to create that sun. The nobler, refined spirits in this light-giving cluster experience as time passes excessive, intolerable pressure from the lower orders in the spirit world with their total materiality, the outcome being, as with the earlier suns, violent acts and eruptions upon eruptions, as the nobler spirits free themselves.

There then awakens in them the already very serious desire to convert to pure primordial spirituality by the observance of God's true ordinances. Many fight against the impulse placed in their minds and become primordially created angels, but without first experiencing incarnation. Those, however, who wish to take the way of the flesh, either immediately on the sun or even on this earth, are allowed to do so, as can actually also happen on the central suns previously described - but not so frequently as with this planetary sun in particular, which shines its light on this earth, a light mainly produced by its very active spirits.

Some of these spirit communities who had freed themselves from the sun formed clusters with the best of intentions but were unable to free themselves completely from self-love and slowly began again to succumb to the primordial impulse placed in them - unnoticed, one became two and so on ever upwards!

Soon, their materiality was already quite visible, and they were seen as misty **comets with long tails**. What do the tails mean? They indicate the hunger of these spirits as they materialize and their great desire to reach saturation in their materiality. This desire attracts compatible ethereal substances and the comet, composed of already quite material spirits, then flies around for thousands of years in ethereal space, searching for food like a ravenous wolf.

This constant absorption and feasting also increases its density and weight. In time it will again be drawn to the sun which it left and be forced to begin an orderly orbit around it. Having obeyed this compulsion, it is now a planet like Earth, the morning or evening star, Mars, Jupiter, Saturn, and several others which are unknown to you.

At this stage a planet exists which is still extremely hungry and as it is closer to the sun than when it was still a comet, it obtains sufficient sustenance from it, but this is also a bait to bring the runaway ever closer to itself and finally to capture it again completely - a creditable aim for the primordial spirits in the sun, but one which will never be achievable in the case of the great planets, including this earth. Although the spirits locked into the planets are still very materialistic, they are familiar with the materiality of the sun and do not have any particular interest or desire ever to rejoin the sun completely. They accept with pleasure the spirits, large and small, coming from the sun as good support and sustenance, but do not wish to contemplate complete union with the sun.

At times it also happens that returning fugitive spirits in their clusters of materiality have taken the bait and have been drawn close to the sun. However, the

tremendously active free spirits surrounding the hard core of the sun, to which the luminescence of the outer surface is mainly attributable, cause all the spirits packed together in solid clusters to achieve their maximum level of activity almost instantaneously. The clusters break up and each spirit, as one might say, makes a run for it to save itself.

The consequence of this regenerated activity in a planet, or at least a more established comet, where the spirits have been locked together for a long time, is the sudden and total dissolution of the cluster and the release of many thousand times one thousand multiplied again by a thousand times a thousand spirits. Most of these spirits, sharpened and seasoned by this lesson, immediately return to a correct way of life and become primordial angel spirits as well as useful guardians of their more restricted brothers as well as protecting those which still languish in the solid cluster and thus contribute a great deal to their more rapid redemption."

Some of these spirit communities who had freed themselves from the sun formed clusters with the best of intentions but were unable to free themselves completely from self-love and slowly began again to succumb to the primordial impulse placed in them - unnoticed, one became two and so on ever upwards. Soon, their materiality was already quite visible, and they were seen as misty comets with long tails.

About the Dimensions of Creation

Ref: The Great Gospel of John" Vol. 4: Ch. 254 y Jako Lorber

Jesus is speaking: "My dear friend Mathael, the unbridgeable difference between God and created limited man, even of the most perfect kind and type, will always exist, and in all eternity, it cannot be lifted that God in His primordial being is and must always be everlasting and infinite in everything while man will exist forever in future in his continuously more perfect spiritual being. However, he cannot and will not ever reach the infinite primordial being's measure of God.

Man can resemble God in its form, also in love and its power, however, forever not completely in the being-like magnitude of the most infinite wisdom in and out of God; and as such the long eternities in their countless eternal periods can contain a few things, which surely can find some place in the most endless space, of which even a primordial archangel could never have dreamt of! Since also a primordial archangel has for this a too enormously limited perceptive power; only when every primordial archangel has made the way through the flesh like Me, will he be able to understand more – but impossibly never ever everything in all endless infinity.

Yes, forever, and ever you will learn about new wonders for you and begin to get accustomed to them, but you will never ever reach the end of it, and you can make the reason for this clear to yourself, if you imagine if it is possible to keep on counting until you have reached the end of numbers! But if I, according to the spirit,

exist, think, will, act and effectuate since all eternity continuously as one and the same God out of always the same love and wisdom, which in itself by every period of creation and its completed successful work for all future eternities, must of course also feel more perfect and dignified blessedly, and the more wise among you can think for yourself, that I, as the Father now speaks in and out of Me, surely did not until this creation period spend My time in a sort of winter hibernation somewhere at an infinite point in everlasting space! Even if one period of creation may from its primordial beginning until its total final spiritual completion lasts for thousand times thousands of eons times eons of thousand earth year cycles*, such creation period is still nothing compared to My everlasting Being, and it's for you immeasurable size is according to space nothing in infinite space! * According to GGJ05,112,05: 1 eon = decillion times decillion earth years. 1 decillion = 1 followed by 60 zeros, thus 1 eon = 10 to the power of 120 according to the Old British and Continental European standard, not to be confounded with the US or New British standard where decillion equals 10 to the power of 33

You, Mathael, know the zodiac of the old Egyptians, and Regulus in the Great Lion you know quite well! What is it to your eye? A gleaming little dot, but nevertheless there where it is, it is still such a large sun world body, that a lightening flash, which travels in four moments a distance of 400,000 country lanes (1 country lane about 1/4 hour and a little more walking. 10 country lanes = 1 German Mile. $400,000 \div 10 = 40,000$ miles = speed of light per second. Note by Jakob Lorber: 1 German Mile = 7.5 kilometer, thus 40,000 German miles = 300,000 kilometers Robert Blum vol.2, chapter 299,08), will, according to you, Mathael, well-known old Arabic grouping of numbers, take more than one trillion of earth years, to travel the distance from its north pole to its south pole! Its actual name is Urka, better Ouriza (the first or the beginning of creation of eon times eons of suns in a nearly endless wide enwrapped globe of creation (or shell-globe or perhaps one universe, the translator)); it is the soul or the central point of gravity of a creation-globe, which actually forms only a single nerve in the large worlds-creation-man [cosmic man, the translator], of which the imagined large cosmic man has in fact as many as all the sand and all the grass of the whole earth. However, this large cosmic man actually forms only one creation-period from its beginning to its spiritual perfection.

Such an Urka and even more a whole shell-globe are already quite respectable large things, and still unspeakably larger is such a large cosmic man! But what is he compared to the everlasting, infinite space? As much as nothing! Since everything is necessarily limited, even if for your concepts still so endlessly large, is in relation to infinite space as much as nothing, since it cannot ever form any calculable relationship to the infinite space.

Now I ask you, My dear Mathael, if you from what has been said start to comprehend, where it will eventually end!"

Says Mathael: "O Lord, yes, yes, I comprehend quite well; but with this comprehension I begin to lose myself and dissolve into nothingness! Since Your everlasting power and size, the infinite space and the everlasting time periods overwhelm me completely. There is some mist in me - but if I correctly have understood what You, o Lord, has so to speak breathed to us, I of course do not really know or don't know at all, that such creation-periods - to count in Arabic manner - You not only have zillions or eons behind You, but countless! Since if I

started counting the time periods backwards and started with the present one, I surely would forever never reach a figure where one could say it was Your first!

In short, You have no beginning, and as such also Your creations impossibly could ever have had a beginning, and as many infinite spaces can contain, among them there still is no one of which one could say: 'See, this was the first! Before it, nothing was created!' Since before such first there still exists another complete eternity! What would You have done during it with Your always same beingness? In endless space there are also many endless creations; even if their distances are still so endless, it doesn't matter! The endless space has space enough for all the everlasting endless many and will still have room for eons times eons many and forever still countless new ones, and those future creations will not really increase those present since eternity; since something endless and countless can therefore never become more, since it is already endless many.

Yes, if I start counting this period with one, it will surely be increased by one, like during the coming eon-times or eternities it will be increased by one and one and one; but where the back figure is already endless, no increase of it is imaginable! The new creations are counting for themselves something, but do not add anything to the pre-creations!

This is how my comprehension sounds intending to destroy me completely! But let go of such thoughts, which, because of their too endless size want to crush and destroy my small soul totally! If I only had an everlasting life, love and mercy added to it and such a region like the one over there, I will never wish again, to even know more about the moon or even our sun! I also realize now, how silly it was of me, to ask You about something, which is completely inappropriate to ask by a limited person! Lord, forgive me My great stupidity!"

The Service of the Angels in the Universe.

Ref: The Great Gospel of John by Jakob Lorber Ch 57

Jesus is speaking: "Everybody now retired and slept until the morning had dawned. Also, I rested and slept for a few hours. The two angels, however, attended during the night to their duty of managing worlds and at sunrise were already back with us, came to Me, thanked Me and said: "Lord, everything is in the best order in the entire great cosmic man. The main central suns are fixed in their

places and their rotations are regular. The orbits of the secondary central suns are unchanged, the orbits of the central suns of the third order around those of the secondary are in perfect order and the same applies to the central suns of the fourth order with their ten times hundred thousand planetary suns, here and there more or fewer - just as You, O Lord, have established the order from the very beginning. The countless planetary suns with their small, mostly dark planets and moons are anyway dependent on the order of the great leading suns, and thus everything is in the best order in this shell globe over which we have to watch, and we, therefore,

may spend another bright day here with You, holy Father, and You're to us very dear children."

Say I: "Very well but do make use of every minute through all kinds of useful lessons of which My children still have great need."

The two angels now step back cheerfully and superbly happy and greet Mary, then the disciples, Cyrenius, Cornelius, Faustus, Jairus, Kisjonah and Borus. But Cyrenius who had heard something about many suns asks them about what suns they had talked with Me as he knew only one sun."

Say the two, most endearingly: "Dearest friend and brother in the Lord, try not to know what you cannot possibly grasp right now, and on which the salvation of your soul does not depend; because that about which we spoke with the Lord would kill you, if you could understand it to the extent that we do and have to understand it. Because as many stars as you can see on a clear night, and many more that your eye can't see on account of their immense distance, all are solar worlds on a scale beyond your understanding. The one sun that you see is one of the smallest planetary suns, yet it is already more than a thousand times a thousand times bigger than this earth. Now imagine a central sun of just the fourth order, around which at least ten times a hundred thousand planetary suns orbit together with their planets or light-less earths! The volume of a central sun of only the fourth order is a thousand times larger than the sum of the volumes of all the planetary suns with their earths and moons revolving around them. Tell us, friend, can you now form for yourself an idea of such a magnitude?"

Says Cyrenius: "Loveliest servants of God, pray do not tell me any more about it for this is making me quite dizzy. But since I have such a thirst for knowledge, tell me just in general what these countless, immense suns contain?"

Say the two: "In a great solar world you can find the same and similar things as on this earth, although of a much nobler kind and often of a giant size. There are moper or 'simals, and plants of various kinds, just as here, and besides immense and indescribably magnificent dwellings compared with which the temple in Jerusalem and the Emperor's palace in Rome are the most miserable snail-shells. And everywhere is this One the sole Lord and Creator from eternity."

A Look at the Stellar World Order.

Ref: The Great Gospel of John by Jakob Lorber Ch 139

Jesus is speaking: "Behold, this palace is a chief lecturer's dwelling in this area you have already seen. All yonder school huts are under his supervision, and the objects swimming upon the lakes are employed at certain times for instruction in higher wisdom. But the way this dwelling is, there are many hundreds of thousands just upon the central equator of this light world, besides an enormous number of cities of the greatest variety. Beside this equator, of the smallest variety that you are seeing, there are another seventy-six additional equatorial belts of which each has its peculiar set-up. This world, like the previous, actually are two suns like the one giving the earth its light, with the difference that the one seen first is a thousand times bigger than the sun of our earth, Whilst the one you are now seeing is four thousand times so. But our sun is a thousand times a thousand times bigger than this whole earth.

The men of this earth nevertheless still have a completely faulty concept of these earth and the sun and moon and all the stars; but when at a more remote time they learn to calculate more accurately, then they shall also gain more appropriate concepts about the heavenly bodies within the endless creation space.

But you may know that around every such sun, earths like the one we stand on are orbiting at various distances, and that several of these earths have satellites constantly accompanying them, like the moon around our Earth! Each sun has as many equatorial belts as the number of related planets it supports, with the exception of the central sun, which are destined for the maintenance and guidance of planetary suns and are by a thousand times a thousand times ten thousand times (i.g. ten trillion times, the translator) bigger than the suns you have now seen.

Such central sun no longer is divided into equators (equatorial belts) but into as many zones upon its surface as the terrestrial suns it has to support (i.g suns of our sun's magnitude), where such region then has an area between a thousand to ten thousand times the surface area of each sun together with its orbiting planets (areas). The number of earth-suns orbiting a central sun however is at least a thousand times a thousand (a galaxy or galaxy of the first order, the editor).

Then, nonetheless, there are central suns around which in turn a thousand times a thousand of the just mentioned central suns with all their planetary suns orbit (super galaxy or galaxy of the second order, the editor), and again central suns around which central suns of the second type are moving (super-super galaxy or galaxy of the third order, the editor) and finally a common central heavenly body situated at the incalculable space-depth of a central-sun region, having no movement other than that around its own axis. This central body also is a sun, but of such immense magnitude that all the planetary and central suns of the first, second and third order, together with all the earths and moons orbiting the countless planetary suns, in addition to the thousands of moving comets of all sizes which, as worlds to be, move in irregular trajectories around the planetary suns, in total can't make up even a one hundred thousandth's part of the volume of the said main central sun, if same were a hollow sphere (center of a universe, the editor). -Jarrah, can you now form a concept of what has been said?"

Says Jarrah: "Lord, who can grasp such immensity?! A concept of course, I can formulate, but it makes me dizzy! I have now had my fill of viewing this sun too, yet still do not comprehend how I should find the answer therein about the immature nations from Earth in the great beyond."

Say I: "Well then, withdraw first your eyes from the watched sun, and hearken to Me!"

Says Jarrah: "Lord, it is done!"

Developmental Periods in the Beyond.

Ref: The Great Gospel of John by Jakob Lorber Ch 140

Jesus is speaking: "Then hearken to Me! Behold all such immature people mostly are put on the sun just seen by you and receive all necessary life-instruction in those extensive schools. Thus, deceased little children are also instructed in the central equatorial region and reared there - but mainly in the spiritual part of the sun.

Upon the sun viewed by you, unripe souls receive another body, but without birth, and this then, together with the soul becomes spiritual and can then go over

to the purely spiritual. How such souls are transferred there and by who you have witnessed with your own journey to the first sun. This angel still standing beside us, however, is the leader and ruler of all the worlds and suns about which I have just been speaking to you. Wherefore you can see with what power and wisdom he is provided.

But all the countless angels whom you now see in endless rows around you have a similar task: because in the eternal depths there exist, for human concepts countless such solar world regions (universes, the editor) yet, with an abovementioned main central sun each, and every such region is ruled by one of these angels. You are seeing immense numbers of angels indeed, but this is not even a millionth part of just the great ruler-angels, let alone the smaller angels to whose supervision and guidance individual suns and planets and smaller worlds regions are entrusted! And behold, I nevertheless in My Spirit have to constantly care for them all. And where I to drop any of the things shown you from My immutable care, then it would all pass away in the same moment, the greatest like unto the smallest! - Would you be able to accomplish this with your spirit?"

Says Jarah: "Oh Lord, how can You ask me such a question? I, a dust particle of this earth, - and Your Spirit the only, eternal, almighty God! Oh, if only the blind Jerusalemite Pharisees could see that, they would surely have to be of a different mind! But they cannot and will not see it; hence they shall also perish in their obstinacy and malice! I suppose in the beyond their souls too shall go to that solar school?"

Say I: "Not quite, My most beloved Jarah; for they don't belong to an immature nation, but a fully ripened one! And souls from a mature nation once gone over into all malice, come into the depths of the Earth, compelled by themselves; for, having become totally material, the latter is their element, and they don't want to and can't separate themselves from it. Everything, indeed, the ultimate, is done and forms them. All torment and pain are brought to bear on them, to separate them from matter. And where one of them is freed from matter, he is brought to the schools that exist in the spiritual part of this Earth; *only then is he transferred to the moon*. When he has gone through every level of self-abnegation, and grown strong therein, then he is raised to a perfect planet and there instructed in true wisdom.

When such a soul has gone into the right light, only then through such light, if it becomes more and more intense, the warmth of the spiritual life is produced, and the soul begins to unify with its spirit, in such a way that in time her whole life turns into love. If the love has then developed into the necessary power and strength and has gone over into the true, inner life-flame, it becomes bright and illuminated in such a soul from within, and only then does such a soul reach the state to be accepted in the actual free world of the blest spirits, where she will guide further as from childhood on.

But even under favorable conditions it can take several hundred Earth years before a soul materialized on Earth reaches that stage. - But I read in your heart how you would like to put another question to Me, and I say unto you: ask, for your questions are well grounded! But this time direct your question to the angel standing by our side, and he too shall give you the right answer!"

About the Measure of the Human Spirit.

Ref: The Great Gospel of John by Jakob Lorber Ch 141

Jesus is speaking: "Here Jarah turns to the angel, asking: "Your and my Lord has graciously referred me to you, dear and fairest youth, and He said that I should ask you about a certain thing and that you would give me the right answer. Tell me therefore why these my worldly relatives and also the Lord's disciples have to sleep, whilst I am awake, and why must I behold this with my physical eyes, and why, according to the Lord, can I behold what they may see and hear only in a dream?"

Says the angel with a most amicable of voices: "You fairest daughter of the Lord have gone over completely into the spirit with your soul and have hardly any further commonality with the matter of the world; your physical eye has become the eye of your soul, and your soul-eye that of the eternally immortal spirit. And hence you are fully located in your life-sphere, the way every human should be.

If therefore you take up an ever so distant star or other object into your purest emotion, the latter being the eye of the spirit, directing your soul's eye through the carnal eye, to what the eye of your spirit beholds, then an inner conflict arises between your spirit's image and the corresponding outer form of the same image. By virtue of this conflict, full enlightenment of the soul occurs in respect of the beheld object, and this then presents itself to you as it is.

And I say unto you fully and truthfully, that all men could do so if they were constituted in their feelings the way you are but there are very few that equal you! These sleeping ones over there don't match your soul and your feelings! There soul is still far from looking through their physical eye, whilst the eye of their spirit is still firmly closed; wherefore their soul must first be enabled to perceive and view the supernatural for attaining to the spiritual, on its own, by depriving it of worldly views through first putting the physical eye to sleep.

However, the sleep of those resting here is therefore also a sleep of a separate nature, which a person can only very seldom attain in a natural way.

Certain psychically and spiritually strong people can induce such sleep in their weaker brethren through the laying on of hands; but the weaker brethren cannot do so with their equally weak brethren. But you shall not, I trust, by now, still be capable of doubting that the Lord can do so through the power of His will?"

Says Jarah: "May the Lord bless you for the clarifications you have given me, which I have understood quite well! - But now another question! Tell me, dear and most fair youth, how should I conceptualize your inexplicable speed?"

Says the angel: "Most beloved daughter of God! This is something that only an actual spirit can grasp, as such has nothing to do with time or space. We of ourselves are nothing, and what you see in us with the eyes of the spirit is God's thought, God's idea, God's word. We hence are pure spirits; no matter can be of any hindrance to us.

Since nothing can hinder a live spirit, a 'hither' and 'thither' necessarily are one and the same. No material therefore is able to gather at a speed like unto ours, since it finds an obstacle even in the most rarefied state, through which its movement is restricted.

Within infinite creation space there exist the central suns of the third magnitude in particular, which immediately are followed by the main central sun. These suns move within diverse, great orbits around the main central sun with a

velocity too immense for your comprehension, for the purpose of keeping to a certain distance from the main central sun. Their orbits are, on account of their great distance from the main central sun, too extended for your comprehension.

Imagine this earth for instance as a sphere many thousands of times bigger than the portion you can see now, and that it would consist entirely of grains of sand that you have often seen at the coast. Now think of the number of all the tiniest sand grains necessary to make up such a sphere! And for each one of those grains imagine a distance from here to that star that we visited first; thereby you will have the approximate diameter of such orbit! Such an orbit of a sun of magnitude three around a main central sun, does of course take a million years at the least; but in such an immensely extended orbit, such a sun must in a moment cover a distance a thousand times from here to the star we first visited!

You will of course think: 'If so, then such sun is moving a thousand times faster than yourself as a pure spirit! For had we flown to yonder star at such velocity, then we should have been there a thousand times faster than with your spiritual speed!?'

Here I say unto you, that the immense velocity of such sun compared to my spiritual one is nonetheless that of a snail! For behold, in spite of the incomprehensible speed to you, yonder sun still needs a million years in its orbit around the main central sun, whereas I or some other spirit of my caliber can transit such distance in a moment so brief that you shall not be able to gauge in any sense the time between my departure and return; and I could in the same moment indeed cover an orbit many millions of times greater than that!

There is therefore a limitless difference in speed between that of a spirit and that of ever so greatly speeding matter, notwithstanding any degree of further acceleration of the latter; for even if any matter covers the distance from here to yonder star in a moment, it still needs a second moment for a second such distance; and if matter covers a hundred thousand times such distance in a moment, then it shall need ten such moments for ten such distances, whereas I can cover any imaginable distance in one the same moment.

And behold, I and every spirit of my variety can do this, because there is not the minutest obstacle for us in all of eternal infinity; matter on the other hand finds all kinds of resistance, even in the most rarefied outer space, and can therefore never reach the velocity of a spirit! - Tell me now, fairest daughter of God, whether you have comprehended this to any degree!"

About real Spiritual Greatness.

Shell Globes

Jesus is speaking: "Says Jarah: "I have indeed, with the help of this my Lord, comprehended it, yet I have once again begun to get dizzy! Because I have become fully convinced that a created spirit would take an eternity to familiarize himself with just one such main central sun of which, after what you have said, there number within eternal endless space is countless for human comprehension, each one of which is the carrier or rather regent to three magnitudes of central and planetary suns within endless orbits, whose numbers no mortal spirit could grasp! If, however, each such immense main central sun would take an eternity for a natural spirit to explore, what time span would he need to explore all the countless others!?"

Oh, it would not be clever of me to want it! I shall do well to stay at home within my love, thinking such a sun is indeed something immensely big, and powerful testimony of the Lord's endless wisdom and eternal might; and yet it is nevertheless not able like I am to see, understand and love its God and Creator above all! - And behold, this, in my opinion, is vastly more than to be such an endlessly huge sun at some immeasurable depth of endless creation space! And who is to know whether the Lord perhaps loves me as much as such huge sun!?"

Behold, fairest youth, this our Earth could be regarded as hardly a discernible dust particle upon such an exceedingly huge sun, yet the Lord, upon whose feeblest breath the countless main central suns depend, is treading upon its ground! I therefore think that which in endless creation space takes up a hardly measurable part, is not necessarily the greatest in the eyes of the Lord, but rather what is internally big!

What am I as a child, in physical size, compared to our small earth; and yet in my breast I feel a space that could quite easily accommodate all your main central suns with all their auxiliary suns and planets! My small eye, with one glance overlooks a thousand stars; one can ask whether all the big suns are imbued with such ability!?" - Am I not, right?"

Say I again: "You are completely right, and it is so; and you yourself outweighing a thousand solar regions (super and super-super galaxies, the editor) which illuminating endless creation space; nevertheless, it is always good for man that he knows My works to increase his love for Me his Father!

But now it begins to dawn, and we shall start waking up our friends. But they must be woken up gradually; you must not however relate any of what was seen until given a hint by Myself, and now also by your angel; whom I intend leaving you visibly, however in a different garb, until your maturity. Let the other angels nevertheless become invisible again; be it so!"

All except the one angel whose name was Raphael, disappeared, and this one was now dressed in Nazarene style.

On seeing Raphael dressed so, she says to him: "Good, this way I like you better than in your previous, heavenly glory; for this way you now fully resemble a human, and I shall be most tender towards you, - only it will be asked, - who will take over your guidance of the worlds meanwhile?"

Says the angel: "Do not trouble yourself over it, fairest daughter of God, since I can always be here and there and everywhere without you missing me, except for an occasional moment, which is neither here nor there. I shall in my event always rush back to you, for you have become more to me than all the countless suns, some of which we may still have a chance to visit together. - But now the Lord wants to awaken our brethren, and we need to be quiet!"

Says Jarah: "Yes; indeed, I'm pleased to comply and already quiet as a mouse."

Mysterious Light

Ref. MV-Lessons on the Epistle of St Paul to the Romans: 91-92

Jesus is speaking: "Then there was light. Not solar, nor lunar, nor stellar light. The Sun, moon, and stars are creatures younger than the terrestrial globe. After their creation, the sky, that is the elements of 'air,' was cleansed of every residue of the primitive cloud, and the stars and planets shined by giving vital elements to the terrestrial globe with their splendor.

However, light existed before them, a particular light, independent from every other source that was not of the will of God. *A Mysterious light which only the angels saw work its mysterious operations in favor of the terrestrial globe.* Because none of the things created by God are useless, nor has anything been created without a reason of perfect order. Thus, if before there was light and not the stars and the planets, it is a sign that the Perfection wanted this creative order for a useful and sensible reason. Then came: the sun, the moon, and the stars."

The Central Sun of Creation Shows Himself

Ref: "Secrets of Creation by Jakob Lorber Cha 23(May 4, 1873)

God the Father is speaking: "Sunlight from the natural Sun provides the healing power of nature, and through its radiation, the life-sustaining properties are absorbed by the air, water, herbs, fruits and other mediums utilized by the homeopath for the benefit of the suffering patient. Because the sun is the source of all-natural development and is able to convey the healing power necessary for the restoration of good health to the body. But the Sun does not light up the earth, the stars, earths, or moons, they were still in darkness when they came into existence. It was the second Sun that made all of creation light up.

He is the Father of Lights, and he who lives of Him and in Him can see, because he is in the Light, as it is God's desire that men should see. And He gave man intelligence and feelings, that he might see the Light, that is, God Himself, and understand and love it.

When all the suns with their planets came into existence through the might of the eternal, infinite God's merciful love, they had as yet no radiance, shine, shimmer or glimmer, for there was still dark night on the created suns, earths and moons. But into the center of the suns eternal Love sank a small spark of Its grace, and this spark – faster than lightning - illuminated the dark masses and lo, they shone upon the earths with a great radiance and are still shining and will do so as long as the spark of grace is not taken from them.

The spiritual sun is, therefore, the innermost of the sun and is a spark of mercy out of Me. Then the spiritual powerfully permeates all matter of the sun and finally, it is also encompassing the whole being of the sun. This all taken together is thus the spiritual sun."

So, when we look into the sky, the light we see is the Light of God, and when we look into the night sky, we can see all the stars, planets and moons reflecting the light of God's grace generated from the spiritual sun, God.

Yes, there are two lights, a light within the light - the natural Sun and the spiritual Cosmic Sun.

[IMAGES: The white line going across the picture is the atmosphere of the earth. Above this line is space, below this line is planet earth. Science was filming the atmosphere of the earth while the Sun was rising. At the same time, you could see the sun transforming itself into the spiritual sun. This event only lasted for a second, I was very blessed to see it.]

The Light of Worlds, Suns and Stars

Ref: "Secrets of Creation by Jakob Lorber Cha 25 (May 4, 1873)

God the Father is speaking: "Earlier I have often told you about the word "light", what light is and how it develops, how it spreads life, excites life and is life itself, as some say (See in "The Fly", chapters 9 and 10), and yet you know little about light, do not yet understand what light is, and for this very reason a new word should explain to you what has often only shone through dimly from the earlier ones and allowed only a few to suspect that light is an emanation (outflow) of My own self or I Myself!

Few of you are concerned with it or have the desire to deal with the laws of physics as far as it (the light) occurs on your earth. Few feel the urge, depending on what the ray of light actually is, which in every second when it hits your eye and penetrates it, could tell you wonders about miracles, how My creation should be understood and how much already only one ray of light contains love and joy, which should show you your Creator in His most beautiful glory - as a loving Father!

You are all blind, blind to the smallest, blind and insensitive to the greatest work of love, which always bears witness to Me, to My greatness and to My omnipotence!

And that's why in the everyday encounters of human and material life out of habit My miracles are not noticed, are not judged, then you are to be stimulated again today by this word to awaken from your lethargic sleep to perceive the spiritual of creation in your immediate surroundings, as the caressing ray of light from your sun and the same stars, millions of miles away, connects you, even through it, with My whole material and spiritual world!

You should learn to understand and comprehend how the spiritual kingdom, My own place of residence, should once also receive you, draw you closer; that you may know what a single ray of light can tell you, let alone what a world of light will tell you!

Look, My children, I only want to ask you one question to prove to you how little you know! The question is: **'What is light?'**

Well, the answer according to your human scientific discoveries, according to My words given to you will be limited to the following: Light is an 'emanation' (emanation = radiation: from Latin emanation - exhalation), produced by rapid, even trillions of vibrations of the smallest atoms in an instant, which then, first by heat, then in the light, as a result visibly reveals itself to man!

Scientifically it is said: light is passed through a prism and can be broken or split into color rays; each of these color rays is shaped like a three or four-edged sword, where one edge always behaves with the opposite electrically positive or electrically negative; there are also dark rays in the light beam that your researchers have qualified as 'heat rays'.

This is all well and good, but I must raise yet another question, for this answer is not enough for me; I ask your natural scientists and astronomers: 'Where does the Light come from?'

To this they reply to Me: 'From the sun, which is a fiery sphere and which in the process of combustion develops the brilliance of its outer atmosphere, namely light and warmth, and sends the same to us on earth and to the planets and comets

surrounding it and thus life, activity, development, existence and decay of everything.'

Well, this answer also has its truth, but it is not enough for Me, I continue to ask: where did the sun take this light from? Is it borrowed or its own light?

Look, here it already begins to give opinions of different kinds, and here already the human mind shows its weaknesses; for they are merely hypotheses which can be made, but certainty is lacking, because the closer examination of sunlight lies outside your realm and all the more so the light of another sun, which perhaps not millions but trillions of miles away gives it light to illuminate your sun and thus spread its splendor on thousands of other worlds subject to it.

And even if you could actually prove that your sun receives its light from one star or another, the question still remains: and from which other distant sun did it again receive its light? and so out into infinity.

Since therefore you men cannot come out of this tangle of questions, I must put Myself in the middle and, instead of seeking the reason and the solution of your question in spaces billions of miles away, beginning with you from the near, explain the distance for the time being.

Now look, let us start again from the beginning, namely with the question: "What is light?" and "how is it known? and why must it be there?"

You know - light comes from the vibration of atoms, the colors also come from the trillions of vibrations of matter, and depending on the number of these vibrations the colors become visible to your eyes - well, what stimulates matter to vibrate? What gives it life, that it manifests itself as life through such violent vibrations and trembling?

Behold, here now the basic principle of all creation appears and tells you: The moving element, which penetrates everything, makes the whole etheric space tremble in such tremendous vibrations, is:

My Will, is My Self, is not materially conditioned but spiritual, unconditioned, is not transient - is infinite life!

It is this great spiritual life of Myself which: according to love, according to wisdom, manifests itself as color as warmth.

Without this My almighty will, no atom would tremble in the great etheric space, no heat would develop, no light would be emitted!

And why does this happen? some may ask. This question should also be answered: because light - life, and darkness - causes death.

What is darkness? or is there a world where darkness prevails: if there is life, is it conceivable where darkness, synonymous with 'rest', would have to remain in a state that was eternally the same?

You have never understood what 'darkness' actually is; for if you no longer see, that is not yet darkness, but only relative, for your visual organs. For example, there are many animals who still see quite well where it seems to you the deepest night; so, where these animals see, there must also be light, only not to the extent that you are accustomed to qualifying light and darkness.

It is the same with warmth. Which one of you has already determined or measured where heat ends, where the heat-inducing vibration of the individual atoms has stopped.

In your coldest regions there is still warmth, although you call it "cold" with so and so many degrees.

So, this absolute darkness does not exist anywhere, cannot exist in a creation in which I am the Lord and Creator of it.

Light is synonymous with 'knowledge'; for as only in light is it possible to recognize objects, to see, so too is knowledge in accordance with consciousness: I recognize Myself and can judge the world around me.

This spiritual cognition, which gives creatures, be they spirits or physical beings, their own moral value, drives them to perfect themselves - this cognition can only be possible in the light, in the spiritual light of Myself, since in darkness neither spiritual recognition nor worldly would be possible!

As the word came to you from the story of Mosaic Creation where I said: 'Let there be light', so in this saying you may recognize the whole great meaning which lies therein - for without light, without daylight no material life, without spiritual light no higher life!

If you could thus look at My whole creation, you would have to draw the necessary conclusion from it that only where light, where the millions of miracles which certify My omnipotence can be perceived - only there, only in the light of a creator, a loving Father is conceivable!

Thus, the first word 'Let there be light' was the first impulse of all becoming, the first beginning of a material creation and the first thought to a spiritual eternal kingdom of light!

'Light', as the spiritual equivalent of the recognition of all beings, was necessary, and precisely this word, which caused all atoms of the ether to vibrate, which caused life and warmth - just this word produced also in the spirit realm the innumerable descendants of me, who are capable of light (and love), that is to say consciously recognize themselves, My world and My love.

This light, emanating from Me, through all spaces urgently, all animating, created the material world, clothed spirits in matter in order to free the former again from the latter, but under different conditions!

Light, synonymous with My eternal life, was in Me and always filled Me; only when I pronounced the word: 'Let there be light' did it begin to radiate through all the unlimited regions of ether and stimulate matter to live, to attract, to repel, to unite, to separate, to arise, to pass away. Without My Word', 'Let there be' and 'Let there be light', no sun would have shone in the firmament, no giant world would have swung around an even larger one.

Only My dictum "Let there be" and My word of love "Let there be light" was what populated the infinite ether, which filled the visible world with miracles, and which gave the impulse that beings clothed in matter, remembering their origin, only understood - why they were clothed and why they must again strive for liberation of the clothing.

Thus, the world first became visible and for the spiritually gifted not a material conglomerate of substances, but a great school of examination, where spirits, eternal light spirits must strive to go through different stages to reach where they started from, that is to me, the creator, who created everything with equal love, wants to preserve it and also lead it to spiritual perfection!

Thus, world light is synonymous with world life; for the worlds, living in the light, spread light and life in their environment, enliven matter, and awaken the spirits dormant therein, pulling them upwards - and so the light which one world sends to another is nothing more than the joyful trembling of matter, which, aroused by the warmth, informs the enclosed spirits of the loving hand, which has enclosed them in the former, but also wants to free them from it!

It is this vibration, this spreading of light, which radiates from the spirit world into the material world, in which it manifests itself in the most distant suns - and expresses all divine qualities accordingly in vibrations as a bundle of colors.

It is not for nothing that the legend goes with you that certain colors correspond to certain spiritual qualities. It is a feeling that runs through the soul when it imagines in the rose-colored light the ray of love, in the green the ray of hope, in the blue the ray of faith.

All prismatic colors have spiritual meaning and correspond - according to the vibrations they produce - to the actual effects of My divine qualities!

For it is in all that is visible - just as it is in the colors, and more than in other things, in terms of My love, My grace, My wisdom, My humility - and if 'white' is the color of innocence, this is to say nothing other than that in the unbroken ray of Light, as a white ray, all the divine qualities are united, which, as they emanate from My Spiritual World up to you as stars or sunlight, are united as a white ray, are to admonish you that you too, clothed in innocence, carry all other divine qualities in you, which however are only partially applied when they come into contact with other beings, just as the white ray of light millions of miles from the sun refracts into its rays of color only when it strikes material objects and through such grace, gives shine and shimmer to the objects!

This is the spiritual chain that connects the smallest worm with the last universe that circles at the borders of My spirit world.

And if a ray of light from distant stars falls upon your eyes, consider that if your eye was not of a solar nature, you would not notice the sun!

In your eye there already rests in its various humidity's a world of light, which homogeneously (akin) to the light sent to you by the whole universe also evokes in you the life or the same process which the light causes in the whole creation.

Your visual organ is one of those mediators who lift the soul with and through the visible to the spiritual and invisible.

Hence the saying among you: 'The eye is the mirror of the soul'. Yes, just as the infinite material world is reflected in your eye from outside, to the same degree your spiritual world shines through it.

What you unconsciously receive from afar through stars and sunlight, radiates again spiritualized out of the small visual apparatus and thus connects infinite worlds as matter with infinite spirits clothed in matter.

Light, material, awakens light, spiritual. The Light shows you My creation in its wonderful charms to awaken spiritual light in you.

'Let there be light' it once resounded into all the wide spaces and 'let there be light' I will also call into your hearts.

Yes, there will be light - in yourself! so that you may recognize Me, My creation and My love, so that you may understand that light, synonymous with love

and wisdom, brings the whole universe to life, stimulates all atoms in immense vibrations, and this trembling is not a painful but a delightful one.

Let there be light in your mind! warmth develops in your hearts! and so too - as in My creation through light My thoughts, so in your switching and ruling your actions will become visible, which like My creations should carry the stamp of love, the stamp of wisdom!

Feel exalted, My children, when you see the world around you in a rosy morning glow or when in the night sky millions of stars and distant worlds send you the 'greeting of consecration'!

Seek to initiate yourselves into My creation secrets! Learn to understand the great book of My Universe, My World of Light, that it may also become light in you and that you may recognize the same love and the same wisdom in the ray of light of a distant world, as well as in the ray of light that shines on a dewdrop, which once called out to the slumbering elements: 'Let there be' and to increase the pleasure of the consciousness of the created beings, which added light to it. Light, yes light! Infinitely great, spiritual, shines out from all towards you. Light is what the barely born infant strives for, and it is light, spiritual, eternal, despite all barriers of death which still shimmers through the coffin lid, where it will be clearly proven that a God, a Father, who endowed the world, the whole universe with such wonders, who has woven everything in light forms and light garments, will spread light again and again even at the end of the material decomposition of a spirit garment - only insofar different that during the course of life much material, little spiritual, then after falling away from the material shell no material, but the more spiritual light shines on you, the more the spiritual light shall lead you to the original source from which all light rays emanated eons of time ago and to which all light rays, both spiritual and material, must return again.

'Light!' My children, 'Light!' your call will resound one day, as with lost sailors on the high seas after long yearning: 'Land! Land!' sounds. Just as everything then joyfully embraces itself there, since one discovers the destination of travel, so the call for light will resound in you one day after the end of this life, when you reach other conditions, other spaces, where your material sunlight here on earth will only shine like dark streetlamps in comparison to the love light which shines in those places where spiritualized creatures enjoy their victory over matter!

In order to accustom you to this light, which already shines, albeit sparsely, but in some people already in earthly life, in order to illuminate the way to it for you, in order to teach you the spiritual light, the great factor of My creation, I spare no effort to also call into your souls: 'Let there be light!'.

Look at nature, look at the worlds, the stars, even your sun - all testify to the spiritual, eternal light, the light that spreads warmth and love from Me wherever it occurs.

Let it enter your heart! Recognize from the objects which are enlightened with material light, the spiritual which calls out to you from these visible witnesses of My power and My love:

'Illuminated by the light of the sun, we enjoy our existence, everything rejoices, trembles, vibrates, be it in silent splendor of color, be it in bright song of praise. Let yourselves also be awakened, O beloved ones of a God and a loving Father! Recognize from us only the spiritual living through visible light, God's light

within yourselves, recognize the chain or the gentle bond which connects everything and hastens from the far away spirit world in the form of thought, then from the last universe as material light brings the spirit greeting materialized as a ray of light to your eye, which is to announce to you that there is only one God, one Creator - but also only one loving Father, who realizes the spiritual through the material and also does not deny the last little animal, which crawls its way in the dust, and you too, wants to make your images of his own power into carriers of light, disseminators of spiritual light! But to become this you have to understand yourselves first of all what light is, what material light is, what spiritual light is; only then can you also communicate to others what lives in you!

Thus, all nature speaks, so I speak to you, that you may understand that 'light' is synonymous with 'knowledge', according to consciousness: I am not from this world, I am from another world, I am not an earth citizen, but a citizen of heaven, only placed here to practice My faculties (abilities), which up there in the eternal light are only 'commonplace'!

Therefore let the light penetrate through your physical eye, to awaken your spiritual inner self so that you understand My love, which wastes so many words to kindle a little spiritual flame in your hearts - while with a word of power it has lit up suns of immense magnitudes, which have material of the miraculous in vast dimensions, but yet cannot be compared to the only self-confident spark of God, which can exclaim standing in the middle of creation, while from Myriads of worlds the rays of light fall upon his eye:

'I am chosen to become a child of your Creator, for Me it happened that He once gave His life, there He denied His spiritual light to kindle in My heart the spark which, an offshoot of Him, shall be purified, transfigured and returned to Him!'.

So let there be light in your hearts! Every dark place, every doubt, every shadow side shall disappear; for where I shall once dwell, there it must become light - light is truth, light is love! Light is warmth or enthusiasm for the divine! You are to acquire these qualities; it must become light in you! And also, this word should again contribute to this, to show you how even in scientific discoveries and research only spiritual light is hidden, but which is only given to those who, in the midst of material or chemical processes, recognizes only the former as necessary in order to grasp the spiritual!

When the dying person lies on his deathbed and exclaims more often: 'Light. Light' because his senses gradually darken and become weaker, he is prompted by the urge, because 'light' also means 'life'.

Now, when you are also in the process of divorce from the material to the spiritual; now the call often arises in you too: 'Light! Light! Spiritual light!' Here I give it to you, receive it into your hearts!

Let the sun of spiritual truth shine there so that also there it turns dark into light, so that the love, the light of grace of My words warms and invigorates you and that you may recognize in every one of My words how important it is to Me to educate you to be light bearers, to be children of the light, since unfortunately so many children of darkness are roaming on this earth right now

Light, worlds, suns, and starlight, it is all the same - it is the great stream of spiritual love light that animates great worlds there in great masses and drives small spirits to perfection.

It is the same light which, radiating from afar, awakens similar things in the visual organ of the living being and evokes them through material spirituality! Thus, matter is spiritualized, and thus matter returns to Me one day, from which it originated.

Spreading light in the immeasurable spaces, this material splendor fills by the refraction of rays in colors, which causes the spiritual light in words.

My light makes matter vibrate and My Word makes spirits tremble!

Thus is the vibration of the light and heat generators, disseminators and perfectors, and My Word the stimulus to good thoughts, decisions and blessed actions.

Therefore, in your pilgrim life, be diligent in radiating as much spiritual light as circumstances permit, so that as little people on your small globe you may carry out what I am doing in the great universe!

There I am the great disseminator of light, and that is what you are to become here in miniature! But in order to radiate and spread light, one must possess more of it than one's needs require!

Therefore, strive to draw the full light of the Spirit from My words and that, although you communicate it to others, you may still have enough left for self-advancement!

This is the purpose of My words, the purpose of My direct message to individuals, in order to spread light where possible, before all the moral darkness sets in, which unfortunately already holds more than three-quarters of living humanity in its arms and wants to lead them to eternal spiritual death!

The source of My direct communication still flows to you, nor do you have words of comfort, love, Enlightenment, and the Light of Mercy, alone, but it could also happen that this source denies you its service, and then it will be far more difficult to obtain light, since you did not want to see with such an amount of light.

Not curiosity, but the desire for divine things shall inspire you; for the more you know, the more light is within you; and the darker it becomes from outside, the more each one needs his own spiritual light!

So - watch and pray! So that you do not fall prey to the sleep of darkness! The daylight makes many things less terrible for you, which at night grows in your imagination into huge shapes; and spiritual light makes you feel less terrible about the events to come because the light in you is the light of mercy from Me, which - the more the world light darkens, the more beautiful it shines!

I would not have to be an almighty God if My Light could not rule over all darkness!

Trust only in My guidance, My spiritual light, and you will soon see that My spiritual light of love and grace will guide you to become what I have created and educated you to be, that is: to mature inhabitants of a spirit world where shadow and darkness are missing and only the eternal light of love is to shine for you and lead you to your loving Father! Amen."

The Stars

MVN 1944:380

Jesus is speaking:
"The Stars! So distant
and so near! Millions and
Millions of meters away,
flying like birds of fire
through the boundless
fields of the sky, and yet
so visible to man's eyes,
as to say to him, believe
in God. We, too, are a
proof of his existence.
One would say that they

seem so close on certain evenings that with little effort they could be reached and touched. And yet anyone who thought he could do so, even by climbing to the highest peaks in the world, would be foolish. Whether man views them from the flattest plain or raises his gaze to them from the peaks of the Asian mountains, where the air is so rarified at that height that even the eagle finds it hard to live, or, rising even higher in one of those vehicles which are proof of human intelligence, but which you are unable to use except to serve ferocity and thus pollute with hellish hatred - he can never see them at closer range and much less reach them. The more he rises, the more they sink into the ether and go on pulsating, saying, 'We the daughters of God are not for you, for you contaminate us with your fallen humanity. We, creatures of God, are only a spark in that ocean of light which is the Kingdom of God. To reach the true Star, to know his Light, you have only to strip yourself of all your humanity. You will thus know God, for He reveals Himself to those who love Him and in love consume themselves as men and make themselves reign as souls, and you will then possess Him, after this brief life, for eternal Life. We, the millenary stars, shall experience death. You will not experience it if you make yourselves children of God.'

No man, by any means, can reach the star nearest to the earth, the humblest one in its burning. But God grants that you - because He loves you and you love Him - may reach it, know it, and immerse yourself in its Fire. And consider that there is less distance between the earth and the stars than between the stars and the throne of God. They are the immense floor of the Heavenly City, the foundations, even more than the floor, high up, much higher up, at inconceivable heights, for they do not correspond to human measures, is that blessed Reign ruled over by the Trinity, where a place is prepared for those who love. But since God's loving haste knows no delay, He, ahead of time, breathes you into Himself in spirit and gives Himself to you with his Fire.

Higher than the highest peak, more powerful than the most powerful vehicle, with its strength, unlimited because it is spiritual, love joins you to God and brings you to know Him. It suffices for you to be concerned about loving completely, about making love the only effort in your lives. Do not lose yourselves in other kinds of seeking. Try to possess love and cultivate it. Make it grow and grow by nourishing it, without indolence or fear.

Turn it into a pyre (a heaping mass of material for burning). The flame rises: the flame shines: the flame sings, rise towards God. Shine in the love igniting you. Sing out your love. Give God back what He has placed in your hearts to make you like Him: the capacity to love."

Diversity of Stars - eruptions

BD No. 1823 of 02/21/1941 taken from book 27

God the Father is speaking: "The natural law applicable to the universe is the indestructibility of everything in existence. Nothing can cease to exist instead; it can only ever change according to God's will. And this change, in turn, happens in the way that something becomes invisible in order to appear in a visible state elsewhere again. This law is inherent in even the tiniest work of creation, so that the apparent disintegration merely signifies a transformation of that which existed previously. Consequently, even large works of creation, such as stars, can take on different shapes; nevertheless, this process occurs over an extremely long-time span, over thousands of years according to earthly time, so that they can never be observed by people, as far as it concerns the fundamental change of a work of creation. Then the eruptions of individual works of creation are mainly the cause for shaping new creations from similar creations of smaller dimensions. These new creations exhibit the same characteristics and composition as the work of creation they emerged from. Thus, in the vicinity of a sun stars always exist with the same substances and natural laws that demonstrate their affiliation with this very sun. From a worldly point of view, the sun therefore cannot be anything else but an infinitely enlarged formation of the same composition as its surrounding planets, since these are works of creations which emerged from it. As a result, all these stars should also be populated with the same beings. But this is where enormous differences become obvious. Not one work of creation harbors the same living organisms as another, and therefore the external structure of each star differs as well, and always in relation to its living inhabitants. And this, in turn, also excludes the same material composition. Hence, only the core of each star is the basic substance, the external cover, however, corresponds to the living beings assigned to it. *Everything that exists within the vicinity of a sun has emerged from this sun, that is, it was spewed out by it, but from the moment of its independence it assumed the properties which correspond to the living beings to which this work of creation shall serve as an abode.* The infinitely varying degrees of maturity of the still imperfect spiritual beings also necessitate infinitely many creations of different structures, and herein lies the reason for the diversity of the stars."

Stars - Natural Law - Research to no Avail

BD No. 0254 of 01/10/1938 taken from book 5/6

God the Father is speaking: "Dear child, it is a fundamentally wise law that, according to the Lord's will, the heavenly bodies in the universe always orbit the sun at the same distance and in eternally repetitive regularity. Every creation in the universe depends on the solar system. Not a single star can exist without the luminosity of the sun, for the purpose of each heavenly body consists of being the abode for countless more living beings, and yet the composition of each one differs. If you want to ascertain this, you must take hitherto unknown laws into account. The

Earth is a completely independent star, that is, from other heavenly bodies, with its own specifically designed natural laws, and therefore you can only explain the stars you see in the firmament according to these natural laws. Yet you do not come close to the truth in this way, the laws of earth apply to all inhabitants of earth, nevertheless, they deviate from the laws of other stars. Consequently, it will never be possible for you to establish principles and rules about them, for you are not in control of the laws of the universe. It is roughly the same as if you tried to explain to the creatures in the animal kingdom that every individual person thinks differently, just as every spirit shapes its own life and that these lives can be totally different, and the animal would be unable to understand the spiritual sphere in which the human being exists. Although man lives on the same earth as the animal, so all stars differ from one another, despite the fact that they all move within the universe and are subject to the same will. Hence the final answer will remain unknown to you, it is therefore entirely pointless to establish scientific research about areas and questions mankind will never be able to solve. For even if you have found an answer, who wants to prove that this answer is right? Your calculations and conclusions will only ever be in accordance with the applicable laws for earth, yet the universe hides such great secrets that researching them during your earthly existence will be a futile effort. Who gives you the guarantee that the Lord's creation has taken place in the same way on all stars, who on earth will say things, the proof of which he is powerless to ascertain? Just as planets are worlds apart from each other, so is every star's purpose different for its assigned beings, and the laws these heavenly bodies are subject to were given by the Creator of the Universe according to His wise judgment, yet they are utterly incomprehensible for the inhabitants of Earth and not inexplicable for the human intellect. All beings shall recognize the Lord's greatness by His work of Creation, and if the human being only once considers the fact that he merely knows a very tiny part of Creation and that he cannot even thoroughly explore this part, the Earth, in its whole composition, then a slight sense of the infinity of the universe has to come to him, of the inconceivable magnitude of the Creator. And he must begin to realize that everything has been created according to a wisely devised divine plan and that the human being, as a part of this work of creation, was placed into it in order to likewise fulfill a task which has to be the purpose of his life on earth. And the result of a person's contemplation about trying to investigate the Earth and its surrounding heavenly bodies should be the wish to serve the Lord of the world. For vast is the universe and tiny is the human being."

Illumination of Stars - Cosmos

BD No. 7960 of 08/07/1961 taken from book 83

God the Father is speaking: "Cast all your worries upon the Lord, I Am truly your Father to Whom you should talk to as My children when you are downhearted, in a spiritual or earthly way. I said to you Myself 'Come unto Me, all ye that labor and are heavy laden, and I will give you rest.' And I will truly take every worry from you because I love you. My love for you wants to prove itself time and again, so that you will reciprocate it and thus return to Me. For once you rejected My love, and therefore I constantly pursue your love which will bring you back to Me. In order to gain your love I will also let you experience difficulties at times, which should make

you call upon Me, then you will gratefully accept My help and recognize the all-merciful Father in Me, Who is manifestly present to you and your hearts will lovingly turn to Him. And that is all I strive for. Accept the spiritual proclamations as they are offered to you, for they come from the kingdom of light and will truly not cause darkness. However, that which does not enlighten you, which leaves you in the dark, need not come from the kingdom of darkness, because I repel these forces when they want to express themselves. Yet it will always be possible for Me to enlighten your spirit providing you unreservedly believe that only truth can come forth from Me and that you will therefore also write down everything that was conveyed to you. (Relates to proclamation 7955) The will for truth guarantees the same, and even if a person's maturity has not yet reached the highest degree, I will nevertheless be satisfied with his will for truth in order to protect him from error. And although you humans think that you can conduct scientific research, the laws in the universe are not yet completely known to you, for this reason you will also have to accept something that appears to be absurd if it is explained to you by Me Myself, for your alleged 'facts' are only 'assumptions' which can be disputed. The Sun's range of illumination is limited by law, because the heavenly bodies are more or less hardened spiritual substance, that is, material creations. And the harder the spiritual substance is, the more immature the spirits these creations shelter are and the more they also prevent the illumination. Thus, rays of light will not reach them, because it is the law of eternity that resistance reduces the radiance of My light of love or even neutralizes it entirely. The law is not known to you humans, yet it takes effect in the universe, in other words: Everything in the universe is subject to this law, therefore it determines the spiritual state of maturity of the various stars and, for their inhabitants, also the degree of illumination and the degree of resistance of light. ***Thus, the Sun can shine with brightest intensity and yet stars can repel its radiance or reject it on account of the unspiritual state both the works of creation as well as their inhabitants find themselves in.*** This is particularly the case with the Moon, which can be considered a star of lowest-developed spiritual beings even in its consistency. It is not excluded from the illumination by the Sun, yet it does not always allow for its effect. Yet even the beings inhabiting the Moon are capable of changing, on account of which their state is not always the same and thus the Sun's influence on the star also varies. These are always ever spiritual explanations, but they can nevertheless also result in understanding earthly processes, but which the scientists on earth will not include in their investigations and therefore also look for earthly-understandable explanations which are, however, not entirely free from error. Yet you should grant credence to My Word that you humans will never get to the bottom of it, for the Earth is one of the tiniest creations in the universe, and its inhabitants still have far too little knowledge about the correlations as to be able to fathom the universe with all My works of creation which I control and direct in My love, wisdom and power and which I let arise as a means of returning the spirits to Me which, having once fallen away from Me, also lost all light, all knowledge, and will only regain these when they have concluded the process through Creation and then be brightly enlightened as well."

Micro-and Macro-Cosmos

Ref: "The Secrets of Creation" by Jakob Lorber; Chapter 33 (July 20, 1875) 01]

Jesus is speaking: "Behold, My dear children, with these two words science has enriched its collection of names, but without actually knowing what they wanted to say with these words, or in other words without realizing that if I accept infinity as existing, micro and macrocosm, of course in a certain limited sense, denote the same thing. However, the latter name "macro-cosmos" was previously used by astronomers before another researcher discovered a whole new world in a much smaller area using a microscope, in contrast to where the telescope found no limits in space.

Thus, these words came into being without, however, the slightest thought of an infinite Creator of the universe, whereby these qualities of infinity on a large and small scale would have been founded by themselves.

When astronomers discover new worlds from star to star with ever-improving telescopes and recoil from their distances because they can no longer find the numbers for them, or because they no longer grasp these distances with the human mind; when from one inextricable nebula to another in the night sky new creations always emerge, where only the largest star complexes are visible, also all these planets and earths orbiting these suns and worlds will remain eternally inscrutable to the human eye, then they should have thought of the arranger of all this, because after their weak calculations, despite apparent disturbances, everything goes its regulated course. Only a few of them referred all discoveries in this field to Me but titled the whole thing only as "cosmos", and because the distance is without end, as "macrocosm", and left it at this expression, which almost every schoolboy now knows, but thinks just as little as the greatest stargazer does.

The second way to "infinity", which another researcher (Ehrenberg) and after him others followed, the first was to follow animal life as far as their microscopically assisted eyesight would allow, and the second was to use this instrument to examine the cell tissues of plants and the components of the mineral kingdom.

Since they did not find the boundary here either, where animal life ends and where the components of the individual elements again showed their particles decomposing into other "life", they also called this whole world that had become visible and newly discovered to them "microcosm", where also the explorer has not yet met a landmark who has shown him the end of the world, but rather the end of his weak mind and explorer spirit by calling out to him: "This far and no further!" - just as astronomers could only guess from the distant constellations or shell globes that there is by no means an end there, but only a "stop", where common sense can no longer grasp what a Creator has created according to His greatness, but not according to the physical size of a tiny human being.

These latter researchers also write whole books about the ever new and again new discoveries in this field, but even there you will get to read My Name

little; they roam around only in matter, and just as materially as their search they also find nothing but matter again.

But since I do not want to have "My children" educated in this way, and even though scholars have made certain names for inexpressible things, you should actually know what is behind these names or how they are to be interpreted. That is why I just again took up the word to show you anew that although often already shown, but always new views of My creation can be gained if one wants to look attentively with spiritual eyes at even humanly invented words.

Everything that I have let you write through My servant until now has the very purpose of putting My creation in the right light for you and for thousands of generations to come after you; for social conditions may change as they wish; no matter how different the forms of government may appear, two things will always exist: you inhabitants of the earth as well as others of larger worlds will always have a physical or material covering, depending on the circumstances, and your or each world, will also always consist of matter that contains life in order to be able to fulfil its mission.

So as long as matter exists, as long as the process of creation, preservation and transformation proceeds in and on the worlds, that's how long micro and macro cosmos will remain, and quite naturally precisely because I as creator of the whole am infinite and therefore My creation must also be infinite.

When the human mind looks out into the wide spaces of the universe with the best telescopes, it will only discover new worlds - since matter, starting from the finest atom, always again forms matter - which (again contain everything in themselves), as, if I want to set an example that is obvious to you, any seed already contains in individual grain the infinite ability to produce from it the plant, from the plant the blossom and from the blossom again the seed. Like here, if you want to look at it carefully, there is not end in sight, just as in the macro-cosmos worlds of worlds are formed, were, of course, the scale of your short lifetime cannot be taken into account.

So on a large scale and so on a small scale, where life must always be simpler, more limited, always to give rise to the thriving of all living things as a reason for a higher life, and in plant life, where everything which exists and visibly confronts the equipped eye of the human researcher, it must also be assumed with every discovery of a new cell tissue that this smallest cell again has its components, must have its organs, its own life, which drives it to develop the future, until finally to the ordinary human eye at a higher level can see the whole thing composed of millions of small tissues, be it plant, mineral or living being, shows how much it takes to create and maintain even an inconspicuous little plant or infusion animal!

If men were spiritually attentive observers of a single object in My creation, they would recognize the Creator with capital letters in every created thing or being and certainly would not so spiritually and carelessly often out of wantonness destroy things that are the greatest miracles for them as human beings.

Only, unfortunately man in general is like this, everything he sees daily, everything he sees growing, thriving, and decaying like plants, it does not stimulate him to further research or to further reflection; he accepts it as something existing, uses it as he sees fit, without thinking in the least of the giver or donor of it. Millions go through life thoughtlessly, are born, educated and die without ever having known

what "to be born" means, how one should be educated and what actually "dying" means or is. Everyone believes - there is still time for this in the other world, if there is one at all?

That is why the lamentations and pleas of those who have passed over, when they begin to suspect there how they should have lived and unfortunately did not live; when they see how many means were available to them on earth and yet they did not want to use them, but in stupid arrogance and delusion of great power as men - they had completely forgotten the one who delivered them into the world out of love and never missed an opportunity to call to them with every beat:

"Remember, O man, that apart from you, there is a spiritual world in you and above you, which you cannot escape, and which has created you according to spiritual laws and which will also judge you after death according to spiritual laws!"

Therefore, one word follows another which I am giving you; because in everything and everywhere I seek to prove to you that you are not to live and be born alone for this world; but in everything I seek to enlighten you so that you can find the way to me which, precisely because you are surrounded materially and with material creations, can therefore only be found through matter alone - because in the material creation you are to find again the spiritual and in the spiritual My infinite, because only in this way you can morally move from step to step. The teaching alone is of no use to you if you do not imprint what you have read into your mind, mix it spiritually with yourselves, so that what an apostle once said will also come true in you: "No longer I, but Christ lives in me!"

Likewise, you too are not to use pious words, not always the expression "the Lord" in your mouths, but in your way of thinking and acting you should show that you cannot think otherwise than as your God, Creator and Father himself thinks, you should feel Him everywhere: in both the macro-cosmos and microcosmos. In the light of the last star that falls on your eye, you should recognize the same language of love, which, equally and unchangeably in the smallest animal, has arranged everything so carefully and with love in such a way that this last infusion animal visible to you enjoys joy and bliss in its limited life just as much relatively to its organization as the most exalted angel who, in My nearness overlooks eons of worlds similar to Me with a glance. That is why I also chose these two words, so that you do not stop at the superficial expression, thoughtlessly overlooking miracles, which are always same everywhere, in the great world complexes or in the smallest cell tissue of a microscopic fiber of a plant, calling out to you: "Look at me, you human spirit, and do not dream away your short span of life! Everywhere the love of the Father smiles at you, who has already shown you many things, but has withheld many more, which only a born again man is able to see, who will then recognize that he does not need great scenes of nature, uplifting moments of great enthusiasm and the nameless distances of world bodies in order to comprehend the love of a Creator, but that it is far closer to you and within you, where you will then also find the same laws, the same care everywhere, like a God, understand that o man, like a God! created! - as a Father established His worlds, where just in matter the highest spiritual - His love alone - contributes to the preservation of the created and to bring it to higher levels"!

So, think, My children, or as you learn to think, to feel and act accordingly! So, strive when limited science throws you names from dead languages, that even

under these names there is often far more spiritual hidden than the one who used them for the first-time suspects.

I allow many of your scholars and explorers to discover many things from My domain of nature, I allow many of the discoveries to be used for your social life, I even allow that these discoveries are used for deception and abuse instead of for the best of humanity!

But beside these "admissions" My primitive (simple) laws of nature remain standing, where the falsifier of them punishes himself, at least in his moral dignity, and the careless one, who is often tempted by avarice and greed, must also atone for the consequences of his own passions in the physical world!

But under all these pros and cons I have nevertheless chosen My own way for Myself, where I have partly already for a long time been preparing the building blocks that will once be necessary to erect the great spiritual house (Rev 20,17, and in "The Second Coming of Christ"), where all falsification, all deception will have an end and My children will recognize their Father in all His works and in His already earlier given words will have the testimony that just as in matter the limit of a micro and macro-cosmos cannot be determined, so also in the spiritual conception of My words or in their practice also infinitely continuously the smallest often has the greatest consequences, or from the most inconspicuous causes the most far reaching effects can be achieved!

The gaze of an industrious researcher seeks in vain to see the last world, always forgetting that the last sun, which sends the ray to his eye through his telescope, shows him borrowed light, behind which the other greater sun will remain hidden from him.

And when he again penetrates into the smallest spaces, where a thousand magnifications always show him other forms, which precisely because they are still visible to the eye, must again consist of small vessels where "life" dwells", there is also in spiritual recognition the same endless sequence of steps, which is in the highest spirit, which a created can anticipate, does not reach the limit where I as center or endpoint again unite everything in Myself, simple and yet multifaceted representing the whole spiritual and material area in Me alone up to the simplest thought, which nevertheless had to precede in order to create an ether atom, which also as soon as it is "atom" is still composed of smaller components, reaching to the limit of air-, gas or spirit-form, on the whole visualizing, also the world on a small scale, as the former presents the world on a large scale!

This is how the world works! So read and understand all the words which I have given you! – Do not be content with the fleeting impression; for this is not why you have received all these words, but, as I already said above, to understand spiritually as materially enveloped spirits, what is to mark you as My children! - For where I and how I think, so must or should at least think all these, which I have created in My image.

But under My image is meant My spiritual self, which can only be reached when the shell of matter has become transparent, one only sees spiritual things everywhere, and where the gaze no longer reaches, it is nevertheless perceived cognizably.

Myself as God has no beginning and no end, neither is My creation, and your macro - and microcosmos, so called until now, are also infinite, where no human spirit will ever discover the limits of neither the beginning nor the end!

You should actually look proudly up into those immeasurable spaces, from where after thousands of years only a ray of light falls on your eye, that you are capable according to your organization to suspect such things, or when you descend into the depths of the smallest, where a drop of water contains millions of wonders, but at the same time you should humbly look up to your Creator, who despite your physical minuteness put this spiritual spark into your heart, that you can partly grasp the greatness of infinity, and you should fall down before My omnipotence in love and devotion, which recognizes you as spiritual beings in its infinite mercy, instead of looking at you as insignificant beings, pulling you to His breast, educating you as His children and making you feel, who in its infinite mercy recognizes you as spiritual beings, instead of looking at you as insignificant beings, pulling you to His breast, educating you as His children and making you feel, that although a fatherly love is also on earth, this is by no means a weak shadow against those whom I, as almighty creator, feel towards you as well as towards the last worm in the dust, as I gradually lead all created beings closer to me, to unite everyone in a "kingdom of love", where matter has ceased and, forming spiritual things only, an eternal, constant bliss is to unite the Father with His children!

And this is the effort and purpose of all My words, all My guidance and all My creations which, starting from the micro-cosmos, even in the macro-cosmos will not yet have reached the end, but there again in similar circumstances a new creation will begin to count its beginnings, so that the word "infinity" in its entire meaning will be grasped and understood, felt and enjoyed by all!" Amen

The scale of the visible Universe:
[The Known Universe by AMNH - YouTube](#)

God the Father is speaking: "The grace of the word reception ensures you also My protection, and you don't need to be afraid, to labor under a mistake, because I know your desire for truth and don't give you wrong teachings, though you are surrounded constantly by forces of darkness, that would like to dim or extinguish the light from above. But they are powerless against the light, that is beaming them, and they flee, because they recognize its source. But again, and

again they will try to embarrass your thoughts, which I however straighten right again and again, because it is your task, to serve Me in My vineyard and thus to spread the truth, which I Myself transmit you from above, because you people need it for your maturing. I alone can only teach you right and likewise the beings of light too, through them flows the same light of love, that emanates from Me, and therefore they always can only emit the same light, that they take in reception by Myself, to let it radiate in the darkness. And so, you are allowed indubitably to take on everything approaching you from above. You only have to know that it is hard, to reveal secrets of creation to you, as long as you're still quite ignorant in it. For you don't know the laws of nature, even to know their effects, and even you know less about the divine spiritual laws. You don't know about the sources of light in the universe, which have a purely spiritual origin and yet their effect can be seen by the earthly eye. And therefore, you cannot be given a clear explanation, whether and when the rays of the sun experience a reduction in their radiation force, whether and when the radiation force is entirely abolished. Human calculations are not applicable, although alleged evidence is believed to justify them. The radiation area of the sun is also limited, because it is a *spiritual light stream* that is interrupted, when the lawful order is not complied, where the fundamental principle of eternal order turns off an efficacy, what you people cannot recognize and understand in your limited state. Spiritual processes in the cosmos will always correspond with earthly or apparent processes because everything is in closest relationships with one another. And so there would be no obstacles or limitations for the irradiation of sunlight, if not by a certain resistance of the still immature spiritual, from that the world bodies exist in the universe more or less, the light force or radiation force would be reduced or prevented. But the nature of the world bodies is just caused in the composition of immature spiritual substances, and the degree of their completion determines also the degree of illumination, and so even more perfect creations are self-radiant heavenly bodies, because they can get light from the original source, without finding resistance, and therefore also those light sources can emit light again. So also, any dark star can be illuminated, and it is also illuminated in the proportion, as life must be ensured on those stars. But permanent illumination would rather endanger life, therefore these floodlighting must also be kept within limits, which explains the alternation of day and night in the spiritual sense. However, all processes in the universe can be explained earthly, but a certain requirement for understanding must be there. People must know that all the stars in the region of the sun also receive the light of this, but always in the explained manner before, that they only get light, that is necessary for life and existence, according to the mental state of its inhabitants, and that this illumination of light can be seen sometimes by inhabitants of other heavenly bodies. But in no way a world body, a star, prevents or limits the illumination of one another, as you humans imagine, for every star is the sun accessible in the same proportion, but its illumination is determined by the star itself, which so characterizes the spiritual state of its substance. Because the sunlight is spiritual radiation, the sun is a self-luminous heavenly body that is constantly fed by the source of the original strength and the light and forwards the strength and lightning stream constantly. It is well visible in the firmament, but already a creation of spiritual nature, where perfect spiritual engages in the preservation of the works of creation, which are in the range of this

sun. Now spiritual radiation penetrates everything, also each matter, but it stops in its efficiency, where a resistance offers in form of unspiritual substance, as any matter is meant. But this substance would never hinder or stop floodlighting, to meet other stars again, that is a false idea that a star could prove to be a shadow for another. But laws exist according to divine order, and these laws will also endure eternally, as long as there a material creation exists. And where it is only possible, I will inform you people also of that, when the maturity of your souls allows this and when I consider it salutary for you and your soul."

God the Father is speaking: "Already there is a star in the East (Matther 2: 9-11) that will pave the way for Orion, and the fire of Sirius will consume all of them."! (HG

1,1,12). What does the East mean here, what is the star, and what is the Orion, what is the fire and what the Sirius/great dog? Who are those which will be consumed by the fire of the great hound?

The 'star' is the love light of this word itself and the 'Orion' is the love of God.

The 'fire of the great Sirius/dog' means the great faithfulness of this love, for the dog is a symbol of faithfulness. But those who are being 'consumed with fire', or being brought to shame, are the worldly people.

In other words, this sentence above means nothing else than: The light of love of the new word will pave the way for the Godly life. The faithfulness of this love will bring to shame all the trespassers, unbelievers, and lukewarm ones. For the East is open, the star of love has already risen high.

This is the easy meaning of these somewhat higher placed words. But since I have revealed it some more, you have to pay more attention to it. Amen. Thus says the 'Orion' through His 'great hound'. Amen. Amen"

About Orion, Sirius, and the Pleiades – Part 1

Ref: "Secrets of Creation" Chapter 26, Jakob Lorber (December 12, 1875) 01]

God the Father is speaking: "A few days ago, when you were about to close the windows of your room in the late hours of the night, you were looking at the constellation known to you as "Orion", next to which, at a short distance, Sirius cast his bright light towards you and on the other side the so-called "Seven Sisters" or "Pleiades" reminded you of your youth, where in the military education center (or "cadet school") you often looked at these stars in the winter evenings with a

foreboding sense, without knowing what they are, where their light comes from and how they always show themselves in those spaces in the ether at the same distance from each other.

[SIRIUS, ONE OF THE CLOSEST STARS TO OUR EARTH - YouTube](#)

Times and years passed by, many a winter passed over your head with its joys and sorrows, and now, almost at the end of your earthly life, you again looked at these constellations, and if once only your soul had a notion, now a spiritual view has partially opened to you what as a young man you could never have understood.

Thus, My Son, the young man matures into a man and the man into an old man, so ideas and concepts change according to life experiences and intellectual education; so the blossom and fruit of the seed once planted gradually ripens, and so many a man is gradually educated by Me to enter the spirit kingdom, in preparation for higher missions.

That's happened to you, too: trained through many adversities, you gradually learned to "endure" (tolerate), you learned to exercise humility and gentleness, you learned to recognize and walk the path which alone leads to Me, and so now as an old man or mature man you again stand before a piece of My creation, before a constellation, and recognize in these luminous worlds the great and mighty spirit, who quietly leads such enormous masses freely in space; and thousands and thousands of years may still pass, so they will still appear to the inhabitants for what they are now: flickering stars on the dark horizon at night.

You and the whole human race with your short lifespan, what are you against such worlds, what is your earth against such a star? Even your sun, which is almost a hundred times larger in diameter than your earth, even this is only a grain of sand against Sirius or a star in Orion; what are you then only in comparison with the inhabitants who populate those stars? In physical size probably also only very insignificant, hardly visible; but more in spirit than they are.

If I were to describe this world, its surface, vegetation, formation and its light to you, you would sink into a nothing before the splendor and glory of these creations and then you would understand all the more what human pride is actually worth, which is so inflated for some here on earth.

At most these explanations alone would calm your curiosity; but morally and spiritually not further promote (advance) you, since just as spiritual men you should also recognize Me in the smallest, and it is not yet necessary to crush your imagination by recording creations, of which despite the explanation you could not grasp or comprehend the tenth part; because you always have to consider that you are men and everything else must be difficult to understand beyond your horizon.

So much I only tell you that these stars, which for you form the constellation of Orion, are of immense size, and that a mass of other worlds move around each of these stars; and that Sirius, as the next fixed star for you, is the very sun around which your whole solar system must orbit, that - while your sun has hundreds of thousands of miles in diameter - the diameter of Sirius must be measured by millions of miles.

From this you can reasonably conclude that everything on these worlds must be arranged in such a way that the necessary relationship between the animal and plant world also requires human creatures that go beyond your conception.

By the way I have to note that Sirius, as you call him, is far closer to you than Orion, millions of miles away from him, and the **Pleiades, a complex of stars of more than five hundred suns**, even further behind him in his glory.

[Pleiades | The Seven Sisters - YouTube](#)

I will not even speak of the great "nebula in Orion", for it is just a magnificent globe of shells ("globe of shells" is the name given to the grouping of decillions times decillions of suns that move in great and far reaching orbits as central suns of the first, second, third and fourth class with the countless many planetary suns, like the one of our earth, all around a common, immeasurably large center, which is also an almost endlessly large main mid-sun. (J. Lorber in a footnote to the Great Gospel of John, Volume 2, Chapter 57.), which only sends its glorious light to you after many thousands of years (that is, as long as the light takes) in the night darkness between the stars of Orion.

See, in this constellation of Orion alone stands before you a small piece of My creation, of which the first star, Sirius, is in closest interaction with your solar system and thus with yourselves.

The Orion, seemingly standing behind him, shows you in regular lines a constellation, which is also connected by mutual attraction at immense distance and always shows you the same picture, and then the Pleiades, a small shell globe in another large one leads you even further distances, and finally the nebula in Orion reminds you of distances, where your numerical calculation already has no more digits to express it in an approximate way.

And do you perhaps believe that where this nebula turns into star complexes, already the end of My creation is? Not at all! Far behind it, worlds float in free space, whose light has not yet been able to penetrate your eyes since the creation of the earth; and even if it happens, they will hardly be visible to the inhabitants of the earth with the sharpest telescopes.

The boundary of My material creation is still far from being set there, it goes on and on, from nebula to nebula, forming, perfecting, dissolving.

There in those spaces even your measure of time is no longer possible, for what is your year. Moses already told you, "with Me a thousand years is only one day", and I add - even these thousand years are still too small for a calendar of My creation.

Thus, My Son, your eye penetrated those constellations with spiritual gaze, flew through the immense spaces just like the thought, recognized in that gradual distance the slowly progressing course, like matter from the coarsely bound to the finer, from the psychic to the spiritual, from the spiritual to the divine - your spiritual gaze included in this constellation My omnipotence, My greatness and My love; for the same life that moved your slowly pulsating heart in faster beats, the same life looked towards you in the flickering of such distant worlds.

In the light you recognized the bearer of life, but also the reason of love, for without light there would be no life and without life there would be no ability to think. To understand the wonders of a loving father, one must first be able to see them, which leads seeing to feeling and then to touching.

So for you the flickering of starlight was your father's love whisper, and you remembered your youth, when you sometimes looked at those beautiful stars questioningly and wanted to say to them: "What are you, lovely lights, on the dark horizon of the world? Thousands of years on earth passed by, and many generations passed by and knew as little as I did, and in thousands of years on earth their inhabitants will still see you rising in winter in the east and will know just as little as all their predecessors. Impenetrable veil. Nothing but suspicions and not an inch of certainty!"

So, you often thought when these stars stood on the horizon again every winter, and almost seventy years had to pass before you could understand and grasp what I indicated to you when I said: "in My Father's House are many dwellings!"

Now you know more than at that time, now you can also suspect more, grasp more, but also love your Creator, your Father more than then; "because now you know for sure what you once wanted to guess."

You also know even more, namely that behind this great material world there is an even larger spirit world, that this spirit world surrounds you even in your proximity and that you already have friends there who are waiting for you with longing, and that even if you could comprehend with your mind an infinity of the material world, you now also feel with your heart an infinity of the human spirit which proves to you that when all these worlds will be passed away or transformed in eons of years, you will always be a witness of their legitimate revolutions and transformations.

You have seen and understood from everything that beside this host of worlds there is a great mighty Creator who, loving as Father beside these great creations, does not forget even the smallest beings and in great as in small is always the same that love is His main characteristic, that love is the reason why He created such worlds, that love is the factor that pushes all material to the spiritual, that love can only be regarded as life when the smallest being follows the same instincts that moved the Creator to create the whole world.

The cold calculating mind may measure the distances of the world a hundred times, as far as its instruments and its science of calculation allow, and still discover

orbiting planets, which all obey only one law; but not a single thought of love will warm his heart, he will be amazed at the worlds, their distances; but with admiration and reverence only the loving heart sinks down, which recognizes how in the midst of all matter, in the midst of all luminous worlds and suns only the ray of love can be warming.

What is all your astronomy? A cold enumeration of the stars, their orbits, and at most their different light alone all this does not give you the key to My creation: If you discover laws, do not forget the legislator, He can only make what he has created worthwhile for you.

If He created out of love, "love" must also be the first thing that absorbs the ray of love and, in return, can give it back.

Thus was your spiritual gaze into the constellation of Orion, you saw in it your whole life, your mission, your future destiny, it shone out from all the shimmering rays of these stars the love of your Father, before whom you should have fallen down and proclaimed: "What am I, O Lord, that you remember me!"

And I answered you: "Rise, My child I know your heart and know what you want to say; your language has no words, it is an earthly product with which you cannot express supernatural feelings". Calm down and persevere on the post I have placed you on; it will not last long and you will learn to measure and comprehend these immense spaces with your spiritual eyes, you will always find your Father everywhere in and on all worlds, who has lovingly arranged everything, leads everything on and wants to unite everything in a blissful way.

Let only the light of the distant worlds shine on your eyes, let it bring forth in you this pleasant emotion that makes all hearts peaceful; know - the light from all stars is love - light is pure spiritual fluid, not yet polluted with coarse-material things - it is spiritual life, transformed into the finest substances of the creative space. Just as your sun is the bearer of all life on your little earth, so is the light of the stars, although coming from far away, always a carrier of those spiritual potencies which must supplement in you and all men that which your sun is not able to provide.

Thus, the light of the constellation of Orion, Sirius and the Pleiades stimulated in you the tender threads of your heart; the light from those worlds as a light of love was spiritually related to your feelings and so arose that spiritual distant view into the spaces where counting stops and even the speed of light becomes zero.

Related things united with similar things, and so you understood the language of a ray of light which, from millions of miles away, told you the same thing that the tiny dust particle also preaches to you, that is: " God is love."

This is what will happen to everyone when he raises his eyes to his Father and His creation with a purely childlike mind. To understand My creation and Myself is not a matter of the mind, it is a matter of the heart, of feeling.

You do not know the language of feelings, you only suspect it; but in other spiritual relations this language will also become understandable to the spiritual man; for he must have it if it is to be his own progression from feeling to feeling, from bliss to bliss.

Do you believe these blessings can be borne all alone and in silence? No, it is only through communication to others that one enjoys fully; so, I enjoy through the joy of My children, and so they too must have a way of expressing them.

In individual moments of your life, you feel that such a language exists; but at the same time, you feel that you are not capable of it.

Precisely for this reason I also give you the expression of a single moment of spiritual elevation in so many words, so that others may also grasp what a sensitive heart can feel in a moment, in order to also encourage others not to look at My nature so spiritlessly, but so that they should get used to removing the material impressions from themselves and, when they do work, to interpret them spiritually; because men are spirits, and the spiritual is their first food, and in the end they stay the longest in the spiritual world.

Like many thousands go thoughtlessly under My Starry firmament in the evening, not paying any attention to them, they sneak into their cold four walls, chasing after the animal needs, to forget themselves, Myself and My world in sleep.

The kingdom of infinity, spread out over their heads, is regarded as non-existent, the kingdom among them a closed book; so, they walk between two beautiful creations, where even their own existence is a Mystery to them. So, they go day after day towards dissolution, transformation; they came into the world, didn't know why, and leave it again without a hair's breadth having become smarter.

O poor human race! how will you fare in the other world, if you do not fit into them and cannot go back into them? Alone so it is, they are free, and so they shall enjoy what they have created for themselves.

He who wants to be an animal, let him remain an animal; and he who wants to become a spirit, let him become so and experience already in earthly life, in individual moments, that the visible world is something completely different than it seems; and that above it and in the midst of it there is still a spiritual kingdom, which has no end and no beginning and where in the center of all created I as father, as personified love meet all with love and let them feel it often themselves in earthly life, which will find its full expression in the spirit realm.

So, it was with you too, My Son, so I would like to know it with all My children, so they all obtain what they long for: Peace and comfort in life on earth and still spiritual enjoyment in the spirit world.

In this way they achieve regular progress and so they can repeat the hours of spiritual exaltation more often, until in the other world they make their lives permanent.

I always preach to lift yourselves up from the mud of earthly life! It is in vain; you will never find what you are looking for in its pleasures. You are spirits, and spiritually you should learn to enjoy.

Even the most material has spiritual sides, and who have not yet come so far as to give everything a spiritual covering, to draw from all spiritual gain, is still far away from the goal which he as man should reach here on earth, whereupon he can only reach the other, higher ones in the hereafter.

All that surrounds you are miracles; you yourselves, your physical and spiritual organization, everywhere material things are only the basis of a general great spiritual kingdom.

What is life? What is light? What is heat, what is magnetism, what is electricity? etc. all these questions which I have already answered to your satisfaction, and yet you sneak around like blind people in this garden full of glorious

products of divine love, bow your head deeply, forgetting your spiritual mission, your spiritual education, because of your material needs.

O corrupt human race, what bitter experiences will you prepare for yourself. My eye foresaw it long ago, but I cannot stop it; and so, I have to be content with the few who, although only after hard trials, want to listen to My voice and not so thoughtlessly walk away, because the time of wandering is short, and the goal is far away.

Therefore, also heed this word! In the beginning it was only addressed to My scribe alone; but everything I say is and must become common property. And so may this gaze of one open the eyes of many, so that they may all recognize what is at their command (if they only seriously want to), in order to prepare for themselves already in this trial life pleasures, which will only find the true interpretation in that life where time is a different measure, the measure of eternity, infinite spirits can also offer infinite joys! Amen."

About Orion, Sirius, and the Pleiades – Part 2

Ref: Chapter 27, "Secrets of Creation" by Jakob Lorber (December 21, 1875)

God the Father is speaking: "In the last word I led you out into those distant places from where after millennia only a ray of light comes to you, showed you in a constellation a small piece of My infinite creation, showed you the great world suns which, gathered together in nebulae form there a kingdom of brilliance and colorful splendor, of which no human can imagine, nor will ever bring about a firm image of it.

I told you how many wonders I have placed in space only to prepare blessings for the spirits who love Me and know Me, which they are to receive and enjoy after victory as a suitable reward for their struggle and sorrowful life.

I demonstrated to you by enumerating all the wonders surrounding you, by the organizing of your and every sentient being's body given to you by Me, how far away you all are, despite all the words and factual (actual) evidence, to recognize your own spiritual point of view.

I told you how most of your brothers and sisters walk dully and unthinkingly under My starry firmament, without knowing in the least what is spreading above their heads and how instructive it would be to read there, if they were able to decipher these great scriptures of My eternal love!

At the last word I let you sense all the greatness of My creation and feel your own powerlessness beside it; I spoke admonitions and comforting words to you and to all, and yet it is not enough, what I said about this spiritual vision, which you have put into My creation.

There is still much, indeed very much remains to be said before it becomes understandable to others what this great etheric space is, which seems to arch over their heads, and what a position man actually occupies in the midst of this infinite unlimited space.

The numbers are not sufficient to measure My worlds and their distances, the words cannot describe all the beauties of these creations, and no human spirit, neither here nor there, will ever get a perfect overview of My whole material and spiritual kingdom.

One (world) expands infinitely - but the second is even more infinite; for if the material appears partly limited by space, the expansion of the spirit realm is an unlimited one, because exactly those people dying from all worlds existing up to now fill a spirit kingdom, where next to them a myriad of other spirits rejoice in their existence, who have never been clothed in a material shell before.

There, however, other laws prevail, and everything enlivens a different order that does not recognize time and space as a measure, but where, in addition to eternal existence itself, everything surrounding it carries the Temple of Infinity to an even greater degree.

You have taken a look into and through a constellation into My creation, you have seen how millions of suns send you the rays of their light from afar, where the ray of light is now falling into your eye emerged from those spaces thousands of years ago and now, where the same ray of light only becomes apparent to you, there have long ago again proceeded thousands of changes on these great suns and into their light - so that with everything you see from those distances, only a time long past shines towards you and only past, not present nor future, can you read from them.

So is this great spiritual chain, which unites everything and branches out into the smallest to establish the eternal rule of all My laws, as I established them from the beginning, for the self-preservation of the created.

Since the ray of light is not only to shine, but also to carry an eternal life force, you understand well that it must also have a life-driving influence where it is noticeable; for no ray of light, coming from even the most distant suns and worlds and falling on an object only after thousands of years, has lost its primitive power, which it can only express, however, as soon as an object opposes its path.

Thus, new worlds came into being whose virginal light has not yet come to you: and so, you see suns shining, whose existence has long since ceased as suns in space.

The so-called sidereal (sidereal = generally related to the stars, in particular to the influence and the effects of starlight) influence of the outside world on your physical and spiritual life you all cannot comprehend, nor make it clear to you that it is too gentle and non-destructive.

But they are there, these influences, and they work continually, this I can assure you, although you do not feel them, and your scholars deny them. There must be such an interaction, otherwise nothing uniform could be represented!

How could a mutual connection be possible at such distances and such sizes, if the perpetual exchange of spiritual and material components would not be promoted and brought about by means of light in addition to the force of attraction!

Light is the carrier and the awakener of all life, without light there would be no movement, no development of heat would be possible, where heat as awakener and decomposer of all that has been created brings about what you all call "life".

The decomposition and combustion process carries all elements from stage to stage, perfecting them by destroying, and so eternal regeneration is the result of the once created basic principle, whereby the infinite continuance of all materially formed could be conditioned and established!

What you can see here every day in the material world, the same goes on in the spirit world as well.

The spiritual connection, the rapid flight of thought also produces the same result as the light in material creation.

The living force that dwells in the spiritual light is thought - and the material of the spiritual light is the communicated word.

The power is incorporeal in that it only manifests itself in its effects, just as the thought only becomes palpable to the other through the spoken word or the action performed.

The realm of thoughts is infinite, knows no limits, and the thought itself has even faster flight than light.

The thought enlivens like the power of life that is sheltered in the light. But just as light only begins to act and becomes visible when it reflects back on a solid object, so too the thought is only noticeable when it condenses into form, makes itself audible to others in words.

And how in the light of worlds that have long since disappeared the New-born Power is still, so is the Word, which, though spoken thousands of years ago, will not fail to have an effect.

See, what I spoke more than a thousand years ago, and where now again My descent into your little world will be celebrated in a few days as a feast of remembrance of those times with you - it is still in all its power! And as the light, so also the word, where it is conspicuous and can take root, causes the same thing that the light produces, that is, warmth or spiritual love and with the warmth of love activity or elimination of the unsuitable and perfection of the better.

My Word from those times never lost its power, but to put it better, it has never since then unfolded all its power, but soon the time will come when it will stand in all its glory as that which I once gave it: as the only binding agent between the spiritual and material kingdom.

Soon will come the time when from one end of creation to the other the light-thought of love will be understood and exercised!

The wind of spiritual knowledge is already blowing on your earth. And just as the morning wind precedes every sunrise, where the air heated by the sun comes into contact with the cold air of the night and strives to balance itself with it, so also My divine thought, which I brought as seed to this small earth at that time, will spread warmth and light and begin to drive away the cold air of egoism and animal passions.

Always and everywhere the same principle - light and warmth in the material, thought and expression of it through word and deed in the spiritual. These are the connecting elements that chain everything together, making each one dependent on the other!

Thus, My Kingdom consists in eternal life, further education and self-perfection.

In all spaces lives and weaves the power of love, which produces the same in the material as in the spiritual, and if your gaze cannot measure the distances in space, your imagination cannot follow the effects of a spoken thought either. One works like the other forever. Where light encounters an object, it must undergo its influence; where a thought touches a heart as a word, there the success does not fail, which can never be the same with the diversity of the created beings, because of their individuality either.

Thus, also in the spiritual the thought effect is an ongoing one because although it has done its part with the higher spirits, it also acts with all others standing on lower levels as soon as one or the other thinking being comes into its sphere.

A look into the constellation of Orion has spiritually opened to you the wide spaces of My creation, and you sank together before the greatness of distances, before the greatness of the world bodies; and now a look into the infinity of the world of thoughts fills you with devotion and love for me, since in fatherly favor I have already given you and the others some spiritual gifts from which all should recognize what their position in this world should and could be if they were spiritually better educated!

Christmas, the New Year's Eve, both remind you, the first of My great act of love, the second of the flight of time, where you are now far away in completely different spaces than in the previous year, when your sun and its companions, with great speed leads you towards other cosmic spaces than those that you were near last year.

Do not ask about changing climatic conditions, not about changing the spiritual attitudes of mankind as well as of the individual man; you do not know where you are now and where the laws of My creation lead you!

In infinite space the suns move around the suns, and the planets must always feel their changes, including their interactions, under their influence.

Everything has its final purpose, including the circling of worlds around worlds. In the whole ether there is not one place, no matter how small it may be, completely equal to another, because it is precisely there that existing conditions again require different living conditions.

It is the same with you on the small earth, on the seashore is a different life than in the mountains, in marshlands different from in the steppe or in the desert - everywhere even the organization of living beings suffers under these climatically different conditions, and these again partly determine the spiritual development.

Just as this example in the small, so in the starry sky in the large: there too, other influences determine other effects and other purposes.

It is not for nothing that millions of miles are the necessary distances for the existence of one or the other body of the world; it is not for nothing that even greater distances are needed for even greater suns. They must have space for their material formation and for the perfection of all the smaller worlds that depend on them.

Nothing is placed in vain as it is now, was once and will always be.

An infinitely lasting work must be built on a broader basis if, in addition to entering life, it must also preserve itself, perfect itself and bring itself to a certain final result.

I gave the first impulse of existence; the rest must develop from itself.

In your soul life it is the same, the first ray of light of love for God and men must first be laid, and then it is incumbent on every person to form himself to what I actually created him; The thought ray "the Word" must awaken him, the rest of the process of decomposition and perfection must therefore be carried out by him.

How the worlds are led through wide spaces in order to absorb everywhere from the ether what they need for their preservation and formation, as does the human spirit in the great realm of thought, where also he has the task of

understanding and fulfilling his mission from the words left behind, be they divine or human.

Far behind the material creation "the great Spirit" dwells in the midst of His spirit realm, and far above the world of thoughts actually lives only the source of the spiritual understanding of the given words!

It is not the words, not the thoughts, which must lead men to their goals, but their spiritually correct conception, their practical realization.

Just as light with all its creative power only works when it falls on a solid object; as well as the whole world of thoughts only becomes fruitful when it can also bear fruit falling on receptive ground.

See My Teaching, how simply I gave it to even uneducated people, like My apostles only fishermen etc. and not scholars! And nowadays, with all the scholarship of the whole world, there is still no one who can give it back to men as I have spoken it and as I want to see it understood; but I Myself again have to start anew as it were and for the time being explain everything again individually to only a few, if I want that My words, words of the highest spirit, are also to be understood spiritually.

How often have I tried this remedy? From centuries to centuries, I spoke through different people, always in accordance with the spirit of time, in vain! My words were not heard or overheard or misinterpreted; and now you too are again one of those chosen ones through whom I want to supplement My curriculum, and nevertheless, look at your followers how few understand what you have to write and what I let them say in My infinite grace.

From all kingdoms of nature, from all corners of the earth and of creation I seek out objects which receive under My hand an importance as no man has ever imagined.

I dissect what is nearest to them as well as farthest, everywhere I show them the same purpose, the same loving father and the same cause.

Everywhere I explain to them what the source of all creation is, whether through the microscope or telescope they want to contemplate My miracles, everywhere it is, was and will be love that created everything, preserves everything and perfects everything.

In Orion, as in the smallest atom of the world's ether, it calls to you all what My angels once sung at My Birth:

"Peace" with the world! "Peace" preaches My creation, "peace" is My ultimate goal - and "peace" shall also reign among you!

Look where you want to go, and you will find that nature always wants to establish peace where it has been disturbed by elementary events or something else. Every created being longs for peace.

The approaching Christmas should also remind you of this peace.

"Peace with the world, with yourselves" be also your watchword for the coming year, that you may spread it wherever your position is!

So may the light from the last nebulas of Orion also send you peace, where worlds whose distance and greatness may be incalculable for you, but whose tendency and existence likewise only obey the laws of peace and send you the gentle ray of love of their light, so that you may recognize that even there the same law still exists, the same care is given, which does not forget the last worm also here

on your little earth and which only wants to spread peace everywhere, because only in peace love alone can be active! Amen."

Constellation of Orion - Essence of Light

Ref: "Secrets of Creation" by Jakob Lorber Chapter 28 - (January 4, 1876)

Jesus is speaking: "In My last two words about the constellation of Orion, I have already explained to you some of the main characteristics of light, namely as the first - "the stimulating, invigorating force" and the second "the development of warmth or life".

But now I want to show you other qualities of light, which some of you might have suspected, but whose concept has never become clear to them.

Years ago I said to you in one word that "light, life and love (see the chapter "light, life and love" in "Secrets of life") are connected to each other in such a way that one emerges from the other; but now I also want to explain to you in more detail how it behaves so that you are able to recognize again how much is and must still be present in a ray of light, it shall correspond to My ideas and eternally be a carrier of My will and an awakener of life and love!

Behold, My children, the whole immeasurable ether is a dark space in which the cosmic forces act alone.

However, the ether itself has all elements within it which are necessary for the creation of the individual worlds and for their preservation. Within the smallest atom of ether lies this primordial force, which is always arranged according to its position in such a way that it is either an attracting or a repelling force, whereby even the ether does not enjoy rest, but both forces, the attracting and the repelling, receive within it the necessary movement and the actual cosmic life, which alone is suitable, firstly, to give the existing worlds what is necessary for their preservation or to remove the unnecessary from it, and secondly - which etheric life is thereby enabled to let new worlds emerge from the elementary substances lying within it.

Now, in the midst of this great ether space, where there is no below or above, no right or left is conceivable, in this dark space, like drops of oil floating on the water without gravity, the great worlds and suns together with all planets and comets orbiting them –are attracted or repelled by each other - held in long, elliptical or almost circular orbits.

In the ether, as I said, eternal motion rules through these two forces, which you can also call "electricity and magnetism", through which the worlds, suns and planetary orbits are determined or influenced.

This movement causes friction, friction generates heat, and heat finally also light, and light with its expressions of power, as I already said above, life or a legitimate aspiration to shape itself, to maintain itself and to spiritualize everything through wear, destruction or transformation; so that all worlds, the suns and their satellites will finally return, after their material destruction or decay, as new, however spiritual worlds must go one step further through the same process of formation, which they have gone through as bound matter from the etheric atom to the worlds and solar formations.

Since the worlds and suns are not all alike, indeed, nonidentical to the other, their development process is also limited to different epochs of time, where one can

fully carry out its development, perfection and new formation process in so many millions and the other only in eons of years.

Your scholars have discovered in the light qualities which - as they cannot be known to all - I will enumerate here, where then great, important discoveries are to be connected to these small achievements; so that you may see that all that the scholars find through experiments or instruments is indeed true, but that they are lacking in the proper judgment of it, since they do not want to regard it as a gift of grace from the Creator of a universe.

So see, the scholars have found in the light, firstly: that the light (I am talking for the time being about sunlight) consists of a bundle of rays and each ray in the form of a four-edged star (in cross section) - always has a positive and a negative electrical edge. They also discovered that in addition to these luminous rays, dark black lines appear, which they have called "heat rays". They also found that the ray of light itself, when it falls on chemically prepared metals, produces certain colors by means of this discovery they wanted to expand their investigation so far as to determine the material components of distant worlds and suns, whether they consist of material similar to your small earth! (The so-called "spectral analysis")

By the way, the scholars have refracted the ray of light into its seven colors through the prism, as you can always observe on all products and in the rainbow with its various mixtures.

Well, all these discoveries, partly true and partly false, could have taken the scholars one step further; only there they would have had to give up their scholarliness in order to bow before their Lord, before Me; but this did not appeal to their pride, and so they stopped at what they found.

But since I have other views of the world than they and do not make a privilege out of My knowledge of things like they do, but proceed on the principle: "One only knows Me completely when one learns to understand My works", so it is and always has been My concern: to communicate to My children (be they materially created people or spirits) as much of My spirit as they can comprehend and grasp. And so, I will also now again, following up on these just mentioned discoveries, continue My word about light so that it becomes light in your head and you yourselves can appreciate the discoveries of your natural scientists in the right measure.

I told you in the last word that the light has an invigorating power; and just now I also said that in the ether two forces are always opposite each other, namely attraction and repulsion, which cause life, that is to say, light and warmth and from this life.

Well, the discoveries of your scholars in four-edged ray of light are likewise nothing other than these two forces which, where they attract attention to solid or denser objects, put into action this struggle of the two basic forces of all that exists and thus continue or condition the whole process of life from creation to its passing away or transformation.

The so-called "black lines" of heat rays are nothing else than denser substances which are carried along by the light beam in its fast course from the etheric space, and which - precisely because of the speed of the light rubbing naturally against each other - generate heat themselves in the light beam and can thus be called "heat rays", since the more directly they attract an object, the more

they develop the latent (bound, stored) heat of the physical world through their warmth and their speed.

But what mainly contributes to this heat development is the refraction of the light beam, initially into its three main colors: red, blue and yellow, and also the mixing of these into the other (secondary and tertiary colors), since the bodies partially absorb the colors and only reflect the unused ones, through which they then become visible to the human eye.

See, I have told you in the last word that where a ray of light strikes, it produces life and warmth, but the "how" you find in the refraction and division of color. For as soon as a ray of light touches an object with its life force, this object or its material particles begin to vibrate, so that individual parts of the same object vibrate billions of times in a second, separating this or that color from itself, as reflecting to the observer on its surface; to which must be added the reaction that takes place in the elements of your eye through the renewed refraction of the reflected colors in the iris and the other parts of the visual organs.

"Seeing" therefore means nothing other than to notice every object in the color that he rejects as not his own, while he has absorbed all the others, both main and mixed colors, since they are necessary for his existence.

Thus, the black color is not a color because the object has absorbed all the colors, and "white" is not a color either, because the object that appears white to you completely lacks the gift of absorption and reflects all the rays of light that fall back on it without decomposing them to its needs.

So, you can see from all this that you must judge the whole splendor of colors of nature differently than it appears to the earthly eye; for to the spiritual eye a feverish rain appears there, where peace shines, which is stimulated to form, maintain, develop and transform, and only by the ray of light simply striking there.

In the great etheric space, I told you, everything also moves, caused by the two elemental forces of attraction and repulsion; but in the seemingly solid matter there is no rest either, for the same process takes place with the first ray of light that falls on it; everything also moves in it, with a speed that no human sense can ever grasp and no human eye can ever notice.

Thus, the effect of the simple beam of light is the great factor of all life.

What your scholars believe to have invented, namely a device to determine even the elementary components of distant worlds by means of reaction of the light beam to chemically prepared substances, they are very mistaken, which they could easily recognize if they only wanted to compare their experiments where in all stars and suns only the same result appears (that is, even if they differ among themselves, it can only be about substances known on earth), because they completely ignore the factor, the earth atmosphere, through which every ray of light must pass before it reaches the surface of the earth.

Well, so I ask these scholars, do they not believe that all the same substances are present in the atmosphere of the earth, namely in a dissolved state, which find themselves bound in the body of the earth itself!

With little thought, an affirmation should come out of this, for the globe once arose from the atmosphere, and it will once again dissolve into it as a cloud of mist, just as it already now in every second gives its spent elements to it.

If a ray of light coming from afar touches the atmosphere of the earth and penetrates it, then it must partly submit to the influence of the atmosphere and then also bring the same substances that make up the atmosphere with it onto the surface of the earth.

For example, "iron" is present in the Earth's atmosphere in a dissolved state, so the light beam already comes loaded with such elements on the chemically prepared material and therefore naturally reacts to it with iron, but not as a pure light beam from a distant sun or world, but as a changed factor, influenced by the telluric (earthly) orbit of our planet itself.

If it were possible to get the light ray of a sun or other world directly from the ether-space without it having to undergo other chemical processes which it cannot avoid when passing through atmospheres, then your scholars would get other results and sometimes no results at all.

But this is impossible, since no living being can exist without an atmosphere, although in the ether all the primordial materials of creation are ready but must first be made useful and consumable for living creatures only through many transformations.

Therefore be content with what I have taught you to be for your own good, and do not seek to explore things which lead to no other result than the realization that there are other world bodies which are earths or suns like yours, whose interior, surface, vegetation and creatures deviate so far from the shapes and forms you have dreamed of that you can set your imagination free and yet will never approach the truth by a hair's breadth.

My worlds are dwellings of creatures which I created out of love, received out of love, educated, and perfected until they too have all learned to recognize, understand and love Him out of the struggle with matter as pure spiritual children of their great Father and Creator.

One thing remains certain: The light is the bearer of My love, the awakener of all life and even if it happens in so many different ways, a spiritual man will always have to sink in astonishment when he experiences how the whole great building of creation owes all its eternal survival, its perfection, its development and finite spiritualization only to the ray of light, which binds worlds together with such great speed, balances their needs, arouses life and love wherever his power is felt.

Here I spoke only of the individual ray of light and its properties. But if you only want to look at your sun, where a sea of light rays from its great atmosphere falls on your earth every second, that sea of light which no human eye, although it is also filled with elements of sunlight, can look at with impunity - if you then think of larger suns whose diameter and radius reaches far beyond the orbit of your last planets (from

our sun as the center), and suspect what mass of light emanates there, what movement, life and warmth it must produce, what brilliance of colors and what splendor of color those rays of light are able to produce where they are striking, then you can already imagine the glory which is in My creation, where your sun in comparison to the others would have to disappear before the glow of greater suns as a faint night light. And on such worlds live beings who, while maintaining the human type, have a beauty in form and expression that all your conceptions of beauty are insufficient, inadequate; for you still have no concept of higher souls, of their spiritual formation, but where also the outside corresponds to the inside, and where an angelic face - as you often say - is not yet sufficient in all your imagination according to human concepts, as you might find such a thing in other worlds in innumerable numbers.

Oh, My creation is great, but it is also glorious and sublime, full of bliss and spiritual pleasures, whereby your earth, like a desert wasteland, could only endure the weakest comparison.

But why I have chosen this very small earth for My greatest deed, why you are preferred over many others to one day become My true children after trouble and struggle, that has another, great, spiritual purpose, which I have already discussed with you elsewhere before and now do not want to repeat here now!

I was moved to this step by the spiritual diffusion of light, and therefore I began where it was the darkest and unfortunately still is; while in those other worlds men revel in bliss, know nothing of struggle or sorrow, but also therefore have no merit. They progress slowly and will also have to go through longer phases of education, until they come to where you now - led by My hand, could already be!

It is precisely in spiritual progression that there is a different law and another reason than in the material. And therefore do not envy those who never felt the urge for the spiritual, because their conditions already makes them so blessed that a separation from there would hurt them infinitely; while you poor wanderers have to carry the flag of the spiritual nobility on arid ground in the midst of a neglected world and thus fight sourly for what has fallen into the laps of other creatures without will and in abundance.

Light, the carrier and perfecter of the material, has given them in abundance what others lack; but light, spiritual light with the same factors as material light, it illuminates your heart, beautifies even the most boring wasteland, because viewed through this light, interpreted differently (and even utilizing its properties differently), it can produce other results.

The light with its disintegrating colors, according to the seven qualities of My divine self, materially accomplishes what they spiritually accomplish.

Light makes everything materially bound vibrate and tremble. Also the spiritual light, when it moves the soul or the human heart in its qualities, makes it also tremble with delight, makes it feel that a loving Creator only wants to prepare such ennobling pleasures, and that as with material light the reaction follows - where it is noticeable, so also the spiritual light embellishes everything and shows with it what its qualities are able to achieve: love, tolerance, mercy, forgiveness and submission to the highest will as true humility even with the greatest sacrifices.

Just as the light, when it falls on the cold earth as the first ray of sun in the morning, animates everything, affects everything, so does the spiritual light, which

sets all spiritual abilities in motion in order to fulfil the mission, which is why people have entered this short wandering life.

The whole animal world with only a few exceptions feels the first ray of light. Even the drowsy person, when a ray of the sun hits his camp, feels troubled, it urges him, and restlessly he rolls around, not knowing and not suspecting that it is an eternity which wants to give him proof of his never-ending power in the ray of light of the rising sun.

The hard-working ant sticks out its feelers from its hole in the earth, for the ray of light reminds her to work. There a little bird sits on a dry rice, the first morning ray of the invigorating sun moves it to chirp its morning song, and the bee leaves its nest humming from flower to flower to collect the sweet juice, which it presumes to store for its comrades in the beehive for winter times, but which unfortunately the pleasure-seeking man robs from her again.

Everywhere it moves, in and on earth, - everything rejoices at this recurring ray of sun, for life is in it and life depends on it.

Even in the far north, while everything solidified from the influence of the great cold, light is the only witness of nature's activity, while everything else gives no life, no sign of warmth.

In the south of your globe, at the pole, spent substances of the earth organism arise from it, and like luminous bands they return again to the north, where the magnetic-etheric (ethereal) force flows into the earth's interior, where the Mysterious movement of the earth's atmosphere draws it. And just near the magnetic pole, where two forces meet - magnetism and electricity - these vapors are ignited by friction of their elementary atoms and, as a northern light, spreads your familiar electric light. The decomposition and combustion process takes place in various refractions and different forms, until everything that had become dead for the earth organism becomes usable again and can flow back into the earth's interior as an active magnetic force, as an invigorating substance, so that everything on the surface of this small planet can flourish and become beautiful, in constant interaction with the outside world, the same harmony is also created inside and the same purpose is fulfilled.

Just as you humans and the entire animal kingdom inhale the "oxygen and life substance" and exhale it again as carbon, the latter is greedily absorbed by the entire plant world for its prosperity and completes the exchange cycle, by preparing oxygen at nighttime - also the earth as a living pulsating being absorbs magnetic fluid in the north, discharges electric fluid in the south and sends it back to the north, where just in the midst of the stagnation on earth in the atmosphere the spiritual purification process takes place, which supplements the consumed with new viable elements.

Everywhere it is light that spreads warmth and life. And just there, where man with his greed finds nothing more to gain, and in that height of your atmosphere, where animal life has become impossible, there is the workshop of My omnipotence, which is eternally renewing what is consumed in millions every day.

Within the great etheric space, it is the same. Only the light with its fast flight crosses this eternal darkness. Light rays of millions of suns and worlds meet, cross each other there, where one ray gives off to the other what it no longer needs, which

is beyond millions of miles of another sun, another planet, to become partial spiritualized food, so that the individual as a whole is preserved.

It is the four-edged ray of light with its positive and negative electricity that sustains My creation and helps to lead it to its goal.

Between the circles of the entire systems of worlds a group of comets moves as expectant suns with their future planets. In elongated orbits they pass through the dark ether, leaving a long streak of luminosity, which also contains only their elementary substances, and which should testify to their size and their speed.

Here is a star which, according to the classification you have introduced, belongs to the twelfth class, grows ever brighter, ever larger up to the star of first magnitude in brilliance and then decreases in light again after a few years until it has completely disappeared from your eyes.

It showed you the process of its becoming and its passing away, but its becoming was long before the ray of light, and its dissolution took place when you saw it in its highest glory.

Here is a comet, a future solar system in the process of formation, and there an end of world life, where perhaps individual debris could circle around in cosmic space testifying to its former greatness.

No one tells you of all this great life of creation, if it is not the fleeting ray of light which, like the fast passing of time, reminds us of the transience of the existing, where only the purpose of creating something new, of progressing, is the main principle in all creation.

O how few know the true value of light, neither in spiritual correspondence, by which it could often give great and fruitful teachings to man as a ray of light, if he were able to receive them or to comprehend them spiritually, not in material regard, how out of the ray of light all that is good and beautiful germinates!

You, My Son, saw a whole great world in the light of a few stars. I helped you to hold on to this moment forever so that, even if you once departed, your and My Word would bear fruit. And now again I have taken up the same subject and have just explained the ray of light to all of you like a professor, furthermore let you feel the spiritual ray of light of My word - and now I send you again the light as the primary substance of My qualities as a loving being, synonymous with and equally effective wherever light, which excites life, can replace what is lacking.

I have shown you how light alone is the only factor which gives you knowledge of the existence of distant worlds and thus puts you in contact with worlds where spiritually related, loving souls also wait for redemption from matter in order to once be able to enjoy all happiness as spiritual beings, which can only be won and felt spiritually, therefore only by spirits.

I showed you in the Northern Lights the balance of the consumed with the newly acquired in the metabolism of your earth, taught you how everywhere the light acts as a propagator of life, weaves and preserves, and just as in the dark etheric space, where everything on your earth has solidified, only the spiritual effect of all elementary substances begins to be useful to the small earth inside and outside.

Thus you have heard a multitude of all possible explanations of light, you have heard in detail, as in the sea of light of a central sun, the word which is to kindle a spiritual light for you, so that you may not forget Him who does not fail to draw

attention to the wonders and laws of His creation, so that you should regard the former as witnesses of His love and never sin against the latter. Because only you yourselves will have to be subject to the punishment just as only you can and should enjoy the blisses when you have got to know and love Me even more through My creation.

Time and time again I repeat it and again today: I am love! Only in this way can you understand Me, cherish My words, and learn to appreciate My works; and only through love do you find the key to the kingdom of spirits, whose inhabitants you will be by far longer than this short life of redemption is!

Where there is love in the heart, the first ray shines to find the way to Me; for even this love, spreading warmth and life, like the ray of light, will eternally be the bearer of all good and sublime.

Without love My seven qualities cannot be expressed, for all spring from it. And just as the light is divided into seven colors to beautify the visible world, so too does love actively sweeten man's way of life in its qualities, where he will only really understand the love of God, which cannot exist without love for his neighbor, by exercising it towards his neighbor.

For because of neighborly love, I created the whole universe, guided the light through it, and even I only feel My qualities again when I find them realized in living beings.

Thus the ray of light must create and maintain harmony and mutual interaction from one pole of creation to the other, and so through it the bond between loving beings, between father and children becomes ever closer until once - as I said it on earth: "will be "one shepherd and one flock", where then I will no longer let the word resound in the wide spaces of My creation: let there be light! for light will have become everywhere, inside the hearts as well as in the outward appearance of the material world, where no dark spot will stand against the spiritual eye when visiting My works!

Thus the light is to lead you as a symbol of My love far out to those distant worlds and far into the bowels of the planets and suns, where love as a substitute for the material light does and prepares everything to give the creatures living on the surface a bearable happy life, where the preservation of physical life is to be easily disturbed and the formation of the spiritual should not be disturbed by anything, so that, as I said to you years ago: light, life and love is the cloverleaf of the Trinity, which is to guide you on all paths and finally lead you to Me in the spirit realm, where light, life and love will no longer have an end - and you will always find "more light" in spiritual life and "more love" in spiritual light, which starting from Me, first of all invigorating the whole spirit kingdom, facilitating the material life and warming the hearts of men, is to make a covenant more firmly, in which from father to child there are only gentle gradations and therefore never frighten the omnipotence of the former, but make his love forget everything that could complicate life in the great spirit kingdom.

So here again you have a word, a word of My miracles, to show you that even if you have to be astonished by the greatness of My world, you should not shy away from the Creator, who only wants to be a Father, but may have firm confidence that He just as a Father on earth does not want to give you anything but joys and indeed joys without end! Amen."

Worlds upon Worlds

MVN 1943:261

God the Father is speaking: "I would be a very small and limited God the Creator if I had created only the Earth as an inhabited world! With a beat of my will, I have brought forth worlds upon worlds from nothing and cast them as luminous fine dust into the immensity of the firmament.

The Earth, about which you are so proud and fierce, is nothing but one of the bits of fine dust rotating in

unboundedness, and not the biggest one. It is certainly the most corrupt one, though. Lives upon lives are teeming in the millions of worlds which are the joy of your gaze on peaceful nights, and the perfection of God will appear to you when, with the intellectual sign of your spirits rejoined to God, you are able to see the wonders of those worlds."

Worlds of Light

Ref: Jesus is speaking about his childhood: Ref: The Child of Jesus by Jacob Lorber:180

Jesus is speaking: "James, My brother, you do truly love me! And I love you so much that you will eternally never be able to quite comprehend how much I love you! See, my dear brother James, the heavens are wide and infinitely great - they include countless numbers of shining worlds of light in relation to which the earth is only a drop of dew - and these worlds carry countless numbers of most happy beings of your kind. But among them none is happier than you, now My dearest brother! At present you do not understand Me, but in time you will understand Me quite well. I do not want to sleep now while the children of men keep watch about Me. And with you, James, I shall remain! These words broke James' heart anew and he wept for joy of love, and the inquiring priest nearly sank into the ground from sheer reverence and highest respect for this Child."

My Father's House

Ref: John 14:2,3

In my Father's house there are many dwelling places. If there were not, would I have told you that I am going to prepare a place for you? And if I go and prepare a place for you, I will come back again and take you to myself, so that where I am you also may be.

In My Father's House are many Mansions – Part 1

BD No. 5449 of 07/26/1952 taken from book 60

Jesus is speaking: "In My Father's house are many mansions. Can you understand the meaning of My Words? That I promise you a dwelling in My Father's house but at the same time want you to know that a suitable abode is prepared to accommodate every one of My living creations, that I want to tell you, that what you have not yet achieved on earth you can still strive to achieve in My kingdom, because I have countless possibilities to improve your development in the spiritual kingdom. I have not just the earth at My disposal, but all My creations are places to attain full maturity for the still imperfect soul until it has finally developed to the point that, in heavenly bliss, it will be able to take possession of the most magnificent spiritual creations, for wherever it stays is in 'My Father's house', in the sphere of My infinite love, and it will always stay where the Father has prepared a dwelling place which corresponds to its degree of love and its ability to reign and work in the realm to which it was assigned by Me.

In My Father's house are many mansions. No being is homeless, the eternal home accepts all souls, yet this home has many different aspects, it can exhibit the most magnificent flower gardens and wonderful palaces, but it can also include infinitely vast barren regions which take ages to wander through, yet even in these barren regions paths branch off which lead to areas full of flowers, and it just depends on whether the ramblers pay attention to these paths, whether they attentively try to find a way out from this barren region and also take this way out. Everyone will be accepted in My eternal home, and everyone has the right to take ownership of a dwelling. But what it consists of is entirely subject to their will.

And therefore, I say: In My Father's house there are many mansions. For every human being, every being, prepares its own place of abode depending on the degree of its perfection. Yet no matter how poor his dwelling is, through his will and his work it can really quickly be transformed, and the most delightful homesteads can arise if only the soul has the desire for it and diligently strives for fulfillment. In that case it will be

supported by countless helpers who will create and work with the soul, and it can become a paradise-like dwelling place where previously was a barren and bleak region. One day every soul will return to its true home, but as long as it is still imperfect it will feel homeless, although it will have already entered the kingdom from whence it once had come. However, I have many schoolhouses, and higher development will advance for sure, even if it often requires a long time. One day the lost son will return home and reside in the mansion he once owned, he will stay in the Father's house where all children are gathered around the Father, he will be lovingly received by the Eternal Love, Which will give him a seat next to Himself.

Yet infinite times will still pass by until all My children have found home again, until they can take up residence in My house; infinite times will still pass by, yet I will not abandon any one of My children. The Father's love attracts them, and not one of My children will be able to resist this love forever."

In My Father's House are many Mansions – Part 2

Ref: BD 7601 16.05.1960

Jesus is speaking: "Countless heavenly bodies circle the universe, and they all have the task of helping immature souls reach maturity.

So now you can understand the Words: 'In My Father's house are many mansions' and every star receives the souls whose state of maturity is suitable to its conditions; in other words, the potential for maturity differs on every star and the souls are placed accordingly. But the living conditions, too, are always different, because the stars' nature and consistency vary. A detailed description cannot be given to people on earth because much would be incomprehensible to them and requires spiritual knowledge in order to be understood. But for all souls, whatever their degree of maturity, suitable stars exist for maturing, where souls of good will are able to ascend. For even there the spiritual beings' free will is taken into account, even their spiritual constraint is not applied, although the respective living conditions constrain the beings to the extent that they have to accept them, or they could not survive in their world. And everywhere the beings will receive a light which reveals the purpose of their existence. Whether they accept and utilize the light is up to them, but it is decisive for their ascent. And all these works of God's creation are 'mansions in the Father's house.'

Hence all spiritual essence will one day achieve the degree of maturity which will enable it to exchange physical creations with purely spiritual ones, which you humans are unable to perceive with your physical eyes. Because everything that is visible to you are creations which shelter beings which are still immature, since perfected beings are active in the kingdom of light and no longer require 'visible' creations for their abode. But the distance between all these works of creation is vast and they are not within reach of each other either. The inhabitants of all these worlds are tied to their planet, to the star on which they live. They are only able to change their abode after reaching a certain degree of maturity, and not arbitrarily but in line with God's fundamental law, to which all His creations must submit, including the beings who are allocated to them. It is therefore foolish to assume that the inhabitants of these worlds could arbitrarily depart from them and approach other worlds without fearing their own destruction. Because the living conditions are different on all stars, and these cannot be excluded arbitrarily. However, during the last days even such plans are being worked on."

The inhabitants of all these worlds are tied to their planet, to the star on which they live.

Other Worlds - Diversity of Stars

BD No. 8838 of 08/08/1964 taken from book 93

God the Father is speaking: "You are requesting clarification about the creations in the universe, and I want to provide it for you as far as you are able to understand it. The creations are partly of a spiritual and partly of a material kind, but these cannot be regarded as earthly material, for My creative will is incredibly versatile and you should never assume that other stars have the same composition as earth. However, you have to consider that it is not just earth, which is sheltering solidified spiritual substances, but that the innumerable stars visible to your eyes were called into being by Me to help the ascent of all human souls which have not yet reached the degree of maturity needed in order to continue their development in the creations of the beyond.

The whole of creation is My emanated strength, and the earth is the most miserable creation because it consists of coarse matter. Thus, anyone covering the process through its creations would be able to completely spiritualize what 'soul' gives life to the human being. Yet the attained degrees of maturity in which the soul departs from earth after the death of its body are very different. And thus, it will be received by other creations which, as far as it is concerned, certainly also exist in the 'beyond' but which by no means can be called purely spiritual creations, since their substances are likewise solidified spiritual essence, strength, which once emerged from Me as a being and failed to become active in accordance with My will. However, this matter is far lighter and more compliant, so that the souls staying there are impelled into eager activity and mutual helpfulness, thus they continue to progress ever more. Thus, it can be said that this matter is easily dissolvable and yet it also shelters spiritual substance which had once become unfaithful to Me but which does not suffer to the extent as is the case on earth, which gladly is of service in facilitating the souls' further development, which (this matter) therefore will disintegrate again as soon as it has fulfilled its task.

The creations on these stars are inhabited by beings, which can also be called human beings, who likewise have the task of supporting these souls' further development, consequently material creations have to exist as well, yet they should not be imagined such like those on earth. The beings (souls) are now in a world which offers them incredible things and yet it is a tangible world, because everything is permeated by My spiritual strength and it will remain a tangible world until the complete spiritualization of all beings has taken place, which then will no longer require a material world.

But since this shall continue for an eternity and the stars in the firmament are thus visible to you humans, you are instructed to the effect that all these worlds are My will which has taken on shape, that I have emanated strength which more or less was deeply fallen spiritual essence, that this strength manifested itself, thus it is and remains visible for the respective inhabitants of these stars, who merely possess different degrees of realization and are thus also able to admit inhabitants from earth in order to help them further their development. Then you humans will exist 'beyond' earth and yet in My kingdom and depending on your maturity you will change your abode in order to enter ever more spiritualized creations.

Yet whatever your eyes behold as heavenly bodies in the firmament are creations which were brought into being by My will; and these creations are the

original spirits which had once deserted Me, they were given a task by Me that they now fulfill, hence they more or less acknowledge Me again, consequently, they didn't descend quite so low but nevertheless require material creations in order to fulfill their task therein. Yet it cannot be said that it is earthly matter, since this spiritual essence had fallen into the deepest abyss which the human being on earth has to overcome over an infinitely long period of time, rather, those material creations were given to people for their happiness and to delight in them. For a visible star must also exhibit visible creations which should illustrate to the already more mature spirits their Creator's magnitude and power and also offer the spiritual substances still in need of maturing the opportunity to be of service. This problem is not easy to explain to you because you only understand what exists on your earth, and even here your knowledge is limited, but how other stars have an effect on your thoughts will remain hidden to you as long as you are incapable of seeing spiritually. Then, however, this realm will be open to you and you won't be able to stop marveling at the creations on the individual stars. Yet all My works have their reason and demonstrate My love and wisdom and might.

And whatever seems inexplicable to you will become known to you the more your soul's maturity advances, then there will be no more questions which could not be answered for you. And this wealth of knowledge will make you very happy, even if it is at the moment still concealed from you."

Other Worlds - Separation of the Planets

BD No. 6323 of 07/31/1955 taken from book 68

God the Father is speaking: "Vast distances separate the creations which you behold as stars in the firmament, distances, which you humans cannot estimate and therefore not conquer either, because every single star is a world in its own right and these worlds are hermetically sealed in so far as that they have entirely different atmospheres which are always appropriate to the consistency of the planet itself as well as to their inhabitants. You humans should not believe that My creative spirit

could not create and design versatile enough. You should not believe that you will find the same living conditions as on the earth you inhabit on other celestial bodies again, and you should even less believe that these celestial bodies could offer you the same living facilities that are necessary for your survival, if you ever reach the vicinity of such a star. Yet it would be a futile venture, you will never even succeed in establishing contact with other celestial bodies unless it happens on a spiritual level via thought transmissions from these worlds which will always only serve your spiritual progress but never concern humanly intended worldly research.

You humans can indeed develop considerable abilities, you can productively create and design on earth, you can ascertain the forces of nature and utilize them in every conceivable way; by virtue of your intellect, you can deeply penetrate the laws of nature and then become prominent with all your knowledge. Yet your sphere of activity is and always will remain the earth, and if you then try to utilize your intellectual findings for the benefit of your fellow human beings My blessing will also support your work, your activity, for then My law of eternal order will be upheld. But you also have to stay within this order, you have to observe the laws I Myself have decreed and which are distinctly recognizable in all works of creation. And this also includes the cosmic distance of celestial bodies from your earth; it includes the isolation of every single star from the other, which is characterized by a vacuum, by the stratosphere, which makes it impossible to support human life in this space and therefore should also make it distinctly obvious to you that I have isolated you Myself.

For even if you believe that you can overcome such 'obstacles', these attempts will fail, you will perish if you dare to enter regions which were closed to you by Me. Thereby you only prove that you are spiritually very arrogant in believing that you can render divine natural laws ineffective, you prove that you neither acknowledge these laws nor the Lawmaker, and you prove that you humans are ready for the total transformation of this earth because you lack the most important realization: that Someone is above you Who has the last Word, that you do not recognize this One or you would not undertake something that you, as inhabitants of this earth, are not entitled to do: to make other worlds the goal of your research, which are and will always remain totally inaccessible to you, because every star serves to mature the spiritual beings whose degrees of maturity are so different that they all need different creations. Creations, in which you humans cannot survive, and therefore there can never be contact between two worlds. My creative spirit and My creative will has truly done nothing without wisdom, but you humans will never be able to ascertain what exists outside your earthly sphere other than that the existence of countless celestial bodies and planets will be established by you with certainty, because this evidence is not harmful to your souls, but any further knowledge can only be spiritually disclosed to you."

Stars - dwelling place for Souls

BD No. 0258 of 01/14/1938 taken from book 5/6

God the Father is speaking: "Behold, today we proclaim to you in the Saviors' name that which will introduce you to infinity. There are times when you are drawn to observe the splendors of the stars; do you ever consider the glories that might hide behind them? And no matter how many million stars you see in the firmament, it is nevertheless only a part of infinity, it is merely a fraction of Creation and does not even begin to give you an

idea as to how many more of such stars in the universe are still invisible to you. This myriad of celestial bodies is only governed by one Spirit, one Light, and one Deity. Over thousands of years, it has been the Creators will to offer completely free beings the opportunity for advancement on these stars, and to gradually prepare them for the state in eternity where they shall be illuminated by an abundance of light which far exceeds all the light of the stars in the universe. Yet even the abundance of light on each of these stars differs in intensity, the sizes of the suns, which give light and warmth to these stars, are, in turn, so different that no-one on earth would be able to imagine them, because these areas are inaccessible to human research and would only lead to wrong conclusions. Nevertheless, everything in space is so well arranged that from eternity to eternity nothing of this wise order of worlds can be revoked, that no star would ever be able to leave its designated orbit and take a different path. And thus listen: The Lord created space for the perfection of all His beings and for the duration of the earthly course of life, for instance, the human being has a number of years at his disposal during which he can attain a degree of perfection which will place him into bright surroundings. The soul shall continue to develop to ever higher realms and be offered ever more opportunity. And the purpose of every star is to offer the countless beings a space that suits their spiritual state where the spiritual beings' activity shall be continued. It is incredibly difficult to explain this to a person, for he can only grasp this with his human intellect and is incapable of imagining the multitude of stars which are subject to God's will and which time and again offer countless beings the opportunity to mature fully again."

Essence of light – spirituality on other worlds

Ref: "Secrets of Creation" by Jakob Lorber Chapter 29 (3) (January 14, 1876) 01]

Jesus is speaking; "What I told you concerning the inhabitants of other worlds, that they live in better conditions and happier circumstances than you, and that although they already enjoy bliss, **they are spiritually behind you** - you can also see this example on your own earth if you want to look at the northern and southern half of your globe, its inhabitants and climatic conditions.

Here too, nature, climate and lighter food worries have fallen to the southern inhabitants, while the northern ones, struggling with the elements, must feel almost daily the Old Testament saying: "You shall earn your bread by the sweat of your brow".

Here, too, you see the spiritual faculties (abilities) in the North more developed, because it is precisely the external climatic conditions that urge people to seek peace and comfort within them, while the milder temperature, always clear skies and lush vegetation in the outside world almost completely distracts Southerners from their inner life.

Here on your globe, too, you can visualize the comparison - between the inhabitants of the glorious worlds and yourselves on your little earth.

All men are called to the same goal, just as all inhabitants of the other suns and worlds; but the process of spiritual formation goes, according to the receptivity of souls - with one diminished, with the other slower, and so it is also on your earth. The southerner needs longer to mature spiritually than the northerner, precisely because he must fight less for his food and is less motivated by external conditions to contemplate his inner self.

But he also must fight more against his animal passions, and the northerner doesn't even know some sides of the human soul that worries the southerner the most.

The southerner corresponds to the electricity prevailing in the southern hemisphere and the northerner to that of magnetism.

This is also how it is with other worlds. The more beautiful the world and the more comfortable life on it - the slower the spiritual progress; and the more struggle, the more the shadow of a spiritual life is a reward for the sufferer.

The law of the incorporation of spirits into other worlds is so ordered that they do not have to make too great a leap, but in the south of the less equipped worlds similar conditions can be found.

This I wanted to tell you by explaining the other worlds and let it follow here, so that you may always better recognize the order of My creation, where everything is guided and ordered according to one and the same principle and you can find the analogy (similarity) if you want to look at the situation with your spiritual eye.

Even the plants and animals show you the same, as I once said elsewhere.

Compare the plants and fruits of the south with those of the north. What a colorful splendor of the feathered world, without melodic singing; what a simple dress with soulful expression in the north (nightingale)! In the north there are songbirds and, in the south, there are screaming birds decorated with colors; that is, here an opulent appearance with little inner content and there a harmonious being with a neglected form!

You even find your most valued metals and precious stones more in the south than in the north, because there everything lives for the earthly appearance and in the north more for practical earthly life, only being of use to the spiritual.

In the south, most people have a tendency to dress in splendor, like their surrounding nature, in the north, the land of iron, more a sense of homage to the solid, the useful. While in the south softness prevails, in the north the main principle is to fight against everything that hinders spiritual development.

It is precisely because of this that the Northerner is more receptive to spirituality than the inhabitants of the South because his soul is more accustomed to struggle, does not shy away from it, goes straight towards it, while the southerner cautiously evades it.

Read through history and you will find that even in wars between tribes their armament has always been very different in the north and south, according to their character.

The time of the Middle Ages was called in the north the time of iron, or "the iron age", because there everything was well wrapped in heavy iron.

The move to iron is not exactly because of the safety one had under such clothing, it lies even deeper, it is the related magnetic substance, which lay in the iron and in the human soul related to it.

Look at your inhabitants of the lowlands, how their breast rises, how great their enthusiasm becomes when they approach important mountain countries, when they walk between their lush valleys, their gorges, when they follow the mountain inhabitants on dizzy heights to the borderline of vegetation and on torn cliffs or on eternally covered snow and ice fields in the distance see their homeland!

Look, it is not both the masses of the mountains, it is their inner structure, which contains related elements which are close to the human soul and belongs to the northern half of the globe. (See "The Grossglockner", a Gospel of the mountains)

The southerner does not want any mountains, no great natural scene, he wants peace and comfort, because the temperature of his country does not allow him much movement without making great sacrifices of effort.

Thus, the great and beautiful worlds are also created only for those people for whom slow maturity is beneficial, and so you should interpret My first words and those that follow, if you want to find a just logic in the apparently unjust.

I deliberately showed you these comparisons on your earth between south and north, so that you can understand the distance more easily in the future.

I could list many things as proof of the difference, which also has its reason in the way the small components of the earth's surface or its interior involuntarily affect the spiritual development period of the peoples, to what extent they dwell in the south or in the north.

Take, for example, the religions with their cults, how soft and sensual they have become with the southerners, while in the north they had an increasingly strict moral character. Even the idea of a future duration after death had to suffer under this influence and thus make their mission more difficult instead of facilitating it.

How few of you are able to judge the actual state, be it of the culture of the nations, of its development, because most historians and ethnologists judge man only by what has happened visibly, but not by the secret course, which is involuntarily often the main factor.

See, climatic conditions influence the body, food and life activity influence the soul, and education and social position influence the intellect! You do not know the great chain which connects all beings, but which also directs the individual to the place where they are most likely to function and progress most easily; for it begins outside your small planet and goes far beyond your suns and world systems.

It is no coincidence that one was born or raised in these conditions, the other in those conditions; it is not an arbitrary coincidence of circumstances that determined one person to live and work in a different way from another.

Everywhere, rest assured, there is a spiritual "why" which then established the practical "reason".

That which the southern peoples call "fate" and their "destiny", where man's freedom of action would thereby be limited, is nowhere to be found.

It is true that climatic conditions, food, social status and education have made man on earth what he seems; but also again the power is given to the soul and is firmly conditioned by the spark of God given to it to master all these influences and to use them for the spiritual benefit in such a way that the spirit-soul always prevails and the body, if it also suffers through this limitation, must obey the soul.

And here you see or at least you can guess how many circumstances often must occur in order to lead the different souls with all their varying spiritual abilities to a common goal.

Here you can learn to understand how I lead the regiment, since I use all the actions of men, all their deeds in such a way that My purpose, that is to say, a gradual progress in the whole created world, is promoted by the fact that even the worst, invented and carried out by men, must only produce good.

I have given these words as an appendage to My former one, so that it may aim to ignite even more light in your hearts, and in this look into the great regiment of spirits you could guess what is actually even more contained in the words which I once gave you under the title "The World of Thought" and "The Word" For "light" was also the title of that word, and it should and must become light, although with your lukewarm attitude it can only spread slowly.

The magnetic and electrical force, these great factors of My world realm, are too important to be overlooked or misunderstood, and when I said it is a chain that connects and holds everything together, these two factors are the binding agent in the material world, which in the spiritual corresponds to My will and My earnestness to lead everything nevertheless to where I want and to what I have determined.

Light develops from these two forces. The Light determines the existence of the worlds, their climatic conditions, their products, which then become the basis for the soul life of all beings, who, under all these influences, must impress the stamp of spiritual nobility or spiritual uprightness through struggle and conflict with their own nature.

Just as the air, the winds, the sea, the waves and the interior of the earth always keep their magnetic-electrical life in motion, so in the spiritual of the human pathways the adversities and the various conditions, which always have a stimulating, positive effect on spirit and soul, so that also there, as in the sea always ebb and flow, they save the spiritual life of the soul from decay.

Thus, you see the great chain, which also in the spirit realm does not yet have its end but links the spirits to the world and the living beings to the passed ones (souls) and always receives this connection, as soon as only one suitable organ is found, which can also make them visible.

Everywhere it is the great spiritual potency of My Will, the gentle influence of My divine qualities, which has made this immense building which you know as the universe, and where conservation is also progress, in that everywhere there are only beginnings, gradual advancement, but nowhere is there perfection!

The simple factor "light" is the bearer of all that exists, and the simple "word" as visibly expressed thought is the spiritual light, which moves everything and will lead everything back to me, from where it originated.

The light with its refractions of rays makes your colors vibrant, revitalizes your earth, helps to embellish, and make it bearable for you.

The light draws the juices up from the dark soil and leads each plant from the smallest moss plant to the largest tree to its destination.

Blue, white or red are the first beginnings of any plant before it rises from the dark earth; their blood or the flowing juice, globules like those of your blood, make up the main substance and move there in a regulated course.

They are not yet green in color, they rise pale from the ground, but as soon as they reach the light with its refraction, with its stimulating power, another life begins, the pale is colored, becomes green in all its variations, appropriate to the individuality (peculiarity) of the plant - everything lives, everything works, decomposes, forms and is decomposed again, reshaped and used again for another purpose.

New forces constantly rise up from the earth, the coarser and denser ones remain below according to their weight, the finer ones go on; the bud, the flower, and the fruit are formed from them (See the chapter "Life of the tree" in "Nature secrets").

Light is always the stimulus. What the leaves absorb in color and then only reflect the green, they now return refined in the flower, in its various colors, by keeping the green for themselves in the flower and showing the other colors visibly to your eyes, thus informing the attentive observer of their inner workings.

In addition to the play of colors, light is still the main factor as a heat developer, which extracts the ethereal in the finest juices of the plants as sweet juice or fine fragrance, which prepares pleasant sensory experiences for animals and humans.

So, you see how light, working in every organism, helps with its development and its ultimate purpose. And how the material light pulls all this out of the dark soil of the clod of earth and brings it to the surface, where it then must serve as a further base for animals and humans - likewise My word as divine light, which falling on the dark bottom of the heart, awakens there the dormant spiritual powers. And like the light with its seven colors, My seven qualities also stimulate it, which then - as with the leaf in the beginning as the main color reflecting back the green - show the virtue of firm willpower in the outer life, then, when all seven qualities are spiritually digested, keeping the willpower to themselves, holding the remaining qualities as the flower of life or crown of all spiritual aspirations towards ones neighbor, in order to spiritually fulfil ones mission by exercising these divine qualities. As the flower turns into fruit, so the actual great noble spiritual man should grow as a result of the life of action.

Thus, you see the diffusion of light also in the spiritual as the same leader and guide, and now many will understand what I meant when I said the following in the last word: "that if you were to know the light and its meaning fully in spiritual correspondence, it could give you some fruitful teaching".

Here you still have together in small outlines the process of light as an effect of electricity and magnetism and in the end the spiritual light or the clear understanding of My words, which is to show you partly in comparisons, partly in images the great interaction, which prevails in My kingdom, where neither matter nor spirit can escape their influence, but everything connected together only

constitutes one thing that makes up its universe or cosmos, but I call only the visible or invisible expression of My will and My qualities - and therefore because it is also this and will last as long as I Myself, that is: infinite and eternal, as its Creator and your Father is, was and will be! Amen."

Cosmic Life - Light

Ref: COSMIC LIFE by Gottfried Mayerhofer/Jacob Lorber 14 July 1876: 23.

God the Father is speaking: "I have been telling you many a thing concerning life, have shown it to you in various phases, how it manifests and what it actually is. However, there is always something left to be said about it, namely, that this life, as a seeming efflux of a spiritual potency, is actually nothing else but the power of My will, which manifests in millions of different ways.

In order to introduce you to this spiritual life and point out to you even more clearly the difference between spirit and matter, this word entitled "Cosmic Life" shall elucidate for you more fully the spiritual life generally and also individually. In other words, that it is always the same principle, the same motive, which, beginning with the smallest *ether atom* and ending with the highest angel spirit, is only My divine Being. Manifesting on various levels and in various forms, struggling for development and perfection, it inspires and implies the spiritual progress and visibly manifests in everything as life.

When I say, "**cosmic life**", I take the concept in the way this word, derived from classical Greek, denotes it, namely, as a "**universal life comprising the whole universe.**" For all that exists must be based on an idea, why it was created, what its purpose was and what its ultimate destiny will be.

In conformity with your scientific research and its regular investigations, also your scientists endeavor to trace back everything down to the bottom, to the ultimate and simplest original forces moving everything and leading it to its conclusion. And so, I will reveal to you this ultimate motor, which is the reason, or the basis, of everything existing, and which gradually prepares everything for its further development.

If you view the entire universe with a spiritual eye, crossing the realm of the infinite ether-space with the power of thought, all you will be able to discover in it will be "ether atoms", or the most subtle constituents of material substances. However, your instruments, such as microscopes, electrometers, etc., would never be capable of rendering them visible to your physical eyes.

All of these finest ether particles have in their center an offshoot of spiritual content of Me, of My Being, which thereby imprints on them the eternal permanence and the everlasting urge for development, preservation and progress.

In every atom there is a spiritual particle of Myself. In other words, there exists something within your organism that, interiorly and exteriorly, reaches to the last and finest ramifications of your nervous system as a sensation in the skin. Being a psychic principle, it has no other purpose than to build, sustain and spiritualize the body.

Just as your soul within the sphere of your body is omniscient on account of the fine nerve fluid permeating your body, even surrounding you as vaporous envelopment atmosphere, outer-life ether, there is also in every ether atom something of Me. Thus, as I have stated in another word, there is no point in the visible and invisible realm of My spiritual and physical creation where I would not be omnipresent, seeing and feeling everything that occurs.

On this are based the so-called omniscience and omnipresence that you also possess in your body. The only difference lies in that the spiritual life in you, the soul and the spirit, build the physical and the psychic, whereas with Me the former is inapplicable since I do not see matter, but only Spiritual, even when you think you discover elemental substances.

Well, to return to the ether atoms, I must first explain to you the nature of this atom, its mission and the purpose of its existence. And so listen:

According to your concepts, an ether atom is an incorporeal or, using a learned expression, an imponderable thing. However, it is something separate, limited, since in the unlimited state it would again have to dissolve into something else. Thus, despite its minuteness, such an atom has dimensions like any other body, which means width, depth and length.

In this atom a spark from Me is enclosed; for, since I have created it, it must contain something of Me and for this reason must possess only My attributes. The urge for further development is inherent in it and every atom must be different from other atoms, both quantitatively and qualitatively, so as to represent all the elementary substances essential for the creation of the universe. And so there developed between the atoms, by means of their surrounding vaporous envelopments, assimilation and association, where then (as with many insects the feelers do) the respective vaporous envelopments attract the homogeneous while repelling the heterogeneous.

In this manner, out of atoms formed molecules and out of these, cells and crystals. They're developed warmth, light and life, speeding up the formation of larger bodies.

After the formation of the cosmic bodies began the organic life, out of the same the spiritual life and out of the spiritual life the striving to emulate the divine, whereby finally the divine spark inherent in the smallest atoms must return step by step to that place from where it had proceeded.

It goes without saying that, where I want to create living beings, I first had to give them a place to live and an urge enabling them, as individual beings, in the midst of the entire infinity to walk their designated spiritual course through life.

However, as you know from many of My words, apart from My attribute as the Creator I am also love personified, and love consists only in making others happy and again finding one's own happiness and bliss in that of others. Therefore, I as God of love had to create for you abodes of bliss, had to endow these beings, as images of Myself, with forms which should express this love as their inherent divine.

And so, out of the small ether particles the worlds came into being, and only after their material formation the living beings, all of which represented certain attributes of Myself. Then man on earth, as the keystone of the material creation, in his mission as earthly man, must prepare the next spiritual step as the future inhabitant of a spirit-realm, where there is no sudden leap, but only a gentle transition from one level to the next; and this implies the gradual progress in My Kingdom.

Thus, the worlds formed from the immense supply present in the ether space, and that is why their orbiting which, through the friction with which they move, develops warmth and light. This rouses the smallest atoms out of their inertness and, forcing them to amalgamate, leads them on their immense orbits during long periods of time through regions where the spent mostly by one substance is always replenished by a new one, mostly by one not present in earlier constellations.

The orbiting of one world around another, the rotation around its own axis serves the sole purpose of awakening and spreading life by means of these two movements.

You see, everywhere this urge to leave nothing alone stirs. For everything possessing a weight seeks its point of rest, where it would remain if it were not always threatened either by the inner urge to disintegrate or by influences of the outer world.

Movement is life, and this movement, be it the great circular one of the world or the vibration of light and warmth, must contribute to arousing the object or the being out of its lethargy, forcing it to further development, to modification, for nothing created is permanent, but must progress while constantly changing.

Thus, the millions upon millions of suns and worlds in the great and vast ether snare formed. Thus, at present the comets, as the first beginnings of whole cosmic systems, form and orbit in long elliptical tracks around their great central sun from which they have gone forth. And so, the seemingly material realm carries the germ for further development within it, until also the worlds, however immense they may be, having completed their cycle and spiritualized and refined everything in them, enter into other unions. Thereby they naturally form, as world globes of a higher order, dwelling places also for higher spiritual beings.

From level-to-level matter develops the life indwelling it, until it too can make the transition from the coarse visible to the more subtle etheric. So also, the beings of every kind develop, which have to perfect themselves gradually, because their dwelling places have to conform to their spiritual condition.

As I once said: "In My Father's house there are many mansions." I now repeat it: yes, there are very many dwellings or spiritual abodes, where the analogous spiritual beings will enjoy those beatitudes that conform to their own spiritual constitution. These beatitudes are of such a nature and arrangement that, apart from the permanent enjoyment, the beings can also have the foreknowledge of greater bliss and of purer spiritual abodes. For where I am concerned, no standstill is possible because an ever-greater drawing near to Me opens more and more vistas, since I am infinite, and My world has to bear the same character.

So, you see the cosmic life, beginning in the smallest ether atom, struggling upward from the insensitive matter to the angel spirit possessing spiritual self-awareness, who, with one glance overlooking the material world, is able to grasp My ideas and possesses the might to carry them out.

Thus, these cosmic islands exist as "shell globes", of which there is an uncountable number and all of which, as a separate whole, again and again have to go through their process of development in the great whole.

Thus, these great worlds exist with their analogous created beings. Your fantasy is inadequate to realize the distance and magnitude of these worlds. All of them, though separated from each other by great distances, move independently in the great ether space, so as to develop and perfect the beings and denizens living on them for future purposes.

Arid so, once the material realm draws to a close, only a spiritual one of greater grandeur can emerge from the existing.

Therefore, Scripture says: "A thousand years in My sight are but as yesterday!" But I tell you: Millions of years in My sight are only a moment, for innumerable material worlds are orbiting in the vastness of creation. The millions of years cannot be counted which passed until they shaped into worlds, formed their planets and comets, and had sufficiently perfected themselves to become abodes for beings endowed with senses.

The years of your lives, the revolution of your earth around the sun, the whole turning time of your solar system around its central point, all this is less than a second on the great cosmic clock on which the duration or existence of My cosmic creation is registered.

Hence your amazement and admiration when you look at My creation, because you apply too small a scale to judge or to measure the creation of a God, an infinite Being.

There are solar systems and entire shell globes, the light of which takes millions of years to reach you. What do you know of these worlds, how great they must be to be just visible to you as the tiniest of stars? Where is your arithmetic which can grasp or spell out this distance in figures, where your fantasy, which would dare to think and elaborate on the magnitude of such worlds! And yet, My children, also these worlds are not the last border stones of My creation. Far beyond these distant worlds there are still other cosmic systems, the beam of which is far from reaching you, and your earth and your sun no longer exist before a light-ray from there will cross the space where once your solar system orbited.

Rise and grasp this magnitude, if only of the material world. Become engrossed in the concept of the omnipotence that created this with few means, namely attraction and repulsion, light and warmth. Do understand this Lord and Creator, in whose eyes your sun with all its planets and comets appears only as a dot. Who, were He not what He really is, namely a Father to His children, would long ago let a generation like yours have come to ruin, which, after all He has done for it, behaves in such an unruly and rebellious manner towards Him. Do understand this Love, which, as He once said, "lets the sun rise every day over the good and the bad," and which, despite all aberrations and the denying of the divine, every second showers mankind with millions of graces!

Do understand this God, who once in human form descended from heaven to you weak created beings, who left to your precepts of love, of tolerance, of forgiveness. Become engrossed in the thought about His greatness, His might, His infinite creation. At the same time realize what it means that He, this infinite Creator and Lord, wants to let you feel nothing of these attributes overwhelming you, but

wants only to be your Father, your loving guide, and who even now for quite a while has been in direct contact with you, trying to draw you to Him, explaining and revealing to you all the secrets of His self, His creation. And this is only so that you may learn to love Him and to find your spiritual path more easily, which is mapped out for all who were created by Him and through Him.

All this consider, and when in quiet hours you want to lift up your hearts to Him, in doing so strive to be worthy of Him and of yourselves. Only in this way can you expect Him to grant your wishes. For "He is a Spirit, and whosoever wants to worship Him, must worship Him in spirit and in truth."

I spoke these words more than a thousand years ago and still you do not understand them, become embroiled in worldly worries, and ask Me for meaningless things. And you totally forget that you, as My offspring and future participants in spiritual beatitudes, have other, higher missions and ultimate goals than to adhere in this earthly life to transient things and to seek your whole salvation in them.

That is why the disappointments, the unfulfilled aspirations, for you have never understood Me or My world, have never understood that I have different intentions concerning you, which are often bound to be contrary to your desires, since you often regard unimportant matters as essential.

Despite all the words so far given you by Me, you do not know as yet what it means "to live spiritually", what "cosmic life" means.

This universal life, which is the fundamental law of the entire creation, wherein every "why" finds its solution, you do not know! If you could completely understand these great laws, you would far more easily understand that no being can escape them, and every time they are ignored, punishment is bound to follow. As long as you are unable to concern yourselves with great, profound ideas, you will stick to the soil of this little earth, having only a small horizon to look over, which does not reach beyond your domestic sphere.

That is why My words, My admonitions, My explanations. That is why My manifold revelations as to how great things can only be achieved through small ones, so that, following Me, you may also become small in your earthly life in order to grow tall spiritually and to rise. Then you will soar up to that height of the concept "human", where in all clarity and tranquility you understand in the cosmic laws the developmental processes of the material world. You will also learn to clearly recognize that even these laws, spiritual and infinite for the material beginning, find their culmination point only in spiritual perfection. And you will only then, progressing step by step, always drawing closer to Me, recognize who I am as the Creator!

Thus, love implies itself if, based on respect, it is the natural consequence of the latter. For once one has learnt to recognize the Master by His works, one can understand what attributes must adorn Him and why, with such might, so much goodness and love are still prevalent!

So, take this word again from My hand. It is the Father's hand, which wants to pull you up to Me. Do not despise it, for if you do, it will only be you who will come to grief. Amen."

Life of Spirits and Cosmic Life

Ref: "Secrets of Life" by Jakob Lorber Chapter 20 - 24 February 1873

God the Father is speaking: "Earlier, in the chapters on "The World of Thought" and on "Life", I have shown you in a few words the many-sidedness of spiritual life, and how it must be understood, so as to have a dim concept of My world and of My might.

In "Words for Short-Sighted People" I have admonished you to study My nature in its vastness. For a great, almighty Creator you can more easily grasp and understand in His great works, although to a thorough investigator on his round in My insignificant works I must also appear great, unrivalled in the tiniest infusorian.

I have said all this in advance so that you may always keep your spiritual eyes and ears open in order to perceive the stream of spiritual light and the tone or the voice of My spiritual cosmic language as it proclaims to you in, and out of, all that is created, the great hymn of eternal love and of never ceasing Mercy, which at every step and with every pulse-beat preaches to you of the Father's love and His grace.

In the word on "Time" I informed you as to what time is and how you shall use it, and under "Human Dignity" I told you what you should do and should not do in order to become My children in My image, and how you should act in worthiness of this image. Under "The World of Thought" I explained to you how everything materially created, every deed will once be weighed and judged only according to its origin, the idea behind it. Now I am sending you another word, full of sublime creational spirit, so as to more clearly present to you a new view of My creation and My aim with it. This will make you learn to see and, in the midst of the worldly chaos and the bustle of worldly human passions, recognize that far beyond all the physical material it is the Spirit, My will, the great supporter of all that is created, which makes the same come into being, sustains it for a while and then by changing its form leads it towards a higher goal.

In "The World of Thought" I told you that thought, the guiding principle, is superior to anything material, that it is indeed the basis for all that exists. And now I will prove to you that the bustle of the world of thought, when the latter is considered as a spirit-realm, is also the actual factor in all-manifesting life, in all that exists and perishes. For in order to understand and grasp My creation, which is only a spiritual product, you must think as spirits, must contemplate My work as spirits, and must regard the course of the entire spiritual-material life as spirits, if you wish to form a proper idea of Me, of My creation, its duration and of yourselves. Otherwise, you are blind in the midst of the shining light of My wonders, in the midst of the great harmony-concert of My music of the spheres and My cosmic music, to be likened to the deaf.

And so I will now take you with Me on a spiritual flight through the spirit world divested of all matter, so that you may recognize and grasp who He is who created the world surrounding you, why He created it and why He endowed you, as well as all the intelligent beings living as spirits, according to their capacity, with means enabling you to understand and grasp Him, the almighty Lord and Creator, as well as Him, the Father who loves you everlastingly.

You see, the world, both the great spirit-world and the material world, which is merely an envelope of the former, was created so as to visibly express what, invisible for material beings, for a long time had been and forever will be existing in

the spirit-realm, as the primordial carrier of all that is beautiful, true and good, as an expression of Myself and My attributes.

This visible material world, which, merely enveloping what is spiritual, must serve as a guide and a means to perfect this great material world, beginning with the central suns to the tiniest infusorian, has thus the sole purpose of leading the spiritual laid into it to a higher level through matter. However, only the Spiritual imprisoned in matter is destined to always stimulate matter to this perfecting process, so that it alone can remain at the end of all purified and spiritualized matter as a permanent, never-to-be-destroyed eternal, thus bearing witness to Him who created it and who, as an eternal *God, could only create what is eternal, but not ever what is transient.*

Now look, My children! Rise above matter and regard everything created as a spiritual product, and it will become clear to your spiritual eye what spiritual life and what material life is. For spiritual life is the eternal urge of the spirit bound in matter, and material life is the changes manifesting through this urge in the visible material world, such as coming into being, existing and passing away.

Well, the whole of infinity is full of spiritual beings, because infinity constitutes Myself, just as your body constitutes visibly the core of your soul.

All the Spiritual in infinity has its expedient progress, everything has its purpose, its why, where it must be bound, where loosed and when, if bound in matter, it can again, be freed of the same, exist as an independent Spiritual!

Thus, the present world came into being, thus ever new worlds will emerge from the ones which dissolved and passed away, and thus infinity establishes itself as a concept comprehensible also to finite beings.

Just as the smallest spiritual particle, imprisoned in hard rock and manifesting its life through matter, always urges the rock towards a transformation, a dissolution to become on higher levels something different, so also whole cosmic systems, whole spaces and even, finally, the entire visible world. It is this spiritual-material urge, called "life" because it manifests as motion, as action, which, everywhere the same, according to the same principle urges on the smallest worm as well as the greatest solar body, or the angel-spirit still clothed in material envelopment, to higher levels, higher beatitudes and greater delights.

Your own body should only serve toward the soul's spiritualization, by a proper conduct and as a right tool letting itself be used only for actions worthy of a human being and thereby effecting and speeding up the spiritualization process of your soul. Likewise, the greatest central sun and the entire great universal man who has a task which cannot be calculated in terms of time, so that the Spiritual, more and more liberated, free, led towards higher levels, can fulfill its purpose.

Just as in "The World of Thought" I have elucidated for you the entire spiritual sphere, which is actually the carrier of all that is visible, I now want to make you understand and grasp the idea of a spiritual life, which urges matter to spiritualize itself, whereby it becomes visible to your eyes as material life.

This urging and driving goes on incessantly, like the flow of time, the life of the world of thought. Coming into being, temporary existence and again passing away, these are the visible proofs of the never-resting spirit-world: forever the urge to move forward and upward! From the smallest ether-atom upwards everything

drives towards a beginning, an existing and passing away or a passing into a higher order.

Look at your own world with spiritual eyes, how varied are the changes there, how much Spiritual is freed at any moment, voluntarily or involuntarily, to enter into other combinations.

Watch the living beings and animals of every kind, what a consuming, what murder! Even you people, how many spiritual lives even you destroy daily, so as to provide food or exquisite dainty morsels for your stomach!

How many animals you dispatch to the other world because you have nothing spiritual to occupy your mind and, as with needless hunts, only the pleasure in murder is your pastime!

Millions upon millions of released souls of the animal world fail through this not always justifiable behavior their real destiny of reaching their goal on a slow road. Most of their spiritual particles must first pass through the consumer and in and through him continue their further progress.

But, although this happens, where many a thing is contrary to My will and to My laws, it does not in the least delay the universal developmental progress to which I have subjected the world, but this developmental progress is only speeded up by such an albeit unlawful conduct. And if trespasses against My laws result in dire consequences, only the perpetrators and plotters of such calamities themselves are punished, namely, through their own behavior. But nothing prevents Me, in accordance with My intended plans, from leading My worlds to maturity, from receiving back My Spiritual, which I had laid into them, spiritualized!

Thus, the entire visible world and its visible life are only the apparent, which has as its basis the more profound Spiritual. And so, not only with the smallest animalcule or the solid rock, but also with great worlds, the duration of everything depends on the liberation of its Spiritual bound in its covering.

As with you human beings after the natural course of your life, death should only occur when your soul has matured for the transition to the beyond, so it is with worlds and central suns. Once everything in them is spiritualized, they pass away or dissolve gradually, become more and more spiritualized and their matter becomes lighter and lighter until it is like air or gas, when they (the worlds) will only be destined for beings clad in the lightest material envelopments.

Just as your own body will ultimately on the highest spiritual level no longer be clothed in this heavy matter with which you are encumbered today; also your earth will be spiritualized in the distant future, carrying instead of solid, heavy matter only ethereal substances, ethereal dwellers, who, spiritualizing themselves more and more in step with their earth globe, also pass over, not through great cataclysmic events, but together with their abode, to other circumstances which will be suitable to their spiritual level of understanding.

So, you see how the spiritual life develops gradually from the material, how the one is merely the expression of the other. And you understand more easily how I created the worlds and have an idea as to how great must be the periods of time necessary to affect such processes of spiritualization. However, you still have no spiritual vision to see the velocity of thought with which this developmental process occurs. You still have no idea as to what a time-second achieves million-fold relative to this process of purification and ennoblement. You even fail to recognize in the

worldly political bustle of your small earth globe the spiritual wind that makes the great strings of the spiritual world-instrument vibrate. The harmonies are sounding throughout infinity; but you behave like people who are deaf and dumb, fail to recognize, see and hear how everything rushes with the speed of a tempest, with the velocity of the world of thought, to prepare the way for the process of liberation from the imprisoned matter.

You read newspaper articles, but you fail to read between the lines, to conjecture behind the words, as material earners of a spiritual world of thought, the great spirit-life behind them, which, far above all petty calculations and human sophistry, pursues its course of development unhampered. For this very reason I will again give you a hint so that you may wake up from your worldly dreams and clearly realize that far beyond all earthly mountains and thrones, up there in yonder spirit world other laws are valid than those written in the human codex. These laws give life to both a central sun and to the tiniest atom so that they will be able to fulfill their purpose through it, that means to spiritualize themselves and thus again draw near the source of all light from where they were once sent forth so as to pass through their process of life and development individually, be it as a great world globe or as a worm.

You are driven more by a thirst for knowledge to read My words. So far you have not grasped one word, as a spiritual man, as My offspring could grasp it. Your life is still too materially orientated, you still belong always more to the world and not to yourselves, let alone to Me. For this very reason I must send you from time-to-time words of admonition so that you may awaken, so that you may, at least in the time of spiritual concentration, be able to soar above the ordinary life. That you may open your eyes and ears to that which always and incessantly radiates and sounds towards you from all corners of creation, namely, that you are spirits, who, only for a short time clothed in matter, soon will enter again into other circumstances, where only your spiritual but not your material life will be weighed and valued.

Therefore, do not let Me admonish you in vain. John's vials of wrath will be emptied, and already some of them are. The seals of the great book of creation will be broken and times will be coming when you will need all your spiritual resources to resist the worldliness and retain strength and courage.

So endeavor to understand My words, grasping them as I am giving them to you so that you will not be taken unawares if, for instance, the spiritual life urges the material to the destruction of old established ways of life and there will be knocks at your heart in rapid succession, just as I once did with My disciples prior to My being taken prisoner, when I called out to them several times: "Watch and pray, that ye enter not into temptation!"

This I am calling out also to you: Recognize the spirit-life! Wake up from your worldly sleep! Recognize time as it presses on towards the solution, realize from the ruin of everything noble in the world that the time is not far when the people will harvest what they have sown. Recognize the stream of light that begins to pour over your world. Listen to the voices of the spirit-world that in great sound waves hit your ears. They are the admonishing words of a loving Father, who, in the rush of events, does not want to lose and forfeit His children, but who wants to uphold them and even, if possible, to increase their number, so that the spirit-life may be properly and

truly valued by them and they may all understand, even if worlds go to pieces, namely: The love of a heavenly Father cannot waver, cannot punish, but can only, faithful to His laws of love, lead everything to perfection within the appointed time. Then everything can return to the place from where it has gone forth, so that, finally, the Father and the child learn to understand each other and the child understands what it means to be led, guided by Him, the One who makes worlds orbit around worlds and who, despite all the wonders and splendor of an infinite creation, does not forget even the smallest worm!

This is how you shall understand My creation and grasp the spiritual and the material life. Only in this way will tranquility enter your hearts, only in this way do you learn to understand and understand My words, and how and why I give them to you.

As long as you have not reached this stage you are still apprentices, but no children of Mine!

My children must be able to view My nature with a spiritual, open eye, must there, divesting the Spiritual of the material, learn to recognize what is true. They must understand the voice of My spirit world, must lend their spiritual ears to the soothing melodies of My heavenly music. They will then grasp and understand that, although matter is the means of encasing the whole, it was only in this way possible to unravel the Spiritual hidden in matter to a living being, thereby bringing nearer to him the Creator of everything spiritual and material.

When, ultimately, your eyes and ears, spiritually educated, will grasp the whole perfecting process of all that lives and exists, you yourselves have reached the level spiritually due to you and which every human being should strive for. Then he no longer measures time and the duration of matter. Then he clearly recognizes that high above all that exists and lives the spirit-world is reigning and that matter and the material life, called transience, are only mediating factors, which, although they must be there as a means to an end, are not the quintessence of life.

This is the veil of Isis, whom the ancient Egyptians venerated as the goddess of truth and of whom they said that no mortal could lift her veil.

They were right; for whosoever, lifting this veil, can and may look into the face of divine truth, knows for certain that, firstly, he has looked at something immortal and that, secondly, being immortal himself, only he can grasp and understand the same. For him, physical matter has ceased to be a burden. It is merely an envelopment which, in step with the recognition of truth, becomes lighter and lighter and more ethereal. And even if matter is separated from the Spiritual through physical death, it is not a forcible separation but only a light, gentle passing from one state to another, which must be painless since the bonds of spirit and body, spiritualized, do not have to be torn apart, but only gently loosened so as to release the last obstacles for the inner psychic man whose spirit already here in the earthy body has become purer, enabling him to confidently soar up to a higher, spiritual life.

To facilitate this to you, My children, is the purpose of all My words. For in the beyond a spirit-world with different conditions and different circumstances awaits you. In qualifying you for this new calling awaiting you in the future I do not shun the effort of making you understand that there is only one God, who is nothing but love, and who likewise wants to educate you only for love. For love is the

ultimate purpose of all that is and comes into being. My creation can be grasped only with and through love, and love is the only thing that impresses on My beings the spiritual nobility whereby they may be called "My children"!

A loving heart understands the language of My nature, the language of My spirit-world, and knows how to explain matter, its life and its form in accordance with the law of love! Therefore, above all, learn to love!

Cast out all other attributes from your hearts, and your spiritual eyes and ears will be opened to receive My spiritual life of love. Learn to first grasp the content of My words spiritually, and you will then understand why I had so much patience with you to make you loving children of a forever loving Father!

In this way you spiritualize your Self, bringing it close to Mine, and achieve the maturity to pass on in tranquility and peace also to others what is living in all fullness within you.

Do remember this well and accept this word as a new proof of My grace and My never-wavering patience in leading back the lost children to the hearth of light after they have been walking in darkness long enough.

Thus, this word on Spirit and Cosmic Life shall serve you as further proof that you have by far not the proper comprehension as yet for My words and I still find it necessary to add to all that has been said, so that all the secrets of My creation may be clearly revealed to your eyes and you may precisely through them recognize Me, their Creator, as such and as your Father. For the more you grasp Me and My words spiritually, the more you spiritualize your own Self, preparing yourselves in this manner for the transition to higher levels, which without this cognition could not possibly be attained, for life is short and eternity is long. That is why My concern for the sojourn in the latter, for the trial-life in the former has to be regarded merely as a probation school or trial-period.

So, use the earthly probation school to equip yourselves with what you will once need there as a basis. Use the short span of time and My words, which I always give you in abundance, so that the harvest will be a credit to the sowing and you, prior to entering the spirit-life, know what actually constitutes life, what spirit-life, cosmic and what material life.

Only thus armed with spiritual knowledge your progress will be easy, and you will grow in cognition and wisdom, depending on how you will fulfill these conditions.

A spirit must know the extent of the difference between a sham life and a life that is true and real in order to be able to judge in what way the obstacles impeding him are apt to further his progress instead of holding him back.

Only endowed with this clear insight can a spiritualized person calmly face the future, for he does not expect heaven to come from without but carries it within himself. This is why worldly disturbances are for him no disturbances, but only stimuli that will solidify and strengthen his faith on his course.

Thus, you must be steeled through what you gain inwardly by battling so that you will be able to fulfill your mission towards yourselves and others.

As long as you yourselves have only a half-faith, a half-trust and little patience, you are still far from recognizing the great driving wheel of the spirit-life, which, while moving everything, tries to gather also you into this movement towards the universal goal.

So, follow My advice, ponder My words well, consider from whom they are and to whom they are directed!

I, as the Father of all My created beings, leave no stone unturned to help everyone and to lighten his path. However, if he does not want to be helped, the adverse circumstances accruing from that will not be charged to Me, but only to him "Ponder everything and retain what is good!"

This is what I once said, and this is what I am calling out to you lest you should fall if the time of temptation should come when, left to your own devices, you will have to blame yourselves for the consequences.

As matters stand, the spirit-life is the fundamental basis of all there is, the material life being merely its visible factor. Whosoever confuses both or even denies the former, will finally become aware that through his denial the matter is not closed, but that through it, the spiritual eye will only become totally blind and the soul deaf to all the voices of the surrounding nature.

If the process of the spirit-life were not so awfully fast, one could say as you often do in the proverb: "Comes time, comes counsel" However, this calculation is misplaced here. For the time lost brings back nothing and the new time always brings something new, unlike that which is past, and so it is the foremost law to use the time, lest the result of future realization be remorse over the squandered time. Therefore, My children, do take everything more seriously, take My words more seriously, take things concerning your time more seriously lest My words will be preached to deaf ears!

Your Father intends this to be for your instruction and for your spiritual progress! Amen."

The difference between the people of this earth and those of the other worlds.

Ref: The Great Gospel of John Vol.5: Ch 200 by Jakob Lorber

(The Lord) "To be sure, you will find everywhere animals that resemble those on earth, likewise people, - but nowhere in such a variety and diversity, for everywhere there are fewer species, both in the kingdom of plants and in that of animals, and the people do not live according to a free order *but are more under judgment* and act instinctively rather than according to some free cognition won spontaneously and based on experience.

On the vast, great solar worlds everything that is found on the planets revolving around them is fundamentally represented in the corresponding solar zones or regions. Also, there is much wisdom among their various people capable of speech. But their language and often considerable wisdom are instinctive and given rather than free and somehow freely acquired through personal endeavor and activity. [More on this subject in the Lorber work `The Natural Sun`. Ed.]

But therefore, there is no such thing there as merit, just as it is on this earth no merit for the bee to build the artful honeycomb out of the substance it has gathered from the flowers and then prepared. For surely the bee must appear to every thinker as a tool of an otherworldly spiritual intelligence rather than some independent, freely acting being. Almost the same thing applies to the human

beings on all other earth globes, even though their external forms often are incomparably more beautiful and noble than those of the people on this earth.

But indeed, all the other human beings inhabiting the various celestial globes are yet far in advance of the instinct of the animals of this earth; for there is within them a certain tiny life-sphere, within which they have a kind of free cognition so that they are able to recognize a Supreme Deity, whom they worship in their own way. Of course, the manner of worship on these very diverse earths and worlds varies very much.

Nearly all the animals of this earth also have more or less a tiny trace of a freedom-sphere within their souls, wherefore they can be tamed and taught to perform certain tasks, but this cannot be compared to the small sphere of free cognition in the human beings of other worlds. - Now I think My answer to your main question should satisfy you. Do you two now understand these things?"

Worlds Upon Worlds

Ref: MVET:50

Jesus is speaking: "I would be a very small and limited God the Creator if I had created only the Earth *as an inhabited world!* With a beat of my will I have brought forth worlds upon worlds from nothing and cast them as luminous fine dust into the immensity of the firmament.

The Earth, about which you are so proud and fierce, is nothing but one of the bits of fine dust rotating in unboundedness, and not the biggest one. *It is certainly the most corrupt one, though.* Lives upon lives are teeming in the millions of worlds, which are the joy of your gaze on peaceful nights, *and the perfection of God will appear to you when, with the intellectual sight of your spirits rejoined to God, you are able to see the wonders of those worlds."*

Inhabitants of other Planets

BD 6065 26.09.1954

God the Father is speaking: "You only receive the kind of information that will benefit your soul. As long as you want to stay in contact with Me you will never be allowed to look into areas which will harm your soul. However, with the help of satanic strength you are also able to acquire knowledge unlawfully. But in that case, you do not belong to My Own whom I protect from damaging influences by My adversary. You are taught by My spirit and thus you receive knowledge which serves your higher development. You can work with this knowledge again, you can pass it on again to your fellow human beings and thereby guide them onto the right path, thus you can help to bring light into the darkness, as it is My will.

And as long as you are willing to spread the light you will be supported and the knowledge you receive will correspond to the use you make of it. Whatever is needed to kindle a light for a soul walking in darkness will flow to you, and the more questions you are asked the more abundantly you will receive from Me if you want to answer these questions. Yet I will not merely satisfy idle curiosity, I will not bestow knowledge which is neither needed nor suitable for spiritual development. But at the same time I will not remain silent either when a child pleadingly asks Me. For it should put its trust in Me and therefore it shall not be disappointed. There are secrets which the human intellect cannot grasp but which nevertheless have an entirely natural explanation. There are laws, natural forces, which can become active if the conditions for them are met: extraordinary, developed intelligence of people, who are thus able to calculate effects and then use these calculations for experiments by which natural forces apparently will be of service to them, thus people are more or less in control of these forces by using the known effects for their purposes.

To less intelligent people such undertakings seem impossible and what they cannot understand they gladly ascribe to the realm of the 'supernatural.' Then they are more willing to take this step into the spiritual kingdom than if they were advised to enter spiritual regions for the sake of their spiritual maturity. When human intellect reaches its limits the human being makes concessions, and he starts to consider possibilities. Yet his thinking goes astray; he combines earthly with spiritual issues. And a gap remains between the two. No human being will ever be able to make contact with beings outside of earth in anything other than a spiritual way. Thus, the human being is indeed able to make spiritual contact with inhabitants of other worlds if this is intended for spiritual development; but such contact will never occur in a visible form, to the extent that inhabitants of those worlds will meet up with people on earth, this is completely impossible because every living being requires a different sphere, which is likewise determined by fundamental law.

Here, too, satanic influence is noticeable which confuses people's thoughts even more, for these wrong conclusions do not promote people's spiritual endeavor, who now also try to address the supernatural with intellectual reasoning, and who thus will purely scientifically utilize the alleged evidence of living beings on other celestial bodies but who are not willing to believe that these beings also develop or progress spiritually. In accordance with eternal law the celestial bodies are separate from each other, and they will stay separated, because their purpose is the development of souls and this happens on every single star under entirely different conditions. The explanation of unusual phenomena in this respect is also erroneous, but the fact that an unusual effect of strength is utilized in an as yet still inexplicable way should make you humans think.

For this is also a sign of the end, the fact that unusual powers are becoming active and that the reason for using these powers also betrays their origin. My adversary, too, has a lot of power in the end, and he uses it to his own advantage. If people succeed in utilizing as yet unknown powers for the benefit of their fellow human beings, then their effort will have My blessing. But if the reason is determined by dishonorable motives, then it is the work of the one who wants to ruin you. And he will not reveal what he is doing either, he will throw people into confusion, he will prevent everything that would help to clarify the situation. But

what is divine, righteous and true will come to the fore and will not keep itself hidden.”

Beings from other Worlds

BD 6364 25.09.1955

God the Father is speaking: “There is spiritual contact between the earth and other worlds as long as it concerns beings of light which influence you on My behalf into taking the right path that leads to Me. The world of light constantly endeavors to influence you in a helpful sense. But the forces of darkness, too, use every opportunity to mislead you, to keep you from the path of truth in order to confuse your thoughts. And much will happen, especially during the last days before the end, which you humans will not be able to explain. Yet always remember that people have to take the path to Me without force,

that My side will never use phenomena to compel people into believing, even when people experience utmost spiritual distress. Always remember that the world of light works on My instruction, thus it would never do anything of its own accord which does not comply with My will and My wisdom.

Therefore, if 'beings of light' consider helping you they will never choose an appearance which will cause doubt, confusion and questionable results in human beings, but they will always express themselves to people in all clarity, and always such that they can be recognized as sources of light. And then they will always express themselves to those who want to establish spiritual contact for the purpose of spiritual ascent. But they will never exert a disturbing influence by using inexplicable means, for they want to drive out ambiguity, they want to give light and not increase the darkness which is spread by every unnatural phenomenon. Countless beings of light are concerned for your spiritual wellbeing. Countless spiritual beings want to help you to still find the light before the end. For the end will come without fail, because My love and wisdom also considers the spiritual substances bound in hard matter which one day shall also be released from the solid form. You humans willingly interfere with My natural laws and will thus cause the final work of destruction on this earth yourselves. Nor would the presentation of those who know dissuade you from your intention, even if the angels from heaven came down to warn you, otherwise I would not constantly have referred to the end through seers and prophets if I had detected even the slightest change of will.

Thus, your intention can no longer be prevented, the end will come without fail, and therefore the concern of the spiritual world only ever applies to your soul. And this is attempted by good as well as by evil forces, only in completely different ways. The world of light only ever appeals to your spirit, whereas the world of darkness appeals to your senses. The world of light reveals itself to you in various ways but always through mediators who, due to their spiritual maturity, are in

contact with the beings of light, so that they are then able to pass these revelations on to their fellow human beings. In contrast, the world of darkness expresses itself directly. It addresses people at random, it finds belief with its own followers and causes confusion with others, and no positive results will come to light. No definite divine manifestation of strength will be recognizable but constant questioning; constant ambiguity can be observed wherever evil powers are at work. But whatever comes from above, whatever originates from Me or the world of light on My orders will always spread light. And only by the light will you humans be able to recognize the working of the light, but then you will no longer question but know."

Contact with Inhabitants of Other Worlds

Ref: BD 17.5.1960

Jesus is speaking: "God's opponent takes advantage of people's gullibility by feigning that they can have contact with inhabitants of other worlds and that these, for apparently good reasons, also want to make contact with the inhabitants of earth. He intends to undermine the belief in an end of the old earth and thereby prevent people from preparing themselves for this end. But people should be informed that earth is a planet on its own which has no connection with other worlds, and that any connection with other worlds can only be spiritually established. Hence the human being is, in fact, able to make contact with inhabitants of advanced worlds, with the kingdom of light, by way of good and appealing thoughts for help at times of spiritual hardship, which will then be given to him spiritually, but that it is not advisable for him to call on beings on other stars whose spiritual degree of maturity and their ability to offer spiritual help is unknown to him. Physical help is definitely out of the question, as God's adversary would like people to believe that these beings could exert their influence on the inhabitants of earth before a final destruction. Only God can provide the right kind of help when the time arrives which is feared by you humans, and if you believe it He will grant this help to everyone who asks for it.

And He truly has enough angels who exclusively comply with and implement His will, and they will also take care of people when the hour comes. But God's adversary has found fertile ground in people's gullibility onto which he can sow many bad seeds. People would rather accept his misguided instructions than pure truth, which shows the value of his seeds. Because error is always accepted over truth, the human being will always seek to gain advantage from error and reject the truth, which does not promise him any profits. The end is near, and it will come without fail. Every teaching is wrong which questions an end or provides people with a way out that does not correspond with God's will. For God Himself will lead everyone out of danger who entrusts himself to Him, who takes refuge with Him, who belongs to His Own who need not fear an end."

Contact Between Stars

BD 7208 16.11.1958

God the Father is speaking: "There is no earthly-material world whose inhabitants could purely physically leave this world without losing their lives, irrespective of whether this concerns the earth or other planets which shelter beings whose physical consistency depends on the planet's properties, that is, it adapted

itself to the planets nature. Therefore, it will never be possible for inhabitants from one planet to go to another, because natural law prevents it and because each planet only ever provides the living conditions for the living beings it was allocated by God's will. Although spiritual connections between different worlds exist, they only ever pursue and intend to achieve spiritual goals, but they would neither want nor be able to provide a planet's respective inhabitants with material advantages, as people imagine or hope for. Contacts between different stars do not exist unless a spiritual connection is established between the beings on spiritual creations who can emanate their light to all celestial bodies and who are thus also mentally connected to people on earth if people want such a connection, if people are receptive to their illuminations. Then these beings of light can indeed also offer advice about earthly matters, they can take care of people's every earthly need and in a truly divine sense exercise their influence on people. But to appear to people visibly will always be an exception in very special circumstances and for very special reasons, which should not be generalized by expecting or announcing a definite forthcoming mass appearance of such beings.

People should bear in mind that they live in the last days. They should think about what it means that God's adversary is nearing the end of his freedom, that he will be bound again and that he knows he only has little time left. Nevertheless, in his delusion he still believes that his power will triumph. And therefore, he will stop at nothing in order to achieve his supposed victory. And if people know this then they will also be able to understand what seems strange or mysterious to them. And science will also provide much clarification. But unexplained events occur in areas outside the realm of science, which are of a more transcendental nature. And especially these areas are used by the adversary to make his exposure more difficult, to make people believe that they are approached by beings from the realm of light and then surrender to his influence. This influence always intends to divert people from the truth, to darken their thoughts with error, thus preventing their return to God. For people's thoughts will be redirected towards matter again which should be overcome during their earthly life.

The adversary will negate everything that is proclaimed by God as 'close at hand', everything that is related to the 'approaching end', and thus people are led into false expectations which result in indifference towards their souls and the great danger that the souls will experience the end unprepared and be lost again for eternity. Unworldly-minded people will not fall prey to the adversary's artful temptations, for their focus on God and their desire for truth also guarantees that they think correctly. And although they are unable to explain such appearances it will not seriously affect their way of life, they steadfastly continue on their path until the end, always protected by the beings of light that prevent God's adversary to seize them. For in the final analysis, it is a person's own will which determines whether and to what extent he lives in truth."

Help from the Universe

Beings of Light would never reveal themselves to you

God the Father is speaking: "You, my earthly children, are chosen to achieve the highest degree of beatitude. You, who live on this earth, had to pass through the deepest abyss, because as originally created spirits you had thrown yourselves into the depth, but you were not banished there by Me. Now, that you have worked your way up again from utmost darkness, albeit with My help, now, that you have to travel the final journey on

earth as a human being, your real self only needs to take the last test of will which determines your fate in eternity. But this test of will requires, especially from the being that had to pass through the abyss, a substantial change of its former thinking and endeavor for which, however, it will be exceptionally highly credited, what you can better understand when you learn that My other schoolhouses are places of residence for the spiritual beings who had not sunk so infinitely low and who therefore do not have to struggle as much in order to return to the spheres of light again.

Thus, you humans were exceptionally burdened as a result of your former apostasy from Me, therefore yourself, that is, the once-fallen spirit, had to struggle considerably, and although the gradual development proceeded in the law of compulsion the final test of free will is still extraordinarily difficult, but not impossible, since the blessings of the act of Salvation are at the disposal of every once-fallen being. Besides, countless beings of light stand by you all who, due to their abundance of love, will do everything in order to help you make the right decision. Consequently, although the terms on this earth are hard, they can nevertheless be met, and the most glorious reward beckons those who will meet them. Yet all this takes place within the framework of My lawful order. Help cannot be arbitrarily given if it is not requested or rejected. Thus, beings of light cannot help arbitrarily either; instead they will always work in harmony with My will, because My will is their will as soon as they are enlightened.

Hence My will either prompts or prevents them from working for the benefit of souls embodied on earth. You have to know that I govern and that My will is

respected by all spiritual beings who serve Me and thus inhabit My kingdom of light. And now you can understand that the beings of light will also refrain from exerting a compelling influence because this does not comply with My will. For I want a voluntary decision of will. And just as I do not force people to accept My Word, which is given to them as greatest evidence of love and grace to assist their free decision, I do not consent that My messengers of light should provide people with compelling evidence of their work either. Nor will they ever do so because they clearly recognize My plan of love and Salvation and also know that coercion or proof cannot result in success.

But it would be proof of extraterrestrial activity if beings from the universe would approach your earth who are allegedly supposed to assist you on My instructions. Only I can bring help to you in earthly difficulties, and spiritual help does not happen in a faith-compelling way. Assistance in earthly difficulties, whatever they may be, can certainly also be carried out by My beings of light, but they will never visibly materialize themselves to you when they help. The beings of light don't need such materializations and also know that people may not be influenced such that they are compelled to believe in supernatural beings and supernatural might. Consequently, as soon as you humans hope for help it can indeed be given to you, yet always providing that you acknowledge and thus also allow spiritual activity, it will, however, never visibly take place. And if you then believe that the earth as such also needs the protection and help of the spiritual world, if you believe that the destructive influence through human will can be prevented or cancelled by these beings of light, then this belief will also guarantee you their help, but never in a way that inhabitants of other worlds will assist you, that they will be sent to you as the instruments of My will.

Consider how small you make your God and Father appear that He should need inhabitants of other stars to grant you protection. And consider who these inhabitants of other stars are, that they, too, are spiritual beings in the process of higher development who, as My living creations, will in fact also achieve beatitude one day, whose deep desire for closeness to God makes them strive constantly, but who will always remain within the area of the star on which My love and wisdom have placed them. All virtuous beings can indeed send their thought emanations to other struggling, unhappy beings in the universe, and such mental transmissions can, in turn, affect these beings as strength. Yet these beings are unable to leave their sphere and neither do they need to because an infinite number of angels and beings of light are at my disposal who truly take the best of care of every single star. And every single star has an inexhaustible influx of strength: My Word, which sounds everywhere and which, as an emission of My love, also has the strength to facilitate the return of every individual being, of every once-fallen original spirit. But if My Word is not utilized, if it is ignored, then the being still shows its resistance which will never be forcibly broken either. Not even angels would be able to break it even if they would descend to earth, unless they expressed themselves so obviously as My messengers that people would be compelled to believe, which nevertheless is not My will and will never meet My approval.

If you humans believe that you can make contact with inhabitants of other worlds, then you thus intend to find the evidence that these worlds are inhabited. But if your spirit is awakened you will know this even without proof. And if you are

still unenlightened, if you are completely devoid of spiritual endeavor and ignorant of the destined purpose of creation, then such evidence would not lead you onto the spiritual path either, but you would merely engage in earthly research and achieve no spiritual progress. For this very reason alone beings of light would never reveal themselves to you and give you information through 'messages' which are not in harmony with My eternal plan of Salvation, since the achieved purpose is by no means inconsequential. And all enlightened spirits working on My behalf in the last days in order to help you humans will only ever aim for spiritual advancement, that people turn to Me, their God and Father since eternity, that they detach themselves from the world which belongs to My adversary, that they achieve the highest goal on earth and entirely voluntarily take their final test in order to regain their original state which will bring them unimaginable beatitude in light and strength and freedom.”

Love of the World-Satan's followers: Love of God-Overcoming Matter

BD 5039 11.01.1951

God the Father is speaking: “Only a person desiring to reach God lives a spiritual life, whereas a follower of Satan lives a purely worldly life on this earth, even if he seems to be a representative of God. Overcoming the world also means overcoming Satan, who is lord of the material world insofar as that the still immature spiritual substance bound in matter belongs to him, even though his power over it was removed from him. It is certainly still part of him because it shares his spirit, yet it is inaccessible to his influence while it is bound in its form. Nevertheless, it is his means in order to draw people, the souls which have to make a decision between God and him, over to himself. For the human being, who starts off spiritually immature, desires that which the world presents to his eyes. Yet he should rise above it. Then he will belong to the Father of eternity but whose kingdom is a spiritual one. Therefore, anyone who loves the world and its pleasures, who strives for material goods and only lives for their acquisition, belongs to God's adversary, and also gives him authority over himself. But anyone who strives for God is no longer attracted to the world, he has surmounted the world, otherwise the desire for God would not have awakened in him. Consequently, turning away from the world is also a sign of a voluntarily aspired affiliation with God.

Satan uses the world to entice and therefore has a means of attraction which most people fall prey to because they love the world. Love of the world and love of God are not possible at the same time, and love of the world and neighborly love will also rarely be found together as the latter would indicate a lessening of the former, and thereby you recognize the followers of God and the followers of God's adversary. And as long as a person still pays attention to worldly possessions and still yearns for them, he will be unable to find inner peace, the peace of soul; for peace of soul comes from God, and God is only with someone who turns his back to the world. The human being is certainly placed into the world and has to fulfill his earthly task, and that will also force him to keep in touch with the world. Yet it concerns the desire of the heart, it concerns the innermost attitude towards the world's treasures which will completely lose their appeal if a person is imbued with

the need to strive for the spiritual kingdom and its treasures. In that case he will indeed continue to exist in the world yet only to fulfill the duties which earthly life imposes on him. The world, however, will no longer attract him, and that is the sign that he has overcome the world and with it its lord, that he has detached himself from God's adversary so as to be able to establish contact with God. No-one can serve two masters, and his desire clearly demonstrates to which lord a person is of service. The earthly world and the spiritual kingdom are so far apart from each other that what a human heart desires is easily distinguished. And Satan can never dominate a person who, through his will, has already been taken possession of by God"

People of the Star Worlds

Spirit – Soul - Angelic and Divine Life

Ref: "Secrets of Life" Chapter 6:4 by Jakob Lorber 29 July 1870

God the Father is speaking: "By spirit life I actually mean the life of all those spirits or natural forces that affects the continuity of the entire material universe, or the existence and permanency of all metals, rocks and earths.

These spirits, which in everything constitute the actual carriers of all forms, all products, and all living beings,

except for the inhabitants of the world globes who resemble Me, are, although purely divine sparks, on different levels in keeping with their intelligence and are placed by Me into everything that exists. Thus, they imply the existence of things and their perfection by also rising from one level to the next. However, they have no personality as yet but are only intelligent in so far as they act on the matter imprisoning them for the sake of its stability, gaining more intelligence on each higher level of existence. First appearing as an urge, later as an animal soul, they gradually pass into a spirit being with self-awareness.

In the great spiritual realm, these spirits correspond in the boy to the dormant urges and passions and to the embryos buried under the snow, the first beginnings dormant in the plant seeds and the animal germs waiting for the first impulse to begin their life and activity to work their way up from the lowest levels until they reach the age of youth, when they as souls have more self-awareness while still being led by the guiding rope of the universal great nature spirit. Waiting through all the worlds and spaces, it urges on every created being to fulfill its purpose and is known to you as instinct.

The soul life begins in an already more limited, defined form; it already possesses the quality of reproduction through sperm or procreation, and higher up in the animal life also more or less free movement.

It is like the age of youth with its urges and to-be-acquired qualities in preparation for manhood, the pinnacle of this existence.

The mature plant or tree has already higher instincts and its indwelling soul already strives towards something higher, towards the transition to the animal kingdom, while at the same time remaining firmly bound to the soil. However, there are also some herbs and climbing plants that even possess a pushing movement and are therefore the nearest transitions to the freely moving animal kingdom. The soul of the animal, beginning with the most primitive mollusks and infusorians up to the apes – the animals that resemble you where your form, but only your form, not your soul is concerned – all have the urge for perfection. To a certain degree they have this quality to let them be perfected and are able to achieve this, particularly the closer they are to man and the more they are in touch with him.

They refine their intelligence more and more and after their demise approach their destiny at a faster pace than souls which are more remote from man, as for instance the animals living in the depths of the oceans and lakes and in the densest forests and wilderness areas. Instead of feeling an urge to approach man, they are his greatest enemies who, instead of basking in the sun to warm them near him, are even after his blood.

Most other animal souls are endowed with enough intelligence to approach you human beings and if you knew how much love and devotion often lies in an animal soul nestling against you, which would feel happy if a higher human spirit would concern himself with it, you would certainly be amazed at the qualities present in such an animal, which would shame many a man and force him into humbly abandoning his proud notion of being the ruler of all that was created.

This entire soul-realm with its millions upon millions of gradations is like the end of adolescence which pushes towards the maturity of man or the male character, there to find its full stop on all the earths in the ultimately created, but already with purely spiritual capabilities and qualifies endowed man, as the image of an all-embracing eternal God.

Here and in all material creations man concludes the spiritual gamut and through his struggling upward and spiritual endeavor - for he must spiritualize his soul in order to keep progressing higher and higher as a spiritual being - he is well on the road to angelic life, a life spiritually corresponding to manhood. There, greater, more serious tasks are to be accomplished, no longer for himself, but for many millions of other spiritual beings for whose spiritual progress care must be taken.

This corresponds to man's family life, as a great plant nursery for God's children.

For this level of angelic life, in particular the inhabitants of your earth are chosen; all other living human beings and dwellers on other earths and solar worlds, if they want to become My children, have to endure this road of incarnation on earth. For apart from this there is no other road to Me, that is, to My immediate proximity where I, in correspondence with human old age, as the most perfect Spirit living only within My innermost being, am the final goal and the culmination point of all that is created, exists and lives.

This is then the divine life, a separate life, and yet – through all – for all! It is the central, the culmination points and, as shown previously, the point of beginning, like a circle representing My effect and My might, infinite, for everything issues from Me, passes through all phases of possible changes and then,

more and more refined, returns to Me. Thus you have here the four stages of spiritual life; in matter as something bound without self-awareness, in the soul as something active in self-awareness, in the spirit as something freely left to its own resources, and in Me as God, Creator and Lord of the entire creation as working and ruling alone, amongst other things representing also this highest level, as the most noble and sublime, and not as an unrelenting judge handling the reins of all that was created, but working only with the gentlest attributes, namely, as Father and only through love holding everything together, embracing everything and leading it back through mildness to My fatherly heart.

Therefore, after I have gradually unfolded here for you like a huge panorama the entire creation, do understand, My children, what rank you occupy in this spiritual realm of living beings and spirits.

Do understand your position, for what you were chosen, and with how much sacrifice I even reclaimed you in order to make you that for which, among myriads of beings, My fatherly love has destined you!

Do strive for this; grasp the fatherly hand that wants to pull you close to Him. This fatherly hand which wants to spare you so many other difficult and tedious roads so that you may soon come to Him, who knows of no other joy than to see the whole creation of His great ideas and thoughts mirror itself in the spirit and the hearts of His children, and who as reward for all He did – only desires that they, rushing towards Him, confess and call Him by the name: “Father, who are we that You should remember us!”

So that I, as Father stretching out My arms towards you, may be able to reply: “That, for which I have created you, namely, (children of My Love!) My children. Amen. Amen. Amen.

The Future affliction of the Earth. The secure feeling of the children of God.

The Great Gospel of John Vol.5: Ch:110 by Jakob Lorber

Cyrenius says, “We would certainly have understood it; but this understanding is little comfort for the people of this Earth! What use then is the best teaching, if the people can fall away from it again in time and then contribute to the destruction of the whole Earth! Yes, if we had, as Your witnesses, at least a thousand years of life and our youngest disciples would then have just as long, that would be

enough to keep the teaching pure; but if You Yourself firstly, according to Your rather clear warning, are leaving this Earth bodily and secondly the signs will become rarer "yes, then I do not know who will bear the blame for this if the Earth is totally and utterly destroyed through the pure foolishness of the people! What use is it if they survive a few thousand years from now on, but then nonetheless will obviously be annihilated?!"

I say, "Friend, if in that time you will also not continue to live as coarse matter, as you now live, think and speak, you will nevertheless continue to live eternally as a spirit, very much more clearly aware, stronger and more powerful and you will be the eyes and ears of everything that will then happen and be necessarily allowed by Me; but you will certainly agree with everything and will in addition contribute quite a few elements for the castigation of the people and will approach Me with millions of other spirits very many times to give the Earth a new disposition and form! But I will then always admonish you all to patience and love.

And when on the Earth things begin to become so crazily confused, you in My kingdom will have great joy and say: Well, finally the Lord is allowing the crying injustice of the people on the material Earth to feel His rod! Just think about it, that I have never let there be a lack of people filled with My spirit, not even among the greatest heathens! Not even fifty years ever passed by "and once again men stood there who showed the people the right path! Now I have come Myself as a man onto this Earth which is appointed for a great destiny; after Me men will immediately be sent to the children of the world until the end of the world and will constantly convert many to the true light.

Not a single iota will be lost of this teaching now given you. Yet this will be of little importance to mankind in general which, as long as there is - and must be - matter, will be in constant conflict with the pure spiritual element. However, let nobody be in fear because of it; for there will always be many who are called, but only a few elect among them.

Those who will follow the chosen ones, for them the Earth will always have a safe place, but those who are too deaf and blind in their hearts will be always sifted from time to time like tears from pure wheat.

The Earth will therefore exist as it existed after Noah and will bear My brighter children; only the too greatly prevalent filth will be removed from it and come to another institute of purification, of which there is truly no lack in My eternally great kingdom and of which eternally there will never be a lack. But such beings will never be My children; because for that it is required to recognize Me correctly and love Me above all.

For now I am not speaking as the miracle physician Jesus of Nazareth, but instead as He who has been dwelling within Me from eternity "as the Father full of love and mercy I speak to you and as the only God who says: I am the Alpha and the Omega, the eternal beginning and the endless, eternal final destination of the whole infinity; there is no other God besides Me!"

The End of Earthly Matter

The Great Gospel of John Vol.5: Ch:111 by Jakob Lorber

(The Lord) "Therefore I tell you all: *Whoever will seek, find and recognize Me, and then love Me above all else, and his neighbor as himself with all patience and*

with all his strength, either here or at least then on the other side, will be My child, that is, My son and My daughter! But whoever will not seek Me, nor find or recognize Me, and therefore will not love Me and will also show a full lack of love towards his fellow man, will never achieve My childhood in all eternity! For My children must be perfect, just as I as their true Father Himself am perfect!

But the children of the world, who later are quite likely going to be purified, will remain inhabitants of those worlds and communities for which they are suitable and in which they were purified. Yet they will never be free to enter the eternal Father's house in the center of the innermost heaven as are My true children who, together with Me, will be judging the whole of infinity forevermore.

But this Earth will bear many people after the predicted last, great purification, just as it does now; but these future people will be very much better than the present ones and will at all times have My living word.

But when the Earth, after an unthinkable number of your years, will have released all its prisoners, it will be transformed in the sea of light of the sun into a spiritual Earth. For the lowest husk and shell which previously accommodated the living spirits and souls is like pumice; although it is no longer an actual life-element, it is still a heavy and broken organic matter harboring the lowest kind of directed spirits inside itself.

What is one supposed to do with the substrate, if all intelligent life has freed itself from it? Should it float around fully dead in the endless space as a definite burnt-out lump of pumice, devoid of all further purpose? Or should it or could it nonetheless be something in the spheres of the living and perfected spirits of the most varied types? Yes, it should be something; for nothing can exist anywhere in the endless space, which is also My kingdom and My eternal house, as fully dead and purposeless! But in order to speak of a purpose, one must indeed unmistakably speak of a spiritual one, lasting eternally, since there can never be a materially eternal purpose anywhere.

All matter, as something limited spatially and temporally, can only have a temporal purpose. But if such a thing has fully carried out its purpose in a certain period, and if a higher goal in life has been achieved with it as the means, and if it, the matter, as a former vessel, useful and suitable for a certain purpose, has become fragile, loose, holey and thereby fully useless for any further similar purpose "what else should happen then with the lump of pumice?"

Look at a bucket by a well! What becomes of it after it has been served for many years to draw water? Can it as fully fragile and pitted still be used to draw water? No; therefore, it will be taken off and burnt and thereby will fully disintegrate into smoke, air and some ash, which however is likewise disintegrated with time by the humidity of the air into a simple form of air and only then can be serviceable in the disintegrated state of the air as a good basis for the real spiritual being. And even if it is no longer one and the same water pail, nonetheless a highly tender and subtle shell globe structure can be created from it, which can be a carrier of the living water from Me."

The future transformation of the material worlds into spiritual children of God and creatures of God.

The Great Gospel of John Vol.5: Ch:112 by Jakob Lorber

(The Lord) "That which through men's reasoning happens - or is sure to happen - to the old water-bucket, will also happen in the distant future to the earth as well as to all other worlds, even the primordial central suns. They will become completely spiritual worlds carrying and harboring the blessed spirits.

But such worlds will then not only be inhabited externally, but instead much more internally in all their inner temples of life corresponding similarly to their previous organic, material forms.

Only then will men as perfected spirits learn thoroughly about the inner nature of the worlds that once carried them; and there will be no end to their joy and wonderment over their exceedingly wonderful and complex inner organic structure from the smallest to the largest organs.

The small planets that have no light of their own, such as this earth, its moon, the so-called Venus, Mercury, Mars, Jupiter and Saturn, and still other similar planets belonging to this sun, including the many comets - which later also become planets carrying human beings, partly through an actual union with a planet already carrying humans, and partly in their own right as matured planets -, all these will disintegrate in the sun, after - by your concepts - eons of time.

The sun and its many companions will dissolve in its central sun [of the local star cluster or 'sun area']. These central suns, which can be of an enormous age and for which one eon (decillion times decillion) of earth years is what for this earth is one year, will dissolve in the central suns of the galaxies, which suns, in their overall proportions - to express it in the Arabic way - are, of course, million million [= trillion or 10¹²] times larger again. These galaxy central suns again will dissolve in the central suns of the super galaxies, which suns are again in the same proportion larger. These central suns of the super galaxies will finally be dissolved in the one primordial central sun whose physical dimensions, by your standards, are truly immeasurable.

But where, then, will these find their final disintegration? In the fire of My will, and out of this final disintegration all the planets will then revert, though spiritually, to their previous order and service and then spiritually continue to exist in all their splendor and greatness and delight.

Of course, you must not imagine all this to happen tomorrow, or the day after tomorrow; but picture in your mind's eye all the grains of sand on the earth and imagine that each is one earth year, and the resulting years would hardly be sufficient to account for the duration of the material Earth. It is impossible to imagine the much longer existence of the sun and, much less, that of one of the central suns of the first order, the central suns of the second order, let alone the for you immeasurable duration of the central suns of the super galaxies, or even of a primordial central sun, - and this all the less because the suns will keep bringing forth new worlds, the central suns new planetary suns and the primordial central suns whole legions of suns of every kind.

But despite such incalculable lengths of time for you of the great worlds its time will one day nonetheless be over and then once again a period of creation will have taken its course and be completed. After that a new period of creation will

begin in an endlessly remote region of space of creation. And you will be taking an active part in this, as well as in countless others following it, - but only as My true children.

For whoever does not achieve the childhood of God on the path that is shown, will remain, live and act and walk on his spiritual earth as an indeed complete, sensible and ever-blessed creature and will even visit other neighboring spiritual worlds "yes, he will be able to travel across the whole surface of the globe!" "But in all eternity, he will go no further, and the need to achieve something higher in an active, living way will not burn in him.

But My children will always be with Me and will think, feel, want and act along with Me as if with one heart! That will be the endlessly great difference between My true children and the creatures blessed with common sense and understanding. Therefore, make sure that you will one day be found to be suitable and worthy to be My children!"

The People of the Star Worlds and being a Child of God.

The Great Gospel of John Vol.5: Ch:113 by Jakob Lorber

(The Lord) "I tell you, there are countless shell globes in your unfathomable space. Every shell globe which, by your standards, is endless since it carries eon times eons of suns and solar universes, is certainly inhabited by countless numbers of human beings. These are either still in their physical body or are already purely spiritual and are, in their own way, usually endowed with a very bright reason and a subtly calculating intellect, often attaining an acuteness which would put you to shame.

Sometimes, these human beings have dream-like notions that somewhere [out there in endless space] there are children of the supreme, everlasting Spirit, and they quite often secretly wish to become My children at any price, but in most cases, this is not possible at all. For everything must remain and exist in its own order, just as is the case with man; the various parts and organs of his knee-joint cannot be transformed into the precious eyes of his head, or the toes of his feet into ears. All parts of the body must remain what they are; and no matter how much the hands may wish also to see, it is of no avail, soundly and happily they remain blind hands which, nevertheless, receive a more than adequate light through the precious eyes in the head.

There is thus no need for the earth to be a sun to light up its otherwise dark surface, for it does receive sufficient light from the one sun. All parts of man's body, including the eyes and the heart, must be nourished in their own way through the food he eats. But only the purest particles, namely, those which are most closely related to the light, are chosen as food for the eyes. The soul-particles most closely related to love and life assimilate with the vital substance of the heart, and the increasingly coarser particles are passed as suitable nourishment to the various

constituent parts of the body. It would lead to dire consequences for the eye if it were to be entered by particles only suitable as nourishment for a bone.

And so, it would also be a very bad move in the general great order of Creation if I allowed the created human beings of other worlds to become the very closest children to My heart. Yes, now and then such an admission is possible; but then great purifications and far-reaching provisions and preparations are needed! Those who are most likely to become the recipients of such grace are either souls from this sun or the primary archangels, whose duty it is to rule over whole shell globes and guide and maintain them in the best order, under judgment. But no matter how immensely great they are in every respect, they must here be content to be small, just like I am, and humble themselves in all things.

Even from the central sun of this system, to which this sun also belongs, can souls be transferred onto this Earth to achieve My childhood, as well as from the central sun of our galaxy and that of our super galaxy. But only from the area of the same super galaxy to which this Earth belongs, can other souls come here "not so easily from the universal primordial central sun, because the souls of its necessarily gigantic human beings have far too much substance to be contained in the small body of a man of this Earth.

In some regions of that immense solar world, there are human beings who are so large that their head alone is at least a thousand times larger than this whole earth. However, the weakest among My children is, nevertheless, by virtue of My Spirit within the heart of its soul endlessly mightier than myriads of those gigantic people from the primordial central sun.

Therefore, bear in mind what it means to be a child of the Supreme God, and what an enormous, non-judged and inviolable free-will-test is necessary so that the soul can unite with My Spirit within you, - the only way in which you can fully become My children."

The Great Man of Creation and the earth.

The Great Gospel of John Vol.5: Ch:114 by Jakob Lorber

(The Lord) "Certainly it can now be asked with good reason how then precisely this small Earth and its small people came to this honor and mercy, since in the endless space of creation there is an uncountable number of the greatest and most magnificent worlds of light, which would be much more suitable to bear God's children, to feed them and to equip them in the best way with everything that is demanded. The world-sized people of the primordial central sun would be more respectable as children of God than the worms of the dust of this small Earth! According to its outer appearance this question would certainly be nothing or at least not much to refute; but in the inner state of things of life it would even be a type of impossibility.

The organism of every human has its life-nerve close to the center of the heart, a tiny clot, from which all the rest of the bodily organism is animated. The parts of this little cardiac nerve have such a set-up to attract the life-ether from the blood and from the air that is breathed in, so that it firstly remains extremely active for life and then secondly communicates this life activity to the whole organism and thereby animates the whole body in the appropriate way.

If I would like to cut off your foot or your hand, you would continue to live, as you can see in many old soldiers, whose hands, feet, ears and noses were cut off in battle, and who nonetheless still continue to live, even only as a cripple; but the slightest injury to the heart, in which the small main nerve of life is situated, entails immediate physical death.

What applies to the arrangement within the human body and that of the warm-blooded animals applies likewise to the arrangement within the immense space of creation. Taken collectively, the innumerable shell globes represent a gigantic, by your standards infinitely great, man. Within this man, our own shell globe signifies the heart, and this very earth represents the exceedingly minute vital nerve of the whole great man, which is situated not in the center, but more to the left side, of the heart.

Indeed, in the center of the heart there is also a very important nerve system, but it is not the main center of life. It is only a workshop for the intake and maintenance of the nourishment of life from the blood and from the air. From there only the main nerve of life takes it in and fructifies or blesses it, so that it is now a life-giving substance that is, for the present natural lifespan of the soul which could not come into any union at all with the organism of the body without this nerve.

Therefore, the vital nerve in question, situated somewhere in the left side of the heart, is a very unprepossessing- looking, minute wart, similar to the tiny sensory warts on the lower ball of either small toe. Covered only by the epidermis, these sensory warts are the main sensory conductors of the feet, - but who takes notice of them or knows that this is what they are?

If someone physically had the misfortune to lose the little toes of his feet, he would find it difficult to walk "much more difficult" than if he had lost his big toes. Who can then stand up and ask: But why have You, oh Lord, laid then the highest efficacy on the smallest thing in Your immeasurable creation?

But then I would ask in return and say: Why is it that the foundation stone often is a thousand times smaller with you people than the whole house which has its main support on exactly the same stone? Why are there then so many lies, but in the kingdom of truth there is actually only one basic truth? Why is the oak such a great tree, and the seed in its fruit, in which are contained countless many oaks of the most enormous size, is as small as the tiniest grain of sand?

My dear little children and now friends, there are many other things in the great creation whose purpose and composition might seem somewhat strange to you if you knew everything in creation. If I now wanted you to make you aware of only a few such eccentricities, you would put your hands above your head and say: No, Lord that cannot possibly be for it contradicts too much the pure common sense to a certain degree! In short, you all cannot understand it now; and to list even a very small part of them, we would need more millennia than there is sand in the oceans!

But when you will receive My spirit, once I have gone home again, this will then lead you of itself in all truth and you will then no longer need to ask and say: Lord, why this, and why that? The blindfolding will be taken away from your eyes and you will then see in the brightest light what you now hardly imagine at all. Therefore, be satisfied for the meantime with what you have now heard! This is only

a seed laid in your heart, whose fruit you will harvest then as ripe when the sun of My spirit has risen in you.

Have you understood even a little of what I have just said to you? Be open in your heart and admit it; for from now on I will remain another seven full hours among you! Speak now and tell, where someone is still in the dark, and I will lead him to the light, if not into the fullest light of the spiritual life!"

Nature and content of a Shell Globe.

The Great Gospel of John Vol.5: Ch:115 by Jakob Lorber

Our Mathael finally says one more time, "Lord, those are truly like strong Scythian villages which exist almost as little as not at all, and of which one cannot make any comprehension! You can certainly speak well of Your endlessly great creation; but we, who do not even really know how great our Earth is, and what form it has, cannot listen to what You have informed us so well or so understandably.

I indeed understood some things in my very vivid imagination, but only as if guessing at something great in a fleeting dream. Yet very many of my companions consider that to be a type of incomprehensible drivel, out of which no natural, no matter how healthy person can ever make head or tail. For in order to be able to understand such things only a little more clearly, we must be very thoroughly familiar with counting and old Egyptian astronomy and be perfectly competent in their great counting system! But since we are lacking the scientific elements almost entirely, such present grandiose explanation of Yours cannot be clear to us in any case.

It is indeed true that You have really spoiled us a little earlier with glimpses of Your great creation; but at least for me there were still a few questions to ask. Now you have announced in more detail namely the material part of Your creation; but that is not of much particular use to us. For it is indeed clear and easy to accept that we cannot possibly fully understand such things, since we are lacking in all the basic elements of comprehension.

In order to understand all this only a little better, we would have to likewise have knowledge of one of the named shell globes and the various forms of the suns and central suns dominating in it. If that were the case, we could then imagine the whole countless many other shell globes and central sun systems, areas and space a little more clearly; but there is a snag even with the single shell globe, not to mention the many others, of which certainly each has quite a different set-up and a very different purpose.

How are things then actually with the planetary suns and further with the stories of the central suns of the solar system, the solar area, space and finally even the primordial central sun, of which the very famous Ptolemy and Julius Caesar, who was also somewhat of an astronomer, never dreamed?"

I say, "My dear Mathael, I notice that you are becoming a bit annoyed, partly because I have now shown you things that you either do not understand at all or understand very little, and partly at yourself, since you, who otherwise have a great erudition in very many things and various very respectable experiences and insight, cannot quite understand very well what I have now said. But look, all that is not quite right of you; for man does not become wise alone from what he hears and

immediately fully understands, but instead mostly from what he hears and does not understand!

Whatever someone already understands, no-one will ever think it over again or investigate it; for what one has already, one no longer seeks to gain or to achieve with effort and rests very comfortably on what one already has in hand. But whatever one has not found as yet, particularly if it is of great value, one certainly seeks with great zeal until one gets at least some of it.

You see, if I would want to make you lazy thinkers in the end, it would be an easy thing for Me to place a shell globe in the air before your eyes, and you would understand the whole system of a shell globe that we have just been speaking about as easily as that two staters and another two staters certainly make four staters! Since I want to keep you active in your thinking, I showed you something by way of explanation that will rouse you from your sleep."

But I have already told you something about this before which you certainly have not understood very clearly for the very same reason, and so I could now say this to you without counting on the fact that you will fully understand it, but instead that you will think it over many times at good opportunities, particularly on clear starry nights.

But in order to make the thinking just a little easier, I will make you aware of similar events on this Earth. Look at your military institutes and you already more or less have the set-up of a shell globe with its central and original suns! There stands a leader of only ten to thirty soldiers "there stands another, even greater leader, who has more than ten leaders of the first order under his command. The first leader resembles a planetary sun, and the ten to thirty very common soldiers represent the planets which circle a sun. The second, higher leader of the ten abovementioned crews resembles a first central sun of the solar area system around which a number of planetary suns move at varying distances with their often many planets. These planetary suns moving around a great central sun make up a solar area which you must remember for now in order to be able to understand the following more clearly.

Now we will move on to an army leader of the third class! This once again has some ten leaders of the second class under him and must direct them and as well to lead them. The commands of this third leader, whom we will name 'captain', are only given to the subordinated cohort leaders, and they then announce them to the smaller crew leaders, and only they then give them to the individual soldiers. We have just spoken about one solar area, and it goes without saying that there will be several other solar areas which in their turn must have a general even greater leading body.

Let's call the military team under a captain a squadron and imagine now ten to twenty squadrons once again under a higher ruler, who for example is a colonel and usually has command over a legion which mostly consists of ten to twenty squadrons! Such a legion is then already a very considerable force and makes up a very powerful part of a whole army. We can now suitably compare a legion with a sun universe [galaxy]. But as several legions stand in their turn under the orders of a commander, so then the sun universes also stand under an even greater and more powerful central sun, which we, in order to distinguish between it and the previous ones, will call 'central sun of the sun universes'.

But now all the many armies stand under a single monarch, and likewise the numerous sun universes under the general main central primary sun, which naturally must be of a most colossal size, in order to attract to it all the many sun universes likewise the planetary suns their individual planets along with their moons, and to allow them to circle them in wide paths of distances immeasurable for you. Such a true sun monarchy I call with good reason a shell globe.

It is a globe due to its fully round form "but all the planets in it are shells (husks) because they all contain a judged spiritual life, and because in the end this carrier (globe) is itself a universal shell, since in it eons upon eons of suns appear to maintain a certain order as totally enclosed. Tell Me, Mathael, whether you have understood Me now more clearly than before!"

The imperfection of human insight. The consolation is divine love.

The Great Gospel of John Vol.5: Ch:116 by Jakob Lorber

Mathael says, "I thank You, oh Lord, for this additional explanation; for through it alone I have now received a more or less clear comprehension of a shell globe, and I am quite satisfied with it for now. As far as the countless other similar neighbors in the far space of creation are concerned, they now do not bother me in the least; for I have the opinion that a human spirit will have fully enough with his own for all eternity of eternities.

I will now consider only this small Earth of ours. How long would a person have to work in order to only travel it from point to point across the whole surface over land and water?! I hardly believe that one would manage it in five to six thousand years, in order to be able to say: Now there is no longer any point on the whole wide Earth which my foot has not stood on! If one would calculate the time of serious investigation and at the same time took into account the hours of rest and pleasure necessarily entailed, which truly cannot be left out at the constantly highly edifying observance of Your great miracles, of the heavenly attractively beautiful areas and landscapes here and there, and since one would willingly spend years in a very charming area very often "yes, one would need several thousand years for this Earth alone!

But how long would one remain with this Earth alone then if it was possible for one to see all the countless inner chambers of this Earth?! Oh, then an entire millions of years would surely not be enough, particularly if one could set oneself in a place to observe in the inner great workshops of nature and its spirits, as they principally will exist to their whole development and then transform again into completely different things and forms!

Yes, if one took that also into account, then one would have to deal already alone with this Earth -counting in the Arabian way "much over a thousand million Earth years, naturally as a person limited through time and space in order to be able to then say with a clear conscience: The Earth is very best known to me now from point to point in its being and in all its most various ways from organ to organ!

After the Earth the moon would then have to be observed above all. This would once again take some hundred thousand Earth years in order to become familiar with it totally. Only then the other and often very much greater planets would be in line to be examined and investigated, for which a person would not be able to finish, because they are quite foreign and certainly more miraculous planets

than this Earth, due to their great wonder in the end before a huge number of millennia.

Only then one would deal with the great sun with all its countless and greatest wonderfully magnificent regions of light! I think that one would stay there then for an eternity and certainly receive again and again something new to see and to investigate. If one then accepts that its people are somewhat highly beautiful, wise and friendly people, yes, yes, then there would no longer be any talk of proceeding! The whole, great Arabic counting system would truly no longer have any numbers with which one could express the time that one would need for the investigation and testing of the great sun!

Well, then one would only be finished with a small planetary sun! Eons of eons of suns would remain and among them also the extremely great central suns. Let us stop! Only to become fully familiar with this one shell globe we would need entire eternities!

Who would like to and could think of the investigation of a second shell globe?! I have therefore more than enough for eternity with this one and leave the countless many others certainly very willingly to the other higher spirits to investigate! I at least am becoming dizzy when I think of just one!

Oh Lord, Your love is the greatest comfort for me, and I find my way in it; but the size of Your power and wisdom consumes me like the monstrous rage of a whale consumes the tiniest worm which was there and now is no longer! In Your greatness You, oh Lord, are a most terrifying sea of fire; but in Your love You are honey! Therefore, I remain with Your love; the greatness of Your power and wisdom however is at least as good as if not there at all for me. For I do not understand it and will never ever understand it; but I understand love, and it strengthens my heart quite blissfully and makes my life pleasant.

I now understand very many great things; but who will understand them again after me?! But since I see that all these many great things that You, oh Lord, have explained to us must be fully incomprehensible for a thousand times a thousand and once again a thousand times a thousand people, *I do not even have a right joy in it, that I now understand such extremely great things very well and have insight, but that I cannot make it understandable to anyone after me, because humanity in general stands at too low a level of spiritual development!*

I am certainly guessing that it is not exactly impossible to make the people for the most part recognize You only by Your exterior manifestation that You are a God who has created everything and now maintains everything, and that they will then start to love, fear and worship You; but to make You more descriptive to their crippled concepts seems to me as good as purely impossible.

For wherever one wants to build something, one must indeed have some firm ground for loose sandy ground or even on a swamp one cannot build a strong fortress. Therefore, I will in future, both for me as well as for my people, only remain alone with love; whatever this will give me and disclose to me shall be taken into the area of my wisdom forever! Am I not, right?"

The realization of Jesus' godhood as a prerequisite to the true love of God.

The Great Gospel of John Vol.5: Ch:117 by Jakob Lorber

I say, "Certainly "for whoever is in My love is in everything that comes from Me! But from My love alone you will probably have difficulty recognizing Me as what I am! For look, you can love your wife very much and very powerfully as well and vice versa your wife can love you too; but for that neither you nor your wife will be a God!

If you only love Me as a pure, even if very good and rational person, and likewise I you, we can walk together for eons of years and you will just as little recognize and greet Me as a God as I you, who are certainly no God, but instead only a creature of God.

But if you want to recognize Me as what I am before you, I must let you recognize Me as such through word, speech and deed. But if you have truly recognized Me through this and learned to see through My power and wisdom that I am obviously more than a purely good and rational person, only then will your heart sink humbly into the dust before Me and then in such correct humility burn most very actively in all love towards Me; and you will then truly and faithfully find the most living reason to love Me, your God and creator, above all else. But what goes for you also goes for everybody else.

Whoever does not recognize Me as God cannot truly love Me as a God above all! But would you ever have been able to recognize Me as God if you had only ever observed purely human deeds and actions and speech from Me? Certainly not! And would your love for Me have become so powerful if you had not discovered something divine in Me?! But through the fact that I would have seized you simply with all love and affection as a bridegroom his bride, you would have not been able to learn that the spirit of the very highest God lives and works in thought, word and deed in Me, but instead My wisdom and My power have only announced that to you, and therefore it is not quite right if you call My great wisdom and power a most frightening sea of fire and if you are of the opinion that people should never have anything to do with it. Quite the opposite!

The people should seek with all voracity My kingdom in everything and above all. And as they are on the way to becoming My children they should always begin to become more and more at home in their Father's great house in every sphere and relationship. Thereby they will then grow in true love full of humility, and they will thereby have an ever-greater joy filled with all love in their Father, and the Father also in them.

If people will do and live a true life in and through My wisdom, love and power, then they will also be totally what they should actually be. They will become as My children just as perfect as I Myself am perfect, and will then no longer see My divine wisdom, power and greatness as a terrifying sea of fire. I think that that will now also be clear to you!

Yet I also say to you all that for the meantime you should not teach the peoples everything that I have now shown you. Teach them to recognize God above all, to have a living trust in Him and to love Him above all else! Everything else the Spirit Itself will reveal to them as occasion demands."

A Visit to a Star

Ref: "The Universe" by Jakob Lorber 1853 Excerpt from the Great Gospel of John 02:136, 07 on.

The angel [Rafael:] Do you see yonder the bright star towards the East? Behold, if a paved road led there from here, then verily, the Earth does not have the number of grains of sand for the number of years a bird would need to reach it, let alone a man running. Yet for me it is possible to get there in a moment! You shall not notice my absence, yet I shall nevertheless be there and back - Do you believe me?"

Says Jarah: "Why should I not believe you such? But there can of course be no talk of my being convinced, because I would not want to make a journey with you there like to the seabed!"

Says the angel: "But why not? Are not all things possible to God? If it pleases the Lord, it doesn't matter to me! That no harm shall come to you I vouch for, together with all the countless angels you see shining brilliantly on all sides!"

Says Jarah to Me: "Lord, is this indeed possible?"

Say I: "In this angel's arms indeed! You can if you want to hand yourself over to him, and in a few moments, you shall be back here with Me, well-preserved; but fetch yourself a souvenir from there as well!"

With these words Jarah assigns herself to the angel, saying: "Behold, I have the courage; carry me there if you can!"

Thereupon the angel picked Jarah off the ground, and pressing her fervently to his bosom, disappeared. In ten seconds, he was back here with Jarah, who had a stone in her apron which shone as brightly as the morning star in its most brilliant light.

On recovering somewhat from her amazement, Jarah asked Me: "Oh, Lord, are all these countless stars what yonder star is which I have now actually beheld with my physical eyes, or the eyes of my feelings? For that certainly is a vast world! This world compared to that one now seems like a snail-shell compared to this mountain! Also, humans, completely perfect humans, living in unspeakably huge yet marvelously constructed temples there are also in yonder outsize and grand world, but these people are so colossal that they would exceed this mountain at least threefold if standing at the sea below. Thus, everything in yonder world is thousand times a thousand bigger than here.

We stood upon an exceedingly high mountain and beheld a never-ending area in all directions. This was crisscrossed in all directions by the most marvelous streams, whose waves played in continuously changing, freshest colors of the rainbow; the ground was built up with the most magnificent gardens and temples. The next moment we found ourselves with the temples below, seeing the huge people and their much bigger dwelling-temples. These people are good to look at from a distance, but at close range they resemble moving mountains! I would have had to put a very high ladder up against the small toe of such a person there to climb it!

In short, I could be telling you all my life about what I saw there in just a few moments, but this would mean blubbering the time away which You, o Lord have allocated for something better! Only this I want to find out from You, whether these countless stars also are worlds like the one I saw!"

Say I: "Yes, My child, and much bigger and glorious ones! But tell Me, are you now firmly convinced that you were upon yonder star with body and soul, in these few moments!"

Says Jarah: "Lord, my love and my life, we flew there in four short stages; right up to the fourth stage the star had the appearance of stars, but with the fourth stage it became as big as our sun by day. From there it took only the shortest moment before we were in yonder magnificent world. From the mountain-peak where we found ourselves first, I loosened a little stone from the ground as suggested by the angel - it is this shining lump - and took it as evidence that I really was there. More I cannot tell You about my actually being there."

A View into Saturn.

Ref: The Great Gospel of John Vol.5: Ch 201 by Jakob Lorber

Says Hiram: "Now everything would already in the best order, since we now believe every word that you say, oh great, most eminent wise man. But since absolutely everything already seems to be possible for you, it shouldn't be impossible then for you to allow us to take a closer look at such a totally different earthly world but for both of us at the same time, so that we can give a valid testimonial to others afterwards!"

Say I: "Oh, there is nothing easier! But with your physical eyes alone it would indeed be impossible. I will thus unite the eye of your spirit, your soul and your body for a short time, and up there in the sky you will see quite a large and moderately bright star, it is the so-called **planet Saturn**. If you now turn your eyes to it, you will see it quickly becoming larger and larger, and that will continue until you find yourselves like being on it completely! Then you may tell one another what you have seen! Now do this!"

At this both of them began to focus on the star and quickly it became larger and larger. Soon they see even its cleft ring and several of its moons. Soon the moons become as large as the moon of the Earth and quickly even larger; but the planet itself already stands in an awe-inspiring size and majesty before their eyes. Their loud amazement is already beginning to exceed all limits; for while they look at all this ever more perfectly, they express loudly with their mouths everything that they see.

They are now actually very close to the first, but actually most distant moon of this planet, and Hiram calls out loudly, "Ah, that is a huge, but unfortunately very barren earth! There are indeed people and animals and plants there; but everything is as if very atrophied, and it looks as if these people have only a little intelligence and they are not at all good-looking. The animals are also very poorly represented and look very strange. The plant world looks very monotone as well and severely atrophied. No, we don't like it there at all!"

Ah, another world is coming towards us! Oh, that one is even worse! There's a third, it's also nothing that would be the right world for wise Diogenes! We have seen it! Hey, there is a fourth and it looks no better! Just move on! Here comes a fifth already, there everything is very small; but the inhabited part nevertheless looks better than with the previous ones. The children are jumping around very cheerfully just like apes! There is no house to be seen anywhere. The animal kingdom seems to be represented very simply and very sparsely there as well, and likewise the beloved plant world! But here comes a sixth and even smaller world, and even a seventh! Oh. These are terribly ugly!

But now, oh, all lightning, hail and thunder! Now an enormous world is coming towards us! Oh, it has no end at all! (N.B.: It is the outer ring.) Ah, it seems to go on in the straightest line eternally with no end! Oh, it looks quite magnificent there! Extremely long mountain ranges seem to go on forever, and a number of lakes and rivers are visible, and people and plants have more similarity to ours. But there seems to be no trace of a noticeable culture there. The people, who look very strange, seem to know no cheerfulness and are tremendously huge. But there are no houses, nor even less any towns.

Aha, now a second such large world is coming towards us yet again! That is just as if one extremely large world was stuck inside another! But otherwise, there is not much difference between this and the previous great earth and here, here comes a third already, almost the very same! Well, well, how many earths are hidden inside one another?! But here the somewhat smaller people seem indeed to be very phantom-like, and everything is very barren and almost no culture at all! No, we would not like to live in this world either!

But here comes once again a sort of little world towards us! Well, well, in close proximity now it nonetheless looks quite acceptable; but there is nothing of any creature to be discovered! But oh, all the elements! Now here an earth is coming towards us for which one must have all respect!"

At this the observation bound with every possible exclamation of amazement lasted almost half an hour, and I called the two back again to their natural state and left them the fullest memory of what they had seen in their souls and even in their brain, and then asked them how they had liked Saturn."

Saturn

BD No. 1008 of 07/16/1939 taken from book 19

God the Father is speaking: "Worldly scholars will struggle in vain to obtain a clear picture of the inner structure of extraterrestrial works of Creation. It is not enough to establish the numerical size ratio of other planets in comparison to Earth, nor is the intention of establishing the sun's influence on these planets and the measurement of luminosity sufficient. Rather, the research of these planets requires people with enormous knowledge, and such knowledge can only be acquired by spiritual means. No connection exists between Earth and other planets, and no such connection will ever be established even if eternities pass by. On the other hand, however, spiritually, no

limitations exist which separate one planet from another. The vast space between two planets does not prevent spiritual beings from communicating with each other and exchanging information about the world they inhabit and its structure. Providing a clear picture of the most related planet to Earth, Saturn is the task of one of the elevated spiritual beings inhabiting it by giving you humans on Earth a description which offers an undeniable explanation to a person desiring such information. As yet no mortal has succeeded in establishing the dimensions of this planet, for it is not possible to calculate its size because people possess no criterion for the circumference of Saturn. It goes beyond all earthly estimates and is almost an infinite concept for you humans. The basic material of this planet is not the same as that of Earth either; it consists of transparent, brightly sparkling metal with an inconceivable luminosity. The state of all beings within the vicinity of this radiant matter is in harmony with this brilliant light. They are exceedingly sensitive to all spiritual currents and are relatively far advanced spiritual beings which, however, did not reach their state of light through conscious striving but are highly educated through God's will. The task of these beings includes taking care of the spirits on earth. Like on earth, they also live a similar physical life, except that the size ratio of the external shells they occupy is humanly incomprehensible, but accordingly their spiritual power is indescribably effective. Nevertheless, the beings also have to fulfill a function and this is in harmony with their respective embodiment, for these beings also exist in various external shapes on the planet's surface, but their ability to change far surpasses that on earth, insofar as that they are not animating some external shape as imperfect spiritual beings, but that they can, as it were, change their shell at any time so as to be able to accomplish their set task better and easier in a different shell. Consequently, Saturn shelters living beings, nevertheless they possess a certain degree of maturity, or they would not be suitable for this planet since the abundance of light presupposes a specific receptivity to light. These beings are difficult to describe to people on earth because certain laws need to be taken into account which are unknown to people on earth. It would indeed be possible to portray them to you, albeit only in a metaphorical way which illustrates the beings' activity. And this activity is, in a way, just as necessary for people on earth, for the beings have the task of constantly animating the entire flora, nevertheless, the correlation of this cannot be fully understood by you as yet. Amongst each other, the beings lead a similar life as on earth, in total harmony and spiritual unity, so their dwellings are accordingly, and magnificent creations of their own intelligence shaped the surface of the planet into an exceedingly charming abode. Creation consists of countless stars and yet each one differs from the other both in its surface arrangement as well as in the living conditions of its inhabiting beings. In the same way their basic materials are always of a different kind too, yet all these creations are governed and directed by one Deity according to His will. And thus, God provides countless opportunities for a being so that it can receive and likewise distribute bliss for eternity through lively activity in accordance with its perfection."

The Saturnian Human Beings.

Ref: Saturn by Jakob Lorber:104-108

Saturnian, their origin, population density and housing conditions

God the Father is speaking:
"Much has already been said about the humans on Saturn. Regardless of that, much more remains to be said about the masters of this celestial body, in order for you to learn in what kind of order this planet exists and whose Spirit's child it is.

Since a good order is at all times and everywhere the basis of all wisdom, we shall therefore observe here a human being in a good order first of all, in his externally shaped being and then his spiritual existence and everything that enters into the region of the spiritual, such as his country's constitution, his trade and his divine service. Now we shall begin with the physical shape of the Saturnian human being.

Was there only one human couple on Saturn, or were there at the same time at various places several human couples created? All human beings that now live on Saturn originate from one human couple; this applies to all planets just as it applies to earth. The history of the Saturnites is more than one million earth years older than the history of human beings on earth.

A Saturnite throughout his entire life has rarely more than four descendants with his wife; it should be understandable when I say that this planet, in proportion to earth, is by many times less populated than earth. On the large continental countries, of which several are larger in area than Asia, Africa and Europe, human beings very seldom live in a neighborly way next to each other. This situation that exists in your villages on earth belongs to one of the greatest rarities on Saturn.

If a human being from earth were somehow able to travel to one of these continents, the dwellings of the people on Saturn are so far apart that it would take him at least ten to twelve days to travel from one to another. In the mountains these distances from one dwelling to another or from one neighbor to another are the rule rather than the exception, whereas in the lower-lying regions, which are next to the lakes and rivers, the dwellings of the Saturnites are closer together.

Wherever you find such an abode, there are not only a few human beings, but an entire family which usually numbers anywhere from 1,000 to 5,000 people.

How large are their dwellings that they can accommodate so many people? It should be mentioned that the Saturnites prefer to have plenty of space. As far as their accommodation is concerned, this was mentioned right at the beginning with the description of the sun tree (gliuba). It was also mentioned that this tree is their house, one which they prefer to all others. Therefore, I do not have to describe the peculiar shape of this tree again, other than to remind you that it is an extraordinary tree with many trunks, and that on its wide branches, which almost always run in a horizontal manner, the people build their dwellings.

Such a tree is as significant on Saturn as an important city on earth. The patriarch of such a large family assigns the individual branches and side trunks to the individual family and it then becomes their own property, just like a house in your cities. The difference here, however, is that the people who live in this tree city are all blood relatives, while in your cities anyone who has the financial means can purchase a house right next to you.

You might ask yourself: How can these people sleep on these branches? If they turn around during their sleep, will they not fall out of the trees? The possibility of this happening would be much greater if you were simply to turn around in your bed. Because these horizontal outward-bound branches are so thick and wide that on a single branch there is enough room for every house in your capital city, 1(This capital city is Graz in Austria with a population of over 200,000.) and there would still be enough room to drive and ride around.

Besides that, there are a large number of smaller branches growing in a horizontal parallel direction from the wide edges of each of these large branches; they are the actual carriers of the fruit of this tree. Closer to the trunk these smaller branches are of significant strength; they are so strong that if a human being would walk, stand or lie beyond the edge of the branch he would not fall off the tree. Let us assume that despite these smaller branches it happens that someone walks carelessly beyond them and falls to the ground, or from a higher branch to a lower branch; this person would not sustain any injury from such a fall. The reason for this is already known to you and has been mentioned in a previous chapter: On Saturn, through the existing attraction between the actual planet and the ring, the specific weight of any given body, including the body of a human being, is significantly reduced. Therefore, nobody on Saturn will be able to fall with the same severity as someone on earth.

The above explanation is the reason for this occurrence and should completely satisfy the inquisitive mind in this respect. As long as this planet has been populated by human beings, no one has ever broken a leg or an arm during his lifetime, and nobody has injured his head or sustained a hole in his head through a fall, which of course happens quite often on earth.

The question now arises: Is this tree the only dwelling the Saturnites call home? The answer is no. Besides these main tree dwellings, they have various other dwellings, which are occupied during the cool shadow time.

These houses are built in various ways. Some are built from the strong branches of the pyramid tree, while others are grown from the species of the more slender trees. The houses that are grown, or living house, are superior to those which are built. However, they always build houses between those which are grown, because they serve as storage for their food.

They also only make a fire in those houses which they build, where they cook, boil and roast their various food, though not in the same clever and artificial manner as you do on earth, but more as you would bake an apple or cook pears, vegetables, and some of your good-tasting beets and roots. This is what the entire art of cooking consists of on Saturn. In these houses they also store their milk products as well as their precious berry juice containers.

Nobody eats or sleeps in the houses that are built; that is always done in the houses that are grown, because it is unbearable for the Saturnites to remain for a

longer period in the vicinity of a dead thing. That applies to a house which is built from trees that have been cut down as well as to dead human beings or animals. That is why houses built by the Saturnites are used exclusively as workshops and storage rooms.

You would probably like to know how large such a manmade house is and also what it looks like. I can grant this wish. These houses are built in the form of a wreath, similar to the houses in the Austrian countryside, except they do not have any roofs; they are completely open towards the sky. For the Saturnites, the greatest atrocity is a house separated from heaven by a roof. They say that everything that comes from above unto the ground is a blessing from heaven, and therefore a blessing for the soil. And since they also live on the soil, why should they separate themselves and hide from the blessings of heaven? They are of the opinion that it is also a much greater benefit to them, since they are alive and therefore in much greater need of heaven's blessing than the soil of their earth, which they believe to be dead.

Now we know how their houses are built. Now all we need to know is their form and size. Usually, these houses are built in the shape of a star, like a compass dial; however, these houses have sometimes 8, 16 or even 32 pointed tips, each of which forms a kind of separate section for food and drink. In the center of this round wide room is a round hearth where food is cooked. It is understood that the hearth is in proportion to the size of the Saturnites.

In such a star-house the distance from one tip to the opposite tip, in accordance with your earthly measurements, would take one hour if you walked it in good stride. As far as the height of this house is concerned, every person on Saturn that is as tall as a man can easily look over the walls of this house.

Are these houses decorated in any way? No, other than that the people adorn them with the foliage of the trees they cut down to build them with. That is everything in regard to these houses.

Since we have learned that the houses they build are the actual farm, kitchen and storage buildings of the people on Saturn, we shall now take a closer look at their living domiciles.

What is the form of these live domiciles? Their external form is completely round, with one entrance from the morning (east). Only two different kinds of species of trees are used to build or, rather, grow these houses. The more beautiful and more magnificent houses are grown with the well-known mirror trees (ubra) planted closely together; the houses that are less beautiful and less magnificent are grown with the wall tree (bark), not the common kind but the cultivated wall tree.

The inside floor of these houses is made completely level. Grass seeds are sown on this floor, from which a very short but extremely thick grass grows, like a thick carpet. This grass has the appearance of velvet and is so resilient that, when someone walks on it, it immediately springs back to its original state.

In the center of the house is a large, round and proportionately high hearth, which is covered on all sides with the same grass. So that you have an idea of the size, circumference and height of this hearth, I can tell you that it has a diameter of roughly 540 feet and a height that reaches above the knees, even halfway up to the thighs of a Saturnian man. However, when its height is compared to the height of a

woman, the hearth is about half her size. 1(A woman is 80 to 90 feet tall and a man 95 to 135 feet.)

What purpose does this hearth serve? It serves the Saturnites in the same manner as do tables on earth, namely for food and drink.

Not far from this hearth-table, at a distance of approximately 200 feet, there is a completely round pyramid, obtuse at the top, which at its base has approximately three times the diameter of the hearth. The space at the top of the pyramid is only large enough for a man to stand on conveniently. This pyramid has the height of a man and is covered with the same grass as the floor and hearth, and it serves as the family pulpit for the patriarch. Every day before sunset the eldest member of the family stands on this platform, whereupon the whole family gathers around in order to hear from him the will of the Great Spirit pertaining to the night and the entire following day.

What other kinds of furnishings or facilities does such a house contain? Completely in the background, the entrance directly opposite the sunrise, there is another circular wall covered with the same grass. But it is not as high by far as the center pulpit; instead, it is considerably larger in circumference and with many moderate curvatures. What is the purpose of this third circular wall? This is the common bed or place of rest for our tall Saturnian humans.

Before they go to sleep, they place soft pillows into the curvature close to the periphery of this circular wall and lean against one of these curvatures, each person having one such curvature. The men take their position, which faces the rising sun, and the women face the setting sun. All are resting with their bodies in a position that is 30° in earth measurements in relationship to the floor. That is how they fall asleep; they remain in this position until shortly before sunrise. In spite of the ring shadow, they notice the sunrise, because the ring never covets the sun so completely that nothing can be seen of the sun. And should it happen at times that the ring is wider that it covers the sun completely, the duration of such cover never lasts longer than half a day; after that a small edge of the sun becomes visible again.

These are all the furnishings which such a house contains which is occupied by the Saturnites during the time of the shadow. What is the size of such a house in regard to its circumference? The diameter is longer than the well-known star-like storage houses by more than half.

Does the entire population of the large dwelling tree live in such a house? No, only one family, that is one father and one mother with their children and children's children, just as they live together on one branch of a tree during the light-time. There are as many man-made dwellings as there are branches on which the Saturnites live.

In such common family dwellings, the area around such a tree covers mostly more square miles than Styria (632,586 square miles). These dwellings are, as you know, at such a distance from each other that it would take many days' travel to reach another one. Around these dwellings are the grounds and grazing lands of the domesticated animals which you already know. These animals must have enough ground so that enough can be harvested for the maintenance of the life of the people on Saturn as well as the preservation of the animals. In addition to this, there are, at border regions of the common family properties, the large, far-expanding forests of the funnel trees, and on the large plains, especially on the northern side of large

lakes, there are forests of pyramid trees covering areas of 2,000 to 3,000 square geographic miles, and there are also other large forests of shrubs. When you take all this into consideration as well, you will not be surprised that the distance between two common family dwellings is so far.

Now we know how the people on Saturn dwell, especially those in the mountain regions. For now, I say Amen!"

The basic material of this planet is not the same as that of Earth either; it consists of transparent, brightly sparkling metal with an inconceivable luminosity. The state of all beings within the vicinity of this radiant matter is in harmony with this brilliant light. They are exceedingly sensitive to all spiritual currents and are relatively far advanced spiritual beings which, however, did not reach their state of light through conscious striving but are highly educated through God's will. The task of these beings includes taking care of the spirits on earth.

The Diversity of other Worlds.

Ref: The Great Gospel of John Vol.5: Ch 199 by Jakob Lorber

Here Aziona says, "But tell me, you incomprehensible wise man, is there in the endless universe of creation then other such worlds, on which, let's say, people have the same job just like us in everything?"

Say I: "Friend, just look at your body with a correct attentiveness and you will notice a number of different limbs and parts! Can these only have one designation? Can the brain and the stomach have one and the same designation, or the eye and the ear, the hands and the feet, or the nose and the mouth? Look, the human body is put together from so countless many smallest parts in the very most artistic way, even the two very next and most similar parts, forming one and the same organ, do not have the very same character and designation!"

For example, firmly side by side sit two individual nerves. Both receive the same food and are animated by the same fluid of life, and their job is to hold two hairs standing firmly side by side onto the head and to make them grow. Well, these two most insignificant nerves should also be fully similar to one another in determination as the same cause of exact effects! But I say: Oh, not at all! These two nerves are just as little like each other in designation as a man and a woman, and therefore also their inner organism is a thoroughly different one.

But you now think and say to yourself: Yes, then two male and two female nerves must indeed be fully like one another! And I say to you: Not at all as absolute as you imagine! For if that were the case, all the hairs would have to grow on one and the same place on the head, or a very similar next male nerve organization would, only one millimeter away standing over a differently created main place, not bring any other hair to grow. Yes, it can even happen that the necessary and by all nature required desire for assimilation will also become stronger in the nerves of the roots of the hair, than is in order. But what would be the consequence of that? You will soon and easily be able to count the hairs on your head!

Such an event in the body of a person is certainly an involuntary one; but nonetheless it mostly rests as a positive of the disordered striving of a sensual and material soul. The drive for assimilation is indeed necessary for reproduction and maintenance of natural life, but in its strength over or under the degree set by nature itself it is the death of the same.

Let's suppose there was not the very slightest appeal to assimilation between the male and female sex, as among the animals, then the reproduction of the natural life would certainly have an end. You will both see the reason very well. The complete lack of this attraction would accordingly be also the obvious death for all-natural life. But likewise, an assimilation appeal and really drive which crosses all limits equals obvious death of natural life and with it also very easily the life of the soul.

For example, the eye has the desire for assimilation with light. If this is not kept with incorrect limits and a person begins to look directly into the sun the eye soon becomes dead and thus blind through such a powerful overstimulation. And so, it is with all human senses.

But the mutual appeal for assimilation can be kept in its saving limits only if the free soul is given laws according to which it can direct the way of its natural life with sure steps. Naturally such laws can only be given as fully effective and bringing blessings by Him who created heaven, spirits, sun, stars, the moon, this Earth and everything that is in it, on it and over it, breathes and lives. And from the side of the creator this also happened at all times; only there were always only a few who have seriously observed such laws in everything. Those, however, who lived according to such statutes have always also harvested the true temporal and eternal blessings of it; the lethargic, the despisers and the unbelievers, however, have experienced the opposite in themselves as well as in their peers.

From everything that has been said, however, it emerges for your main question that in the whole endless universe of creation there is no other planet which has exactly the same and, I say, very highest designation and inner and outer set-up needed to reach the same as just this Earth."

The Vertical Image of Space

The Journey that we are about to experience has never been revealed to man! God the Father is speaking: "I am telling you... **be prepared; because this sight will bring something before your eyes that until this time has come into no man's mind.**" This breathtaking Journey begins with the return of the Prodigal Son:

'The Return of the Prodigal Son'

Ref: Origin of Man from the Fallen First-Created Spirits by Jakob Lorber

God the Father is speaking: "Probably no other verse, no other chapter, in the Holy Scriptures is of greater import than the Parable of the Prodigal Son. Equally, there probably is no other passage that is harder to understand than this one. (Hi I p. 306)

The name Lucifer encompasses the whole, unending compendium of the Prodigal Son, a compendium you will never be able to comprehend. Consider that almost the whole of present-day mankind are nothing but members of the body of this one 'lost' or 'prodigal son' and this refers particularly to the members of the human race who are descended from Adam's unhallowed line. This 'Prodigal Son' has taken away all the wealth that was his part and squandered it through eons that for your concepts extend for ever and ever. (Hi I p. 307)

The 'Prodigal Son', however, is taken to represent every single human being as such. (Hi I p. 315)

In the final instance, he also represents the whole cosmos with millions upon millions of galaxies, each of them with something like fifty or one hundred thousand million suns. According to New Revelation, ***the universe, seen from 'outside', is 'a perfect and complete human form' and 'can be seen in its kind by none accept Me in this reality.'*** (Hi I p. 312)

'The deity took hold of Lucifer's essential nature in all parts, took all specific nature, formed out of its cosmic bodies throughout the whole of infinite space, enwrapped the spirit of this infinite soul entity in the most powerful of bonds and bound him in the depth of matter.' (EM p. 159)

'This cosmic man you behold there is no more and no less than the Prodigal Son who has found himself again, found himself again in every single person who is reborn.' *'Yet you should not think that this fallen Lucifer would return again as a complete whole. If this had been possible, then truly, the creation of the physical world could never have happened; instead, in every single individual who lives according to My Word and is born again through the Word and through redemption, this Lost Son (i.e., a part of his essential nature) is found again and returns to the great house of the Father.'* (Hi I p. 314)

'Of course, all physical matter that makes up the universe is also only the work of God, and a divine element lies hidden within it, but there also lie within it deceit, lies and seduction, and from these arise envy, avarice, hatred, pride, persecution, and arising from these all kinds of vices, beyond measure and

count.* And this very falseness, this lying and deceit, is in spiritual terms 'Satan', and all the different vices of necessity arising from this are indeed what is called 'devils'.' (Gr V 94, 2-3)

God's plan to bring all the spirits that have fallen away from him back again to the house of their Father, on a path that goes through matter, requires a length of time that is inconceivably great. Yet the time will come 'when no physical sun and no physical earth continue to move in their orbits in infinite space, and a super splendid, new spiritual creation will fill limitless space everywhere with exultant, free beings, and I shall forever thenceforth be God and Father of all beings, world without end. And thenceforth there will be no end to this most blessed of states. There shall be one herd, one-fold, and one shepherd.'

'As to when all this shall be, in the number of earth years, this can never be determined. And even if I were to make known this number, you could not possibly grasp it.' (Gr II 63, 3-4)

The creation of the physical world is thus clearly interpreted in New Revelation as the field for redemption through divine love and compassion. The universe has been created to redeem the fallen spirits. The life sparks gradually loosened from Lucifer are according to God's wise plan taken step by step, i.e., through evolution, through the mineral, plant and animal kingdoms to the final goal which is man. 'The enormous numbers of fallen spirits, who fell with Lucifer and then were placed in the bonds of matter, as its carriers, all these classify the whole of creation in this universe according to spiritual content.' (Pr 317) "Spirit you have been, and spirit you shall become again." (Pr 121)

The great purpose of God is to lead all of mankind - whichever body in the universe they inhabit - along the path of salvation to spiritual rebirth and hence to God. The earth and its inhabitants have a very special and preferential role to play in this according to New Revelation. The road is inconceivably long, however, and can be full of torment for some.

'Man is the most highly perfected of the countless different creatures, the culmination of divine love and wisdom, destined to become a god himself." (Gr VII 141, 6) This is why Jesus said to the Jews: "Is it not written in your law, I said, Ye are (potential, author) gods?' 'Now', New Revelation says, 'you are merely like embryos in the womb.'" (Gr III 180, 8) When God's final goal will have been achieved, the 8th Psalm will shine forth in its true radiance which now is still hidden: Yet thou hast made him little less than God, and dost crown him with glory and honor.'

Having realized the full import of the highly spiritual message given in New Revelation, we shall also be able to understand the following words of Johannes Eckehart, the 14th century German mystic: 'The very life and nature of all creatures is nothing but their calling and hastening to God, from Whom they took their origin.'³

A vision of life unfolding as a whole, and a gradual, step by step, ascent, as described in great detail in New Revelation, may also be found in the work of the mystic Jakob Boehme (1575-1624) who, like Jakob Lorber, could not have known anything of evolution theories at that time.

During the third century, the greatest biblical scholar, Origen, also accepted the dogma of apocatastasis, the return of all things to their previous state. According to this, the soul leaves the place of purification again and punishment does not go

on forever. 'Perfection will have been achieved,' Origen wrote, 'when all souls have found salvation in becoming angels. All creation returns to God.' 'The universal resolve to achieve salvation is a revelation of the all-compassionate God.'⁴ In his *Contra Celsus* 92-97, Origen equated Adam with the primal unit of human nature, that fell from heaven in the beginning of time as a whole. Origen refers to the words of the prophet Joshua: 'Far indeed my soul has been wandering', continuing: 'Comprehend, therefore, if you are able, what are these wanderings of the soul, to continue on which she laments with sighs and sorrows. For, of course, for as long as she is wanderings insight into these things is halted and is veiled, only when she has reached her homeland, her peace, paradise, shall she be enlightened more truly on this, and see more clearly which has been the way and meaning of her wanderings.'⁵

'Suddenly', the Catholic theologian and renowned author Hans Urs von Balthasar writes in his Origen - *Geist und Feuer*, (Spirit and Fire), 'insights come through like flashes of lightning, and these are among the most enduring yet also most forgotten in the history of Christian thought.'⁶ 'But when the vessel shattered into a thousand fragments and the name of the Mater (Origen) was stoned and buried, the scent of the unguent escaped, filling the whole house.'⁷

Apocatastasis again may be perceived in *Scivias*, the work of Hildegard of Bingen entitled *Know the Ways*. "Then I heard a voice saying to me: Paeons of praise shall be sung to the sublime Creator with untiring voice of heart and tongue, for through his grace he leads to the throne of heaven not only those upright and standing, but also those who have fallen and are bowed down" (Book 3, 13th vision).

The concept of men as fallen spirits whom the love of God for his creatures finally leads back, like the Prodigal Son, to the House of the Father, in a sheer unending, far journey through the mineral, plant and animal kingdoms, exists not only in Christian antiquity and in Christian mysticism, but also in the mysticism of other religions, a.o. in Parseeism, which also does not speak of hell eternal, and also in Islamic mysticism, in Sufism. It finds its most beautiful expression in the following verses by the famous Persian mystic Jelal ed Din Rumi (1207-1273)"

The Great Cosmic Man - The big creation-man and his return.

Ref: Written on March 25, 1841, from 4 o'clock in the afternoon until 8:45 o'clock in the evening. The writers are Poet Karl G. Ritter von Leitner, Mayor of Graz Andreas Hüttenbrenner, his brother Composer Anselm Hüttenbrenner.

God the Father is speaking: "Now that we have accompanied and illuminated the prodigal son from his rise to his fall in the eleventh hour and have also calculated the time and nearly determined the hour that must testify of his When your spirit awakens within you, you will perceive its voice in your heart like clear thoughts. To these you must carefully listen and heed them in your whole sphere of life, then you will provide your spirit with an ever-growing field of action. Thus, the spirit within you will grow to a man's size and pervade your whole soul and with it your entire material being. The downfall, consequently in the twelfth hour we are going to see where and how this prodigal son will once again return—humbled through and through—into the immense and grand house of the Father.

However, in order to understand this fully, it is not enough that we have looked a little through the world-mote called earth; but for this purpose, I have added

and already mentioned tiny device in the—to you—conscious camera obscura of the spirit; and we once again take a somewhat broader view in this newly prepared chamber. I am telling you... **be prepared; because this sight will bring something before your eyes that until this time has come into no man's mind.** With the ability of this new device [the camera obscura], the tablet also becomes the receiver of a big picture, and as a result will be enlarged and assume a *vertical* instead of the former horizontal position.

Now look: Our device is operational. Direct your sight now onto the wide expanded tablet; and at once, you will recognize the large picture on the same tablet. This is the only possible way to place the endlessly long, stretched-out creation before your eyes within one picture.

Now: Look closely on the tablet; and as soon as I say the word Epheta, you will see the magnificent picture on the tablet. Now then, because your sight is directed at the tablet, I say: Epheta!

Now, what do you say to the picture? Exactly, on this blackboard you see nothing more and nothing less, than the clear figure of a human being, whose loins are only scarcely covered by some rags and whose hair, even with the shaggy appearance, trails from his head and covers half the body.

True, you will probably think, "there is nothing special to be seen in this picture, except that it is presented on this tablet in a very colossal form. Incidentally, such a picture could have been painted by a fairly skilled portrait painter with a whitish color on a black tablet"; and I can add nothing to that, except that—at first glance—your conclusion is correct. Seeing that you want to think a little deeper, you will probably soon recognize the shape of the prodigal son in this whitish figure.

But look, My dear children! The tablet is placed just a little too far for your eyes to see, so let us go closer to the tablet; for you have now seen the entire shape, therefore, we want to examine the color a little closer with which this figure was applied onto this tablet.

Now, we are at the tablet. Look: This fathom-wide shimmering area is one part of the foot of the entire figure. Take a close look and tell Me what do you discover [on the tablet]? Look very closely... What do you see? ... Right, you are discovering nothing but many small, closely linked-together, shimmering, tiny globules. You know that this picture is not painted but is only a light-picture [an image] of an outer [natural] object.

In reality, what do you think these tiny globules are? See: I will not let you guess for very long, but if you think that these tiny globules are images of remote suns, planets, moons and comets, hear... I have to say to you: Children! Judge not too hastily, otherwise you will err tremendously! However, before I reveal the being of these minuscule globules to you, do your utmost to count these globules on one lentil-size spot! –

Now, are you finished? - Yes, yes, I already see, you seem to have difficulty with it since such shimmering dots on this existing lentil-size area are for you a hard to pronounce number, seeing it would clearly be more than a trillion. Now that you have familiarized yourselves a little with the color, I will tell you from which image such a tiny dot actually is. As already mentioned, not from a sun, nor from any other type of heavenly [global] body, but each tiny dot, or—as seen by your spiritual eyes as tiny globules—is nothing more and nothing less than the image of a shell globe.

Now we step back a little and again look at the entire figure. See: it is like a complete human-shape; and now that you have sufficiently looked at this figure, I am saying to you: This figure represents or describes out of and according to My eternal order—*the universe*; and therefore, it is, in reality, not visible in its form by anyone except Myself. In addition, a created spirit has never before seen this picture, as you have now observed it.

The universe, seen from 'outside', is 'a perfect and complete human form' and 'can be seen in its kind by none except Me in this reality.' (Hi I p. 312)

Once again, I see the thoughts hidden within you. You would very much like to see your earth within this person. As long as the entire figure sparkles on the tablet, it is impossible to show you such. Nevertheless, wait just a little; see I am a very good optician, therefore I want to undertake a little optical variation in our camera, after which variation nothing will remain of this entire figure except a single tiny illuminating dot.

Now see: The figure is gone; already everything is in order. Again, let us step closer to the tablet and look for our tiny dot. Now: did you find it already? One by itself does not emit much light; but look very intensely, you will find it.

You must not look up there on the high stretched-out tablet, but look all the way down here, where earlier you have seen the left foot of the entire figure, in fact there at the very edge of the ball of the fifth little pinky toe. This tiny globule is this particular shell globe, in which your earth is also located.

However, in order to arrive at our earth, I must once again come over the tiny shimmering dot with My Epheta, and so I speak "Epheta!" Now look; how this tiny globule has now expanded and nearly takes in the entire large round form of the tablet.

See the countless illuminating minute dots shimmer through one another. Now, pick out your earth. In fact, you might not be able to find it out of the great immense number of shimmering little dots. Yes, I am saying to you, it would be a vein effort on your behalf since these minute dots that you see are again no suns, but they are entire regions of sun-worlds-universes.

Therefore, will I now once again pick out just the right minute dot and erase all remaining off the large tablet. Now, there is the selected minute dot; and in order to arrive more quickly toward our goal, I once again say "Epheta!" Now see: Our tablet is once again full of new shimmering tiny dots. Alone these illuminating minute dots are again no suns, but all are numerous sun-worlds-universes; therefore, it will not help us to find the earth here.

You must not look up there on the high stretched-out tablet, but look all the way down here, where earlier you have seen the left foot of the entire figure, in fact there at the very edge of the ball of the fifth little pinky toe. This tiny globule is this particular shell globe, in which your earth is also located.

Once again, I will select the right one from these minute dots and erase the remainder of this tablet. Now, there is the tiny dot. See, how lonely and faint it glimmers on the big surface! But now My Epheta!... And the minute dot should immediately become a larger expansion; therefore "Epheta!"

Now look: Our tablet is again full of many illuminating tiny dots. From out of all these trillion times trillion-minute dots, would you like to search for the earth? Here I have to tell you once again: save your effort; for again these minute dots are still no suns, but individual sun-regions; and this is what you understand as a so-called star-fog.

Just so that we arrive more quickly toward the goal, I am going to select the right minute little dot for you and all the remaining dots will be erased on the tablet; and at once add the "Epheta."

Now look on the tablet. Precisely, you are seeing a shimmering-dotted-cloud, which spreads horizontally over the entire tablet; it is seven times as long as it is wide. Now look toward the middle; we once again want to select such a small shimmering-dotted-cloud, and all the remainder will be removed from the tablet. – Now, as you can see, everything has taken place, and My Epheta has given this minute dot again its right configuration.

Now take a close look; you probably already recognize it. See: There in the middle is a small shimmering lentil size disc; see, it is the image of your sun; and take a closer look; the third shimmering dot from the sun on the left side downward is your earth.

I just need to enlarge the picture a little and you will recognize your earth at once; and so, I say: You earth-point arise, so that My observers will recognize you! And see how this point gradually expands and now has reached the actual diameter, which is adequate enough for you to recognize your natural dirty dwelling place.

Now that we have seen everything, let us once again return to our prodigal son. Look onto the tablet, once again our first figure flaunts itself on the same. Although now this figure is getting smaller and smaller; and see now it is only barely the size of a child; and look once again: now this child has also melted into a dot. However, look: On the right side of the tablet, another big image of a human being is starting to appear; and now, it is also in the middle of the tablet, and under his left foot you also discover the previous shrunken minute dot, which is in the right proportion of its size to the size of this new picture.

What do you think this new picture represents? You might think, since you have more or less become acquainted with the big human being in the writings of [Emanuel] Swedenborg, that it is this big person. However, I say to you: You missed it by a mile! This person you see there, is nothing more and nothing less than himself-found-again prodigal son; however, not in his all-ness or completeness, but it is 'he' the [actual] prodigal son, who has found himself again in each and every individual born again [or re-born] person. Or said to you in more easily understandable words: He is the very least one in My new Kingdom, and here – presented to you – in the right proportion is this picture. This picture shows you the complete, full [spiritual] measure of a person, which is infinitely more sublime than the previously revealed limb-dissected and endlessly seeming universe in the shape of the prodigal son!

Now, if you heed this picture just a little, you might begin to grasp as to what the reason or nature of the return of the prodigal son is.

Do not think that this fallen Lucifer, who was revealed to you in the eleventh hour, is going to return as whole or complete. If such had been possible, truly, a material creation never would have taken place.

Instead, every single person who lives according to My Words and is born-again through the Word and through the salvation [or redemption], is this prodigal found again, and he will return into the immense [and glorious] house of the Father- [God]!

I am not saying this for nothing to you: In the immense [and glorious] house of the Father- [God]; because quite a large [and magnificent] house must be prepared for such a [purpose driven] multitude of [Christ-like] people; everyone can once again take residence with their Father.

Obviously, you recognize from all the preceding talks that it is clearly so; for does not each person in himself suffer in all wide-ranging tribulations, and is not everyone beaten as an individual [or for being his own person]? However, all these blows are directed at one and the same prodigal son.

However, if a person is beaten, is it not always true that only he who is beaten feels the pain, whereas the one who is not beaten often watches only too painlessly [and without a problem]? Alternatively, an entire nation is being mistreated on another continent, say, whether you have ever felt a whip thrashing on your skin? However, if someone dies, does he die for himself or for others? Or can you avow that somebody was ever born into the world for someone else? Or is My salvation and My Word not just as imperative for each individual person, as for entire nations? And cannot each human being receive Me with his love and the living faith for himself, that I reside in him and he in Me?

If you now look at everything, could you, after all that, possibly make the ultimate assertion that I am less in one person than in all of them together?

However, when I have become one with a person and he with Me, say, is there anything else missing from the deliverance of the prodigal son in an individual person?

Has he not received and accepted everything in himself, who has received [or accepted] Me? Truly, every single person who is one with Me is more, yes, I say, infinitely more than the great was in his for your inconceivable greatness; [this principle is shown through] applying your natural way of thinking!

See, each individual person for himself or herself will consequently be defined under this prodigal son, who is called Lucifer. And as an entire nation unites with Me, so will this entire nation likewise become only one human being with Me. Moreover, all people who ever lived on the earth and continue to live, when they have become one with Me, they too become only one human being in Me. In other words, everyone will be ensouled and enlivened in one and the same Holy Spirit of all love and all truth and all might and all power, and there will not be many [people] anymore, but [only] one; and one is not less than many, instead, all will be in complete and full union in Me. And many will not have more might and power than one, and one not less power than many, but everyone will live as [only] one [on its own but joint together], out of the same power and might of the Holy Spirit of all love and all truth out of Me!"

Countless Evidence of God

BD No. 7624 of 06/17/1960 taken from book 80

I give evidence of Myself through My Word

God the Father is speaking; "I make it easy for you to believe, if only you wanted to, for I furnish you with such obvious evidence of Myself and My working so that you would easily be able to recognize Me and consequently could also gain a convinced faith. I give evidence of Myself through creation, through everything surrounding you. ***And I give evidence of Myself through My Word which rings out to you from above and is conveyed to people who are willing to believe. For the will to do so must be present first, then the human being will also be able to believe. The will to believe opens his eyes, ears and heart, and he will be able to see, hear or perceive countless pieces of evidence of My existence, because I will reveal Myself to a human being of good will, because I will come close and make Myself known to him. Hence no person can say that it is impossible for him to believe, but it is merely a lack of willingness, and no human being can be compelled. In that case his will is still utterly opposed to Me, for the denial of a Deity is proof that the person is still totally entrenched in the original sin, that he has not abandoned his past opposition to Me, and then his will cannot be forcibly broken either.***

Even so, I constantly try to attract his will during his earthly life by repeatedly revealing Myself to him in the most diverse ways, so that he can always recognize Me by merely changing his will. Faith in Me can be gained by every person, because he lives in the midst of My creation and the works of nature frequently affect him, which he only needs to think about. Admittedly, an opposing will always try to find different explanations about the miracles of creation rather than the existence of a spiritually tangible Creator of eternity; yet as soon as his own will becomes less important other thoughts will be able to arise in him and he can consider it possible for a higher Power to be the Originator and Controller. And I will always endeavor to influence the human being such that he can achieve this realization.

During the last days before the end faith will continue to dwindle, and even My revelation will not achieve very much, precisely because of people's will, which cannot be coerced. However, I will not stop speaking to people from above, because My Word has the strength to change a person's thinking if he allows it to take effect in him. For it does happen, albeit only rarely, that complete unbelievers hear or read My Word and feel touched by it. However, every soul is important to Me and I will not slow down trying to attract each individual soul. And by way of fate, I also cross the path of people who do not want to believe, by allowing them to meet with

serious difficulties so that they can turn to an overwhelmingly powerful Being with an appeal for help. Yet I must always grant complete freedom to their will and therefore I can only ever aim to influence this will, which indeed will be done by My love and mercy for as long as the human being lives on earth.”

Doubting God’s Existence

BD No. 4069 of 06/25/1947 taken from book 50

God the Father is speaking: “It requires an exceptionally keen intellect to scientifically prove that God’s existence can be doubted or denied. And the attempt will be made to solve this biggest problem by scientific means, the question: Does God exist? That humanity is deliberating this most important question is also a sign of the end time, but far more in a negative sense, since people are willing to partake in this controversial issue and its line of argument because their faith, if it exists at all, is very weak and the slightest reason suffices to shake it.

Does God exist? No question is more important, and providing it is asked seriously by seeking people I Am prepared to enlighten them so that the seeker will be truly satisfied with the knowledge he receives and which he now also confidently upholds. However, if the question is not raised by seekers but by people who think they know better, who only accept the answer which suits them, and who do not want to prove that I Am but that I Am not, they will never arrive at a truthful result, in spite of sound evidence. They already belong to the opposing power which wants to take over the reign itself and push Me aside. And this is the beginning of the end, because according to the law of eternity I will strip My adversary of his power as soon as he oversteps his legitimate limit, which will be the case when he attempts to displace Me entirely from people’s thoughts.

The battle for Me will be harsh, impressive words intend to convince My Own that they are chasing after a figment of imagination, all religious dogmas and doctrines will be pulled to pieces and not entirely steadfast people will gradually suffer defeat, because the adversary knows how to use his words effectively. And since the majority of people lack knowledge, since they are spiritually blind themselves, they cannot detect the adversary’s inaccuracy, but they cannot look for and find the truth within themselves either. And they will falter and fall if they do not join Me in the last hour, if they do not (in the last hour) ask Me for clarification which I very gladly grant to anyone who asks, providing he is of good will and wants what is right and truthful. But anyone who trusts in himself, who wants to solve this most important problem intellectually as well, will get lost in the darkness because he is chasing a deceptive light, he believes the convincing words of worldly scholars and admires their keen intellect and conclusions, and he will abandon Me and condemn himself.

Because I know of this conflict since eternity, because I want to help the weak as well as those who are looking for Me, I Am bringing them the truth in advance. And anyone who applies this truth, who becomes worthy to receive it and voluntarily aspires for it will outshine the keen intellect of worldly scholars, he will become knowledgeable, he will receive the ability to reason, his spirit will become enlightened, and nothing will be able to take away his faith, his conviction, because he is taught by Me Myself and has the evidence that I Am and that I want to win all My living creations for eternity. And he will remain loyal to Me until the end.”

God's Message to Rationalists - Deniers of God

BD No. 5744 of 08/11/1953 taken from book 62

God the Father is speaking; 'I want to speak to those who are not yet able to make the right decision, who are not unwilling to believe and yet cannot acknowledge Me with conviction either; to those who oppose the knowledge which My representatives on earth want to make accessible to them with their intellectual knowledge, to those, who first want everything proven to them and believe that they can understand or refute it with their sharp intellect.

Their knowledge kills the spirit. What is described as higher truth, what cannot be proven in an earthly sense, because compulsory faith may not be exercised in earthly life, cannot be fathomed scientifically and even the sharpest human intellect is no guarantee for correct thinking on the spiritual level. I want to put this question to you humans: in which category of the works of creation do you place yourselves? Don't you realize that you are the only thinking and reasoning beings, whereas all other works of creation are unable to exhibit this thinking ability and freedom of thought?

From this alone you can conclude that you were created by a Power which is equally capable of thinking, which is merely infinitely powerful, for despite your faculty of thought you are incapable of creating living beings with the same faculty of thought. You cannot quote your offspring as evidence, since you do not create them yourselves but merely fit in with existing natural laws which also provide you with evidence of a law-giver. Consider furthermore: Is a 'natural force' capable of thought? That is, is it able to bring beings into existence whose organism testifies of supreme wisdom? Would this natural force itself not have to be recognized and acknowledged as a Being with an ability of thought and will and thus be able to create and give life to expedient forms? And is the work of creation not sufficient evidence in itself even for the most intellectually astute philosophers? Indeed, would you be able to substantiate the 'non-existence' of a Being, would you even be able to vaguely quote a comparison as evidence that a force brings forth orderly creations unless this force meets its match in a human being's will?

Let a force become uncontrollably active and you will have a dreadful experience, but you will not be able to produce creations whose expedience and order you can admire. Thus, by virtue of your intellect alone you are able to acknowledge a Supreme Being which you have to regard as the Creator of eternity. It truly does you no honor that you want to deny this Being, that you merely want to explain His activity, which is visible to you in His creation, as the effect of an unguided force, that you thus want to base the emergence of creation on an unconscious and blind process. Such an explanation is truly no evidence of a correctly employed intellect, on the contrary, it is a defiant evasion which you are looking for because you do not want to acknowledge a God, for even with just a weak will both possibilities are considered first, and then a person will rather decide to accept than to reject a spiritually tangible Power which reveals itself in creation.

If you humans knew the serious effect a rejection, a denial of a spiritually tangible Deity has on your soul you would also understand why I want to enlighten you, why I want to stimulate you to seriously think about it so that you will give your misguided thoughts the right direction of your own accord, so that you will be able to believe what seems unacceptable to you as long as you just make one-sided judgments, as long as you believe that you can intellectually ascertain the truth. But the belief in a God and Creator is necessary in order to make a connection with this God and Creator. And this connection with Him is the real purpose and goal of earthly life, otherwise you would truly not have been allowed to embody yourselves on this earth, which was only created for the purpose of My living creation being able to re-establish the unity with God which he once had voluntarily severed. If, however, you deny a God then it means that you are still very distant from Me, it signifies renewed opposition to Me of your own free will, which will incur a dreadful fate in the beyond or a repeated banishment into matter when the end of this earth has arrived. Therefore I would like to address you and encourage you to think it through before it is too late, and even if your earthly knowledge is extensive, you will with certainty penetrate far more profound knowledge if you entrust yourselves to the One Who has created you and Who wants to be recognized as your God and Creator of eternity in order to then helpfully assist you."

Follow Me

Ref: BD 4544 January 18, 1949: Book 52

Jesus is speaking: "Follow Me and the goal that has been set for you since the beginning will be reached by you on earth already. You have to make the effort to live a life of love which will bring you very close to the One Who is eternal love Himself. And if you now bear My life on earth in mind and for the sake of the act of Salvation appeal to Me for reinforcement of your will, you will also find it easy to live in love, for I will help you and constantly provide you with opportunities which enable you to live up to your will to love if you feel the urge to do so.

My life on earth was only a practical application of selfless neighborly love. And the result was the unification of the Father, the Eternal Love, with Me, so that I could use His strength and might, His light and wisdom like My own possession. I was permeated by His spirit, by His strength and by His light. And thus, everything was possible for Me since God Himself was working in Me. As a human being I demonstrated that it is not impossible to be filled by the divine spirit, that thus every human being is able to work the miracles and signs I performed, that the human being can shape himself such that he, as an image of God, can utilize all powers and thus also accomplish whatever he wants.

Follow Me, all of God's strength is at your disposal, He does not impose any restrictions on you, He gives without measure, and you may use everything He wants to impart because He loves you. Follow Me, live a life of selfless neighborly love and you will become perfect and be able to constantly enjoy God's love and blessing. I speak to you as a human being, just as I walked on earth as a human

being, who equally had to attain divine strength through a life of love, and Who was also only able to accomplish the unification with the eternal Deity through love.

I will show you the path which you only need to travel in order to then also recognize the truth of My Word. Let yourselves be urged by Me onto this path, don't offer Me any resistance, try to do kind-hearted deeds and your strength will increase, your will to love will be stimulated, for love itself is strength and if you practice it, whatever you give will also flow back to you again as strength. Try it and let My Words touch your hearts, let yourselves be called by Me and follow Me. I Am the voice in the wilderness of your life. Everything around you threaten to wither away if you don't irrigate the arid area with the divine flow of love, if you don't develop all good instincts through love and increase the strength within you. Do not let My call go unheeded, take notice of it and bear in mind that I don't demand anything impossible from you, for I Myself as a human being had set an example for you as to what love and a human being's will can achieve. Follow Me, and you will be and remain blissfully happy for all eternity. Amen"

God Leads Man to Eternal Bliss.

Ref: (GH3,333 – 19/3/1864) Jakob Lorber

Jesus is speaking: "Human beings live with complete free will, either based on God's teachings or according to their own ideas of pleasure.

During life on earth, their souls are imprisoned in their bodies and have no memory of their previous spiritual life. *As soon as the bodies can no longer serve the souls (due to age or illness), the souls leave the bodies and immediately enter the world beyond. This is the judgment day or first day in the world beyond.*

After 25 to 100 years, the discarded material bodies are gradually transformed into energy free of matter and then added as an eternal covering of the energized soul.

This is designated as the resurrection of the body. On Easter morning, the body of Jesus was also transformed into pure energy and added to his soul as a covering. The Roman soldiers saw this as a flash of light. Additionally, the resurrection of the body means that the good and bad works of man accompany the soul eternally (viewed spiritually). Each soul takes all of its thoughts and dreams and lives in them for the future. By its nature, the soul is our ego consciousness in an energized body, which lives in the world beyond as does the material body in this life. After passing over to the world beyond, the souls are as imperfect as before. They are shown the true teaching of God, free of false doctrine, by the angels. These consist of:

We human beings should love God, our heavenly Father, above all, who, unknown to most, walked the earth in the person of Christ Jesus. And we should love our neighbors as ourselves. We should become humble, living, and acting according to His commands.

No single soul is forced to accept this teaching of love. Also, in the world beyond, souls possess complete freedom of will. Only those souls can obtain eternal

bliss, which willingly live according to the principles of Heaven (humility, love of neighbor and love of God).

With their growing perfection, the souls become younger and more beautiful until, fully youthful, they can live in eternal joy. From Jesus they obtain increasing power, and, on His behalf, they can do great things for the well-being of their neighbors. Also, as quick as a flash (speed of thought) they can travel the whole universe.

There are stubborn, blind souls who did not come to believe in God on earth and lived only based on selfishness, hedonism, pride, and imperiousness, at the expense of their fellow men. For them, it can take thousands or millions of years until they are ready to stop living by the principles of Hell, but by those of Heaven: true humility, love of God and love of neighbor."

"I Am the Beginning of all Things"

BD No. 0750 of 01/21/1939 taken from book 15

God the Father is speaking: "I Am the beginning of all things. Take this to heart when you are moved by the slightest doubt about the creation of everything you see around and above yourselves. If My power is thus sufficient to call every life form into being, what kind of strength would then be necessary to oppose this creative will? An equally destructive will perhaps? In that case a second Deity would have to be at work next to Me, whose expression of strength would run contrary to My own activity. Anyone who imagines the Deity as an imperfect Being can truly place many such gods next to this One, yet he will not have the right kind of concept about the one true Deity, which has created everything and controls all. Anyone who wants to recognize Me must believe and subordinate himself as a creation to the Creator. And he will become enlightened, and in this light, he will see Me as the Ruler of the universe. He will realize that no opposing force is able to counteract Me by working destructively where I Am creating.

Only the physical transformation of the earth's surface has been left to the human being's free will, so that people's creative urge, which I likewise have placed into their hearts, can occupy itself. Thus, they can more or less act at their own discretion, but they nevertheless will always have to recognize their own inadequacy and always be dependent on the omnipotence of the Creator and the activity of natural forces and cannot oppose them arbitrarily. Thus, nothing is more understandable than wanting to ascertain the almighty Creator and yet nothing is more impossible. Human intellect is not sufficient by far to fathom Me in My full elementary power, and it will be even less possible to categorize Me, that is, to put My Being and Becoming into any kind of form which seems acceptable to the human mind.

This is a hopeless undertaking which could never produce a satisfactory result, for I was, I Am, and I forever will be an inscrutable Spirit Who harbors within Himself everything that can be found in the entire universe, to Whom creation is subordinate because it originated from Him, and Who is the beginning and the

end of all things, the **Spirit of Love** from eternity to eternity."

**“I Am with you always
even unto the end of the world”**

Jesus is speaking: “And I say to you: ‘Take,’ do take this work and ‘do not seal it’ but read it and have it read ‘because the time is close’ and let those who are holy become holier. (John, Revelation, 22:10)

May the grace of your Lord Jesus Christ be with all those who in this book see an approach of Mine and urge it to be accomplished, to their defense, with the cry of Love: ‘Come, Lord Jesus.’

I will always be with you because it is pleasant to Me to be with those who love Me.” MV Vol5: 951

The mission of the Lord.

Say I: "In order to show you the issue with a few words, I say to you: *My task and teaching consist simply in showing man where he really came from and what he is, and in pointing out his destiny which will be fulfilled in accordance with the fullest and most evident truth.*
